Bisacrylic self-curing composite resin for fast preparation in the surgery of temporary crowns and bridges. 4:1 Cartridges

Advantages

- Practical: the cartridge selfmixing system permits optimal dispensing
- Functional: it develops very low temperatures during polymerization
- Die protection
- Respect of tooth-periodontal relation
- Tooth position preservation
- Resistant to occlusal ad removal forces in masticatory cycles
- Possibility of variation in shape and profile
- Possibility of aesthetic characterization
- Repairable

Characteristics

- Self-mixing system in 4:1 cartridge
- Monomer-free,multifunctional methacrylic esters formulation
- Can be relined
- Can be polished
- Available in three stable, brillant shades

Air Abrasion Systems

Sofreliner (Tokuyama)

SOFRELINER® MS/S is a silicone based chairside soft denture reline material. Sofreliner® comes in 2 variations: Sofreliner® S (Soft) and Sofreliner® MS (Medium Soft). Sofreliner® S offers greater comfort with extremely soft texture, and Sofreliner® MS offers durability and high tear and stain resistance.

Sofreliner® cures in 5 minutes 30 seconds intraorally without odor, taste or chemical irritations.

Aquacut Quattro, Air Abrasion System (Velopex)

Aquacut Quattro Unit, Air Abrasion System
(Velopex Mfg Part # : QUATTRO)
The AQUACUT's unique fluid curtain suppresses the powder emissions common with air abrasion units from the past,
while simultaneously increasing cutting efficiency by constantly removing debris created during the cutting process.

HG5 Amalgam Separation System (Solmetex)

•Professionally engineered, robust, simple design
•Easy to operate and maintenance free
•Flexible for wet or dry vacuum systems
•System is clear making it possible to visualize functionality
•Simple collection container change process includes no tools, no mess:packaging for delivery to certified recycler, recycle certificate issued to practice, no middleman required for disposal, no additional
•No contracts with hidden fees
•No electricity required
•No decanting, pumps, timer
•2 Year Warranty
Recycle Kit; mail in program includes a new container, proper box for shipping spent container, shipping to the recycler, recycling and documentation

The SolmeteXHg5 system has received the Townie Choice Award 10 consecutive years in the Amalgam Separators category, making the Hg5 Series the most award winning systems in North America.

Autoclaves & Sterilizers

Autoclave, Sterilizer Unit (Tuttnauer 2340M)

Tuttnauer 2340M Manual Autoclave, Sterilizer

Manual autoclave is designed to compliment any healthcare facility. The bright new easy to use panel was designed with the operator in mind. Our 2340M autoclave will satisfy all of your sterilization needs without compromising on quality, safety or reliability.

Features:
- Automatic shut off at the end of both the sterilization and dry cycles
- A long life electro polished chamber and door
- Double safety locking device prevents door from opening while chamber is pressurized
- Drain valve is located on the front, allowing for quick and easy draining of water reservoir
- Dual safety thermostat to protect against overheating
- International certifications
- **1 year warranty**

Tuttnauer 2340M	30-11145	**$3195.00**

Statim 5000 Automatic Autoclave (SciCan)

Fully automatic. Simply select one of four sterilization programs and with a single touch of the keypad, begin the cycle. An advanced microprocessor controls all functions and maintains optimal sterilization conditions, from start to finish.

SciCan's Statim cassette sterilizers have a biological effectiveness that has been proven in tests for hollow and solid instruments at many internationally recognized institutes in Canada, the United States and Europe.

Cycle times do not include drying

Specifications:
- Unit Size: L 21.75" x W 16.25" x H 7.5"
- Cassette Internal Dimensions: L 15" x W 7" x H 3"
- Reservoir Capacity: 4.0 litres (distilled water) Approximately 40 cycles
- Weight without water: 33 kg / 72 lbs
- Power Consumption: 110-120 V, 60Hz, 1300 W

Optional Stat printer:
- Type: Thermal Printer
- Print: 20 characters/line
- Speed: 1 line/sec
- Capacity: 80 cycles/roll

Unit	30-26011	**Call for Price**

Dry Heat Sterilizer (CPAC)

The Only F.D.A. registered dry heat sterilizer of its kind.

It takes about 15-30 minutes from normal room temperature it reaches desired sterilizing temperatures 160° to 180°C (320° to 360°F).

In addition to that--allow one(1) hour to sterilize at 320f.

Avoid sterilizing items likely to melt during heat process (like rubber, plastic, etc).

Prestige Cassette Sterilizer

Stylish aesthetics, together with a host of enhanced features, build on the successful attributes of the original Series 2100 range, to ensure the 2100 'Classic' perfectly complements today's modern clinics and the exacting needs of the health-care professional.

Prestige Medical 210025 Dental Cassette Sterilizer, as an ISO 9001-2000 / EN13485 accredited company ensures all products including the 2100 Classic have been designed to

Autoclaves & Sterilizers

products including the 2100 Classic have been designed to the latest international standards for safety and performance and are fully CE marked to the Medical Devices Directive 93/42/EEC.

Specifications:
- Chamber Size: 9" (H) X 8" (W) 0" Deep
- Automatic (electronic) controlled
- Steam Sterilizer Power Supply: 110V
- 16 minutes cycle
- Table Style

Unit	30-11306	**1199.00**

Rapid COX Dry Heat Sterilizer (CPAC)

6 Minutes cycle Low maintenance No supplies needed

- You can adjust the time to: 6 Minutes cycle time for unwrapped Instrument, or 8 Minutes cycle time for Hand pieces, or 12 Minutes cycle time for wrapped Instrument
- Contaminated Implants or those needing alterations can be re-sterilized fast
- Avoids added risk and time of making new appointment and re-sedating patient if alteration is needed
- Quick cycle times which reduce needs for increased instrument inventory
- Excludes corrosion, rust and dulling associated with steam sterilizers
- No foul odors, chemical residues or possible health hazards attributed to chemical sterilizers
- Scheduling of your patients at your convenience instead of waiting for sterilization of long cycle sterilizers

Best Quality Dental Supplies

Autoclaves & Sterilizers

Manual Kwiklave Sterilizer (Tuttnauer 2540MK)

The Tuttnauer 2540MK Series is also available in a quick cycle model, the Kwiklave (MK). This sterilizer offers all the proven, dependable features of our manual autoclave, with the added benefit of reducing the total heat up time. This autoclave is the perfect choice for quick instrument turn-around or a high volume office. Speed and reliability are accomplished without sacrificing load size. 1 year parts and labor warranty. Model 2540MK requires a voltage between 220V and 235V for proper operation.

Features:

- Automatic shut off at the end of both the sterilization and dry cycles
- A long life electro polished chamber and door
- Double safety locking device prevents door from opening while chamber is pressurized
- Drain valve is located on the front, allowing for quick and easy draining of water reservoir
- Dual safety thermostat to protect against overheating
- International certification
- **1 year parts and labor warranty**

Tuttnauer 2540MK 30-11274 **3749.95**

Large Capacity Fully Automatic Autoclave/Sterilizer (Tuttnauer 3870EA)

Our largest automatic table top autoclave. Features a closed door active drying system. Perfect for multi-doctor practices, clinics or surgery centers. 15"x 30" chamber accommodates longer instruments or a large number of small instruments. Capacity for 15 full size IMS cassettes. 2 year parts and labor warranty.

Features:

- Closed door active drying system to maintain sterility and ensure efficient drying of packs and pouches
- Hepa filter 0.2 µm air filter (replaceable)
- Rapid cycles optimize the availability of ready-to-use sterile instruments
- Easy-to-use, single touch control system increases productivity
- 3 Pre-set sterilization programs
- Program and customize cycle parameters to suit your needs and maximize flexibility
- Integrated printer for cycle documentation (optional)
- Interdependent temperature and pressure monitoring
- Cycle information recovery in the case of power failure or cycle interruption
- Insufficient water detector with automatic shut-off

Elara 11 Class B Automatic Autoclave Sterilizer (Tuttnauer)

The Elara 11 Sterilizer is designed for sterilization of wrapped, porous and hollow loads. The chamber volume is large, external dimensions are small, making it especially suitable for smaller clinics requiring a high turnover. The control system is smart and intuitive, easy to use and has a large memory for consistent and reliable performance.

Efficient:
•Short cycle and high volume pre and post vacuum pump for perfect class B sterilization results
•316L grade stainless steel chamber and door with electro-polish finish
•A built-in steam generator provides steam and facilitates a standby steam mode
•The door closes smoothly and locks automatically

Features:
•Large 7.5 Gallon chamber within a small foot print. A perfect fit for standard 24 inch shelves or counters
•Provided with 5 stainless steel trays and can also hold cassettes
•Water filling from the front economizes on office space by eliminating the need to keep the top of the autoclave accessible

Safety Features:
•A cycle will not start unless the door is properly locked
•An automated double locking safety device prevents the door from opening while the chamber is pressurized
•An automatic safety shut-off prevents overheating of the chamber
•The autoclave comes with safety pressure-release valves for the chamber and generator

Elara 11 Class B	30-11190	**Call for Price**

EZ Automatic Autoclave/Sterilizer (Tuttnauer)

Fully Automatic Autoclaves EZ9TM & EZ10

With the simplicity of one touch design, all your sterilization and drying needs are fulfilled. The Tuttnauer fully automatic autoclaves fill, sterilize, exhaust and dry at the touch of a button. FORGET IT ONCE YOU SET IT.

Features:
•Closed door active drying system to maintain sterility and ensure efficient drying of packs and pooches
•High efficiency air pump circulates hot air after the sterilization cycle for fast drying
•Hepa filter 0.2µm air filter (replaceable)
•Pre-programmed cycles for: unwrapped instruments; wrapped/packs; glassware and additional drying cycle
•All program parameters can be customized and stored
•Automatic shut off at the end of both the sterilization and dry cycles
•Audible and visual cycle interruption alert
•Double safety locking device prevents door from opening while chamber is pressurized
•Low water sensor prevents activation of sterilization cycle when there is insufficient water in the chamber or reservoir.
•Constant monitoring of temperature and pressure for sterilization
•Power outage recovery system
•Door design prevents steam from coming in contact with control panel
•Optional internal printer documents: date, time, temperature and pressure
•510k clearance for dental hand pieces
•Drain valve is located on the front, allowing for quick and easy draining of water reservoir
•International certifications
•2 year parts and labor warranty

Fully Automatic KwiklaveTM EZ 10K

The Tuttnauer EZ series is also available in a quick cycle model, the Kwiklave (EZ10k). This sterilizer offers all the proven, dependable features of our fully automatic autoclaves, with the added benefit of reducing the total heat up time. This autoclave is the perfect choice for quick instrument turnaround or a high volume office. Speed and reliability are accomplished without sacrificing load size. 2 year parts and labor warranty. Model EZ10k requires a voltage between 220V and 235V for proper operation.

Occlufast CAD (Zhermack)

A-Silicone for bite registration developed to be used with all CAD CAM systems

Advantages:
- Compatible with CAD-CAM systems using optical, laser and contact reading
- Fast: 60 secs permanence in the oral cavity
- Imperceptible consistency for the patient who bites naturally
- After setting occlufast CAD can be finished with a cutter and/or bur
- Product easy to apply in the mouth, both with the bite technique and vestibular side applications

Characteristics:
Thixotropic, does not drip, hard (95 Shore A),Precise, dimensionally stable over time and to disinfection, can be repositioned in the mouth and on the models after setting, light blue color

- **Rigid set (95 Shore-A)**
- Very precise
- Extra fast
- **Time in mouth less than 60 seconds**

Blue 2x 50ml cartridges/12x green mixing tips — 16-11133 — **33.95**

Occlufast Rock (Zhermack)

A-Silicone for bite registration. Maximum intercuspidation bite registration, centric, protusion or lateral registrations, gnathological evaluations, diagnostic evaluation of cranialcervivalmandibular disorders, orthodontic centric occlusion

Advantages:
- Imperceptible consistency for the patient Easy handling and bubble-free Positioning control
- Accurate and stable impressions: zero thickness
- Easy to trim for excess material removal
- Flow able: it avoids pressure and slipping during positioning
- Accurate: maximum dimensional variation of just -0.05% after 24 hours allows long-term stability
- Non-deformable: it is not affected by any thermal shocks during transport

Characteristics:
Final hardness 95 Shore-A, Fast: 60sec permanence in the oral cavity, Thixotropic purple color

Violet 2x 50ml cartridges/ 12x green mixing tips — 16-11134 — **33.95**

Danz Tray Kit 20 Soft EVA templates and fabrication instructions. Standard Tray (for bleaching and average size arches)	17-111281	**25.50**

Bleaching Products

Duet-30 Teeth Whitening (Nu Radiance)

Duet's dual barrel syringe system perfectly blends carbamide peroxide and a water based activator for fast whitening and to eliminate fluid movement, preventing the onset of sensitivity.

Syringe Eight Pack 8 - 4 ml dual syringes, mixing tips and patient instructions.	17-11133	**35.99**
Bulk Pack 36 - Individually packaged 4 ml dual syringes, mixing tips and patient instructions.	17-11135	**137.50**
Patient Kit 6 - 4 ml dual syringes, mixing tips, EVA material, storage case and patient instructions.	17-111361	**28.00**

Forté Teeth Whitening (Nu Radiance)

Nu Radiance Forte with calcium strengthens and whitens teeth at the same time, without causing sensitivity. Forte's blend of activated gels require only brief 30 minute wear- times. Forte's calcium rich formula is also effective in treating white spots from de-calcification, such as following orthodontic (bracket) treatment. See exceptional whitening results in as little as 5-8 days while increasing tooth surface hardness and promoting

Touch Up Kit 1 - 4 ml dual syringe, multiple mixing tips and instructions.	17-11141	**9.95**
Bulk Pack 36 - Individually packaged 4 ml dual syringes, multiple mixing tips and patient instructions.	17-111441	**221.95**

Insty Tray (Nu Radiance)

Single Use Wax Tray
Instant forming wax tray wraps itself around the teeth, providing a comfortable, cost effective method for the application of bleaching gels, remineralization pastes, fluoride gels and other high viscosity gels.

Insty-Tray Kit 4 pack of 10 wax trays with instructions	17-111671	**19.30**
Insty-Tray Kit 18 packs of 10 wax trays with patient instructions.	17-111681	**69.30**

Warm and Form Bleaching Tray (Nu Radiance)

Requires no chair time. Patients form a custom mouth tray at home by simply dipping the tray into hot water and forming it to their teeth.

3 trays with patient instructions.	17-11200	**3.50**
20 packs of 3 Trays each with patient instructions.	17-11201	**53.50**

Fluorescence take home whitening system (Vista)

Fluorescence is a take home whitening system that is controled and supervised by dentist.
It is a 16% or 20% clear and viscous carbamide peroxide gel that is mint flavored and dispensed in unit dose syringes.

Refill Kit 16%, Contains: (40) 1.2 mL prefilled syringes with tip	17-87663	**109.95**
Doctor Kit 22%, Contains: (8) 1.2 mL prefilled syringes with tips, (1) tray case, (2) EVA tray sheets (.040 mm) 5x5,	17-87662	**31.95**
Doctor Kit 16%, Contains: (8) 1.2 mL prefilled syringes with tips, (1) tray case, (2) EVA tray sheets (.040 mm) 5x5,	17-87661	**31.95**
Refill Kit 22%, Contains: (40) 1.2 mL prefilled syringes with tip	17-87664	**109.95**

Fluorescent Express Whitening System (Vista)

Compare to Ultradent
In-Office Whitening System
Powerful 35% hydrogen peroxide
Whitens fast in just one office visit
Single procedure kit - no mixing required

In-Office Whitening System Kit, Contains: 2 - 1.2ml prefilled hydrogen peroxide gel syringes, 2 - 1.2ml prefilled desensitizing gel syringes, 1 - 2ml prefilled liquid dental dams, 1 - Cheek retractor, 1 - White surgical evac tube, 5 - 22ga pre-bent tips,	17-87651	**45.95**

Bone Grafting Material

Prestige Dental Products, Inc.
Tel: 877-772-3888

ArrowBone - Beta Bone Grafting Material (Brain Base)

pure phase tricalcium phosphate bone grafting material that is completely resorbable, while simultaneously enabling new bone formulation. Its unique osteoconductive granule structure with open micro-and macro-pores allows for faster replacement by newly formed autogenous bone. The osteoconductive scaffold stimulates cellular activity as a result of its excellent biocompatibility and due to the high purity chemical synthesis materials, potential infection risks associated with bone substitutes of biological origin are avoided.
Granule size: 250-1000µm

ArrowBone-B 0.5g	18-11111	**69.95**

CytoFlex Tefguard Non-Resorbable Membrane (Unicare)

CytoFlex® is a non-resorbable membrane for use as a space-making barrier in guided tissue regeneration procedures.
Composed of a proprietary micro porous polytetrafluoroethylene (PTFE) thin film,
CytoFlex® has a surface texture and porosity suitable for adhesion of host cells to the material while preventing passage and integration of bacteria within the interstices of the material.
The supple membrane conforms easily to tissue contours, and yet offers sufficient stiffness to maintain a space over the bony defect.
The smooth, micro-texture surface is designed to improve flap attachment but prevent tissue and bacteria ingrowth.
FDA has approved Cytoflex® for use as a barrier membrane in the treatment of periodontal defect using guided tissue regeneration procedures.

Mesh 25mm x 30mm, 5/Pkg	18-12112	**198.95**
Tefguard Membrane NonResorbable 25mm x 30mm 5/Pkg	18-11112	**194.95**

Cytoflex Microporous Resorbable Barrier Membrane (Unicare)

Cytoflex® Resorb is an absorbable membrane for use as a space-making barrier in guided tissue regeneration procedure. Cytoflex® Resorb membranes are designed to enhance the adhesion of host cells, and at the same time provide a favorable environment for neo-vascularization and repopulation of bone cells to regenerate osseous tissue. The flexible barrier membranes are easily adaptable to tissue contours, yet offer sufficient strength to protect the bony defect from the intrusion of bacteria and soft tissue. Composed of synthetic polylactide and polyglycolide copolymers, Cytoflex® Resorb barriers are resorbable and do not require a second retrieval procedure.

30x40mm Pkg of 2	18-11114	**184.95**
30x40mm, Each	18-11115	**109.95**

Cytoflex Titanium Mesh (Unicare)

Cytoflex® Mesh is made of a pure, implantable Titanium mesh with precision mesh profile. This product is designed for use to ensure three-dimensional reconstruction of alveolar bone defects and to facilitate bone augmentation through adequate fixation of the augmentation material.

The thin, supple mesh conforms easily to tissue contours, and yet presents sufficient stiffness to maintain a space over the bony defect.

Each CytoFlex® mesh is double pouched and provided sterile.

25mm x 30mm, 5/Pkg	18-11113	**174.95**

Bone Grafting Material

UniGraft Synthetic Bioactive Glass Material (Unicare)

Unigraft is made of the highest quality bioactive glass by a proprietary process. The synthetic bioactive granules are optimally sized for ease of administration and enhancement of tissue growth. The product is conveniently packaged in a sterile vial, which is stored within a hermetically sealed foil pouch to ensure product sterility prior to implantation. Unigraft not only offers an osteo-genic framework for new bone growth, but also bolsters a higher level of osteoblastic activity to enhance bone regeneration. FDA has cleared this product for use in treating periodontal defects, extractions sites, cranial and facial augmentation and augmentation of the alveolar ridges.

Easy to use:
Hemostatic -- quickly stabilizes the wound site
Compatible with autologous and freeze-dried bone
Bioactive :
Accelerates bone regeneration
Transforms into natural bone with time
Safe Alternative to Freeze-Dried Bone:
Consistent high quality
Free of disease transmission
No complicated release forms or restrictions for blood-donors

200-420 Micron, 1.0gm, 5/Pkg	18-11133	**259.95**

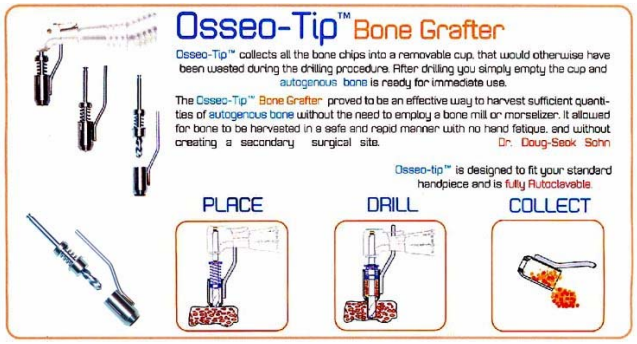
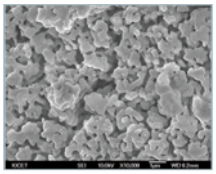
Tip Bone Grafter (Osseo Scientific)



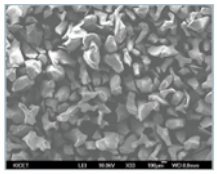
Osseo-Tip Bone Grafter	36-11291	**90.99**

DM Bone (Meta Biomed)

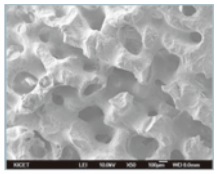
M-Bone is a bioactive bone graft material, which is resorbableand able to be replaced by new bone. DM-Bone is a ceramic constituted of two-phase of silicon (<1wt%) contained coralline 60% hydroxyapatite and 40% beta-tricalcium phosphate.



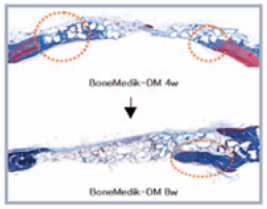
BoneMedik-DM surface: interconnected Nano and Micropores

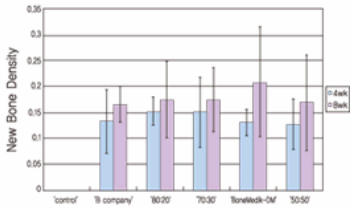


Nano and Micropores Granular shape of BoneMedik-DM



Internal Structure of BoneMedik-DM





Silicon containing porous Hydroxyapatite(Si-Content:Avg.0.6 wt%)
Optimum balance between HA and β-TCP in the ratio(%), 60:40
Silicon ion technology speeds up the Bone Regeneration & Heal Activation
Outstanding Biocompatibility(No Biological Rejection, No Disease Transmission)
Excellent Osteoblastic Activity with wide surface area:72% Porosity

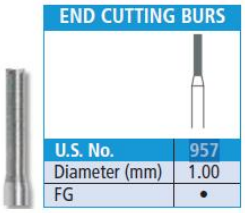
FG End Cutting Carbide Burs (Johnson-Promident)

Used to produce a flat preparation floor, refine preparations, and to mark the depth of bone reduction in crown lengthening. Help reduce any possibility of impacting the surface of the adjacent tooth with the cutting surface of a bur



Johnson-Promident carbide burs were rated as a TOP PRODUCT OF 2012 by an independent evaluation in Dental Product Shopper magazine, receiving the highest rating ever given to a carbide bur!
The overall rating was 4.5 out of 5, with high ratings across all categories, including chatter/vibration, speed, durability, and cutting efficiency. 91% of evaluators stated that they would definitely or probably recommend our burs to colleagues.

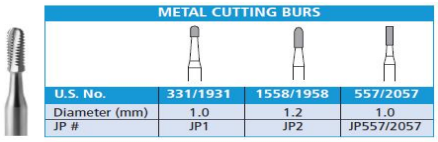
FG Metal Cutting Carbide Burs (Johnson-Promident)

Provide maximum cutting efficiency



METAL CUTTING BURS

U.S. No.	331/1931	1558/1958	557/2057
Diameter (mm)	1.0	1.2	1.0
JP #	JP1	JP2	JP557/2057

•JP 1: Ideal for removing PFM crown and non-precious meta
•JP 2: Ideal for quick titanium abutment adjustments without the sparking associated with diamonds and for removing old restorations in secondary decay

Johnson-Promident carbide burs were rated as a TOP PRODUCT OF 2012 by an independent evaluation in Dental Product Shopper magazine, receiving the highest rating ever given to a carbide bur! The overall rating was 4.5 out of 5, with high ratings across all categories, including chatter/vibration, speed, durability, and cutting efficiency. 91% of evaluators stated that they would definitely or probably recommend our burs to colleagues.

Cameras - Photography

CU2 Digital Video USB intra oral camera (MyRay)

Digital USB 2.0 Camera with Progressive Scan Technology

The MyRay C-U2 Intraoral Camera generates clear, explicit images and features the highest degree of illumination.

The digital video system is fully integrated into the handpiece, and progressive scanning allows perfect image-freeze and guarantees top-quality definition.

The viewing angle is partially inclined away from the extremity of the handpiece for easy access to distal and rear tooth areas.

The C-U2's 12 micro-light provide the highest degree of illumination in its category.
Communication made simple: Efficient communication thanks to sharp images. Encourage patients to undergo treatment by involving them at each step of the plan. Visual communication is a simple and hands-on experience. C-U2 brings this type of communication to life: straightforward and simple to use, totally automatic without the need for any manual adjustments, it generates clear and explicit images. Technologically advanced beneath the surface, it is easy and intuitive to use.

C-U2 is the communication tool designed for professionals who have chosen to increase their efficiency through the use of a computer in the operating area, right beside where they work. The use of a computer makes acquisition and filing of dental images a simple task, organising them in nominal clinical folders, and ensures long-term rapid access for consultation purposes.
C-U2, digital by nature.

12 micro-lights: The highest degree of illumination in it's category, enabling an efficient spread of light examining the oral cavity, thus producing bright images w/sharp defined colors, Automatic brightness setting, Progressive scan, Communication made simple, Focus Free, Touch Sensitive Control, Retro Flex Vision, Easy to use and Quick connect

ItraOral Camera USB2,	20-11122	**1694.95**

MultyCam Intraoral Camera USB Type (Dentazon)

Multy Cam USB Type Full Set, includ: MultyCam, USB Cable, Camera Holder and 300 Pcs. Camera Sheath	20-11125	**669.95**

Cammy USB Intraoral Camera (Dentamerica)

Directly connects to a computer via the USB port.
Designed with a freeze button to capture images and a joystick to control digital zoom.
Self-sufficient, CCD technology, digital image processing.
Four white LED lamp illumination to provide maximum reallistic color reproduction.
built-in lens protector designed to prevent dust and scratches to optical components.
Mini-head design allows for easy access to third molar.
Lightweight (only 92 grams). ergonomically designed handpiece.
User friendly software. Easy to use and integrate into patient management software.
Digital images can be easily stored, retrieved and transmitted electronically.
Disposable sleeves included to prevent cross contamination.

Camrex 191A Intraoral Camera (Dentamerica)

Intraoral Camera with Multiple Image Memory

The CAMREX handpiece is small and lightweight, weighing in at only 89 grams. It contains 4 white LED lamps for illumination to provide maximum color reproduction. The CAMREX has a 4 freeze frame memory stored in its video process unit. Single images can be viewed full screen or 4 images can be viewed simultaneously in a split screen format. The toggle switch is conveniently located on the handpiece so that the user can rotate through the captured images with ease. A built-in lens protector is designed to prevent dust and scratches to the optical components. Also included are disposable sleeves designed to fit snugly on the handpiece to prevent patient cross-contamination.

The Camrex is truly universal, being offered in the NTSC and PAL video formats as well as coming with a universal AC power source (AC 100V~240V). Live images are captured by using either the handpiece freeze button or the included foot pedal. The foot pedal has a special circular design so that it can be comfortably activated from all 360°. The CAMREX 191A is incredibly easy to setup. Just four connections are needed: the AC power supply, the CAMREX handpiece, the foot pedal, and the television video cable. You will be up and running in no time with the simplicity of the CAMREX 191A.

Camera 191A with America NTSC System	20-11117	**739.95**
Camera 191AP with Europe PAL System	20-11116	**739.95**

Camera with NTSC System	20-11121	**984.95**
Zoom Lens each	20-11119	**48.95**

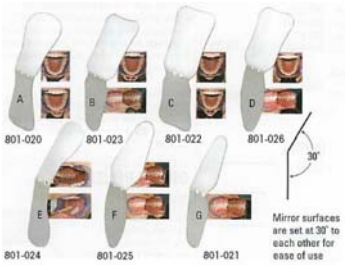
Any Multipurpose Intraoral Camera (GoodDrs)

Anything Anypurpose
'any'

With Any you can check your oral health at home
You can manage your oral health and your family's oral health easily if you only invest one minute a day with ANY
Save time and money with early detection
Easy to install and use. Produces quality images similar to professional microscopes used in dentistry.
Also can enhance your dental office's image by increasing the chance of early detection of cline's oral problems.
Disposable plastic covers so you can share ANY with your whole family.

Any Multipurpose Intraoral Camera	20-11111	**99.99**

Photographic Mirrors (Ortho Technology)



double-ended mirrors are perfect imaging solution.
High reflectivity and are vitually indestructible.
Autoclavable up to 273F/134C.

TRIED & TRUE

Embrace WetBond Resin Cement

Since introduction almost a decade ago, Embrace WetBond Resin Cement remains among the top cements in dentistry.

Metacem (Meta Biomed)

Adhesive Resin Cement
High strength permanent dual cure resin cement
(Compare to Rely-x ARC from 3M)

Application

- Crowns & Bridges (ceramic, composite, porcelain)
- Inlay/Onlay cementation
- Bonding for porcelain veneers
- Endodontic posts cementation

Advantages

- Easy to use for cosmetic indirect restorations.
- Provides high resistance to compressive force.
- Provides a dual-cure for highly shaded, thick or opaque cementation.
- 5 shades correspond with the VITA shade guide. (A1,A3, B2, TL(Translucent), OP(Opaque))

Kleer-Veneer (PulpDent)

THE CHOICE IS KLEER

Light Cure Self-Adhesive Veneer Cement

Kleer-Veneer is a one-of-a-kind, moisture tolerant, self-adhesive veneer cement. No bonding agents are required on enamel, nor is silane required on ceramic. Etching and bonding to dentin is indicated. The CLEAR shade is clear before and after curing for accurate visualization of shade and esthetics after try-in with water.Unique consistency holds veneers in place without drift prior to curing.**The invisible cement that will not alter tooth shade is also available in 3 opaque shades for neutralizing existing tooth color.**

Tooth Matching Light

Rite-Lite Shade Matching Light (AdDent)

L.E.D. Shade Matching Light Designed to eliminate costly remakes, the Rite-Lite shade matching light incorporates LED technology to provide simulated north sky daylight with a standardized color temperature of 5500K. The small, handheld, portable unit comes with neutral color tabs for placement behind the teeth to eliminate environmental color distractions.

Polymer

Direct Crown (Direct Crown)

An excellent alternative to conventional temporary crowns and bridges, Direct Crown® is a pre-formed shell made of high impact flexible polymer. When filled with the Direct Crown® resin and molded over the prepared teeth, the shell forms an extremely hard and wear-resistant temporary crown or bridge with excellent margins and contacts.
The Direct Crown® resin is a hybrid resin/monomer mixture which sets in approximately 90 seconds. When set, the resin and the Direct Crown® shell literally become one bonded unit—strong, durable, and comfortable for the patient.

Adult Kit Contains: 112 adult crowns, powder, liquid, 5 mixing bowls, liquid dropper, instructions — 24-99422 — **206.95**

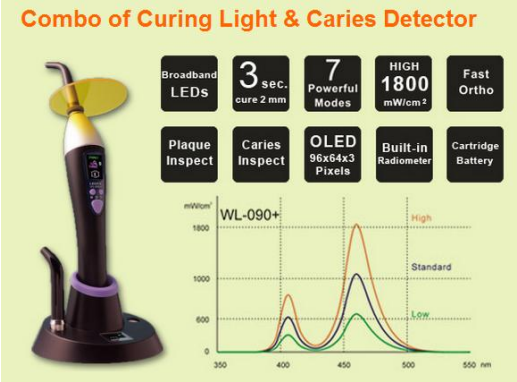
Curing Light Units

Ledex Violet LED Curing Light Unit (Dentmate)



•Radiant intensity up to 1800 mw/cm2
•Color: Black only
•LEDs type: 10 watt violet & blue LEDs
•LEDs wavelength: 390 ~ 480 nm, peck: 405, 460 nm
•Efficient optics: Up to cure resin 2mm in 3 seconds (High Mode)
•Handpiece size Ø 38 mm (max.) x L190 mm
•Handpiece weight 180g
•Cradle size Ø 115 mm (max.) x H68 mm
•Battery type Lithiu-ion, 3.7V, 2500mAh
•Battery charge time Apprx. 2.5Hours
•Operating time 720 times in 10 seconds standard mode
•Power supply Input: 1~ 240 V, 50/60 Hz, output: DC 5 V / 1.2 A

Full Unit: Hand piece, Battery, Cradle, Power supply (AC100~240V/DC5V), Optical fiber light guide rod (Ø 11>8mm), Optical fiber light guide rod (Ø 11>5mm), Filter, FINDTM Optical Filter, Anti-glare shield, Light Guide Sleeve, Curing Light Sleeve and User'	25-99971	**599.00**

ART-E1 Electrosurgery / Cutting Unit (Bonart)

One of the best selling and most popular products
State of the art radio frequency electrosurgical unit proudly manufactured and offered by Bonart. Unit is comparable to major brands. Great quality&economical.
Comes with:

7 piece variety electrodes set,
1 hand piece,
1 indifferent or grounding plate,
1 power cord,
1 foot switch.

Operation mode of cut, coagulation, cut-coagulation.
Operation mode is monopolar.
Output power is up to 70 watts.
Operation frequency is at 1.5 to 1.7 MHZ with 10 different power settings.
Unit is a monopolar mode but bipolar converter is optional and available upon request.
Electrodes are autoclavable, 1/16" diameter shaft.
Made universal to other major electrorsurgical brands.
Ideal for human (dental and dermatology use) and veterinary use.

ISO Certified;CE Certified; 510k registered!

Warranty Terms:
2 year limited warranty on the internal PC board and electrical components
1 year limited warranty on the hand piece assembly, foot control, power cord etc.
120 days on the expendable part like electrode tips

Complete Unit with 7 Pc. Electrodes	27-11111	**429.99**

Lifeline Aed (Defibtech)

Defibtech has designed a revolutionary new semi-automatic external defibrillator, from the ground up.
Simple and unintimidating to use that even non-medical personnel can effectively save lives.

Emergency Products

This enables the device to exceed the American Heart Association performance recommendations, giving the user confidence the correct therapy is being delivered.

The Lifeline AED defibrillator uses advanced biphasic technology and automatically adjusts the shock delivery to the person's individual needs.

Nitrous Oxide

Reservoir Bag (Accutron)

3 Liter, each	30-89081	**39.95**

Scavenging Circuit (Accutron)

- Low profile scavenging assembly
- Clear exhalation valve bulb
- Easy-to-read vacuum control gauge
- Autoclavable, X-ray compatible circuitry
- Scavenging Circuit II Includes: Circuit, reservoir bag, corrugated tube and complimentary sampling of PIP + Nasal Hoods
- Scavenging Circuit I Includes: Circuit and complimentary sampling of PIP + Nasal Hoods

Scavenging Circuit II, each	30-88240	**524.47**
Scavenging Hub, each	30-88241	**41.95**

Dynomite Scented Single Use Nasal Hoods (Midmark)

- Latex-Free
- For nitrous oxide delivery
- Reduces risk of cross infection
- Helps put your patients at ease
- Choice of four fresh scents or plain
- Designed for a soft, snug fit

- X-Ray compatible

Universal Conversion Kit: Allows easy conversion of most industry four-tube nitrous oxide scavenging systems (porter/Brown/Accutron) Contains four parts: 1 hood, 1 scavenging cone system—vacuum ports and one-way exhalation valve, and 2 double lumen tubing assemblies

Endodontics

Endo Ice (Hygenic)

6oz Spray Bottle 29-16551 **17.95**

Formocresol Bottle

Endodontic medicament for root canal therapy and for pulp devitilization

1oz Bottle 29-16561 **24.95**

Micro Aspirators (Vista)

•Universal high-speed, low-speed valve fitment available on autoclavable style
•Provides for fast and efficient micro aspiration
•Virtually eliminates the need for paper points
•Bendable needle that resists crimping

20g Luer HVE Adap. 20/Pkg 39-24851 **17.95**

Endo Units

Therma-Flo Composite Applicator (Vista)

Therma-Flo™ Composite Applicator is revolutionizing composite delivery!

Fill bulk restorations in seconds - multiple levels for improved composite handling properties and increased ability to use highly filles composites.

Features:
•Automated delivery of composite material
•Warms up to four compules for multiple restorations or layering
•Adjustable heating levels for improved composite handling properties
•Allows increased ability to use highly filled composites
•Tip maintains heat level for optimal temperature at point of delivery
•Cordless, compact, lightweight – ergonomic design reduces hand fatigue
•Compatible with most standard compules

Full Unit: 20 of 2x Step-Down tips, 20 of 4x Step-down tips, Rechargeable handpiece & warming base with 3 nose cones 29-26201 **1149.95**

Step Down tips 2x, 40 Cup/Pkg 29-26202 **29.95**

Step Down tips 4x, 40 Cup/Pkg 29-26203 **29.95**

Therma-Flo Composite Warming Kit (Vista)

For precision placement of highly filled composites…

Therma-Flo™ is a warming kit engineered for optimal composite performance.

Evidence shows that when highly filled composites are heated, they perform with the same clinical ease of flowables!

Vista's new Therma-Flo™ Composite Warming Kit offers you an easy way to increase the flowable viscosity of composite material without compromising tensile strength, wear-resistance or aesthetics.

Benefits of HEAT:
•Increased flowability = Easy extrusion
•Improved polymerization= Reduced voids
•Reduced curing time
•Greater wear resistance

Composite Warming Kit Features:
•Heats composite up to 155° F
•Warms multiple compules – dome accommodates multiple syringes
•Compatible with most standard compules and composite syringes
•Includes *patent pending* Step Down tips – for precise placement of composite material

110V Kit: (1) Warmer unit (2) Composite syringes (20) 4X Step Down tips (20) 2X Step Down tips 29-26221 **495.95**

220V Kit: (1) Warmer unit (2) Composite syringes (20) 4X Step Down tips (20) 2X Step Down tips 29-26222 **495.95**

Step Down tips 2x, 40 Cup/Pkg 29-26211-1 **29.95**

Step Down tips 4x, 40 Cup/Pkg 29-26212-1 **29.95**

Vibringe Sonic Irrigation System (Vibringe)

The Vibringe is the first endodontic sonic irrigation system that enables activation of the irrigation solution, acoustic streaming, in the root canal, in only one step.
The activation of the disinfectant enriches and completes your irrigation procedure and improves the success rate of your endodontic treatments, without any hassle!

Endodontics

Vibringe® is developed to make the dental practioners life easier. That is why we design easy-to-use products. At Vibringe B.V. we believe that we should not interrupt into your actual processes and routines too much. Therefore the Vibringe® embraces your actual irrigation procedure, but will improve your success rate by using the patented sonic flow technology which causes acoustic streaming in the root canal.

Superclean: Vibringe® has been clinically proven to realize a more thorough debridement and disruption of the smear layer than conventional hand irrigation. The patented sonic flow technology will realize a full irrigation to the apex and eliminates blockage. The Vibringe® is enabling the solution to reach and disinfect all portions of the canal. One can think of the lateral canals, fins, webs and anastomoses. When using ultrasonic irrigation, the Vibringe® is a perfect complementary device instead of the normal syringe to realize an even higher predictable outcome.

Vibringe® has clinically proven that it removes organic and inorganic debris from hard-to-reach areas ***faster*** than the conventional syringe.

Vibringe® is shown to be ***completely safe*** for all endodontic irrigation procedures and is compatible with all irrigation solutions like for example sodium hypochlorite and EDTA.

Vibringe® designed and developed this product in close cooperation with ***general practioners and endodontists.*** During this extensive research and development stage finally 8 out of 10 ***dentists love to work with Vibringe®***. Main reasons for that? It is an easy-to-use device which embraces conventional irrigation techniques and realizes a higher predictable outcome in shorter time!

One Year Warranty

I-Root Digital Apex Locator (Meta Biomed)

5th generation Apex Locator by dual frequency type.

Best accuracy in any root canal condition (Dry, Bleeding, Wet, Saline, EDTA, NaOCl or Chlorhexidine etc...) Can measure the apical constriction exactly without mis-measurement. Developed & upgraded based on the technology of e-Magic Finder (EMF-100 Series) Apex Locater.

Measurement by eye and ear at the same time: Available for checking the apex by digital No., graph and beep sound. When the file is closer to the apex, indication sound is intermittent beep sound. When reaches to the apex It provides continuous beep sound and red Apex indication for user's convenient and saving time, it helps to find apex easily and quickly.

Color Display: From graph 2.0 to 1.0, Indicates graph by blue color. From graph 0.9 to 0.5, Indicates graph by green color. From graph 0.4 to -0.5, Indicates graph by red color. From the 0.5mm to -0.5mm. The tooth graphic and Apex indication will be blink with color display.

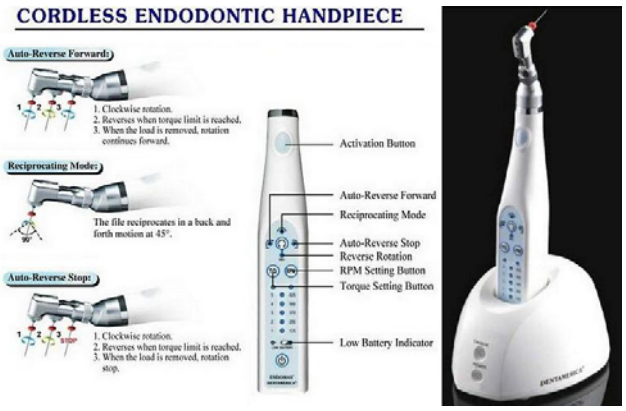
Endomax Cordless Endodontic Handpiece (Dentamerica)

Compare to " NSK Endo-MateTC "



- Auto-stop and auto-reverse mechanisms for patient safety
- Heavy-duty high torque motor
- Reciprocating setting available without use of additional attachment: The file reciprocates in a back and forth motion at 45°.
- Ergonomic design provides comfort and easy operation
- Features five torque settings
- Automatic forward/reverse functions
  - Clockwise rotation
  - Reverses when torque limit is reached
  - When the load is removed, rotation continues forward
  - Auto-Reverse Stop
- Five rotation speeds available for different applications
- High capacity lithium-ion battery provides stable and prolonged usage
- Offers quick and easy coupling
- Weight: 150g

Endodontics

Endo Gripper for All Finger Instrument (Miltex)

•Push button endodontic handpiece for finger instrument
•1/4 turn,1/16 speed reduction ISO E-type attachments
•Accepts all plastic handles

Autoclavable

Each 29-92151 **499.95**

Endo Irrigator System (Vista)

•Instantaneous, fingertip-controlled system
•Site-specific pinpoint irrigation is cleaner and more efficient
•Handpiece control allows you to instantly select irrigating solutions with the touch of a button, without leaving the field
•Built-in heater allows for the delivery of heated irrigating solutions for improved chemical reaction
•Improves procedure safety and efficiency and significantly decrease procedure time
•Multiple mounting options
•OPTIONAL Air Handpiece that includes the Stropko-Irrigator™ for the delivery of low pressure, moisture free air to your surgical site

Kit Includes:
•Endo-Irrigator™ II Irrigation & Evacuation System & Power Cord
•1 – Autoclavable tip manifold
•30 - assorted Endo-Irrigator™ irrigating tips

Unit without heat includes: wall or pole mount, 30 assorted irrigating tips 29-11313 **1595.95**

Unit heated 3 bottle includes: wall or pole mount, 30 assorted irrigating tips 29-11312 **1995.95**

1-Button Air/Water Syringe Kit (Includes 7ft. tubing and metal tip) 29-11314 **72.95**

EndoApex Cordless Obturation System (Dentazon)

Light weight and highly efficient cordless endodontic dual obturation system which offers optimum functionality and reliable apical control along with excellent tactile sense

•360° Easy Swivel (no tool required)
•Complete thermal protection for patient
•Ultra-fast heating for less chair time
•Ergonomic and user-friendly operation
•Maximum portability with stylish design
•Greatly reduces hand and wrist fatigue
•Color coded pen tips
•Delivers reliable and predictable clinical results

One Year Warranty

2-in-1 Obturation System 29-11315 **1295.95**

Gutta Easy Cordless Thermal Obturation System (Dentazon)

Light weight and highly efficient cordless endodontic obturation system which offers optimum functionality and reliable apical control along with excellent tactile sense.

•360° Easy Swivel (no tool required)
•Complete thermal protection for patient
•Ultra-fast heating for less chair time
•Ergonomic and user-friendly operation
•Maximum portability with stylish design
•Greatly reduces hand and wrist fatigue
•Color coded pen tips
•Delivers reliable and predictable clinical results

One Year Warranty

Unit 29-11538 **695.95**

Gutta Percha Cutter and Trimmer

In 3 seconds only

This instrument is developed for the easy and safe removal and trimming of excess gutta-percha and thermal dense filling in your endodontic cases. It is composed ofendo-remover and trimmer operated by two AAA, NiMH rechargeable batteries, which are included in the package.

ERGONOMIC DESIGN
SLIM: To feel comfortable for the treatment in the mouth like dental handpieces
LIGHTWEIGHT: It weighs only 50g together wit 2 cells which leads to easiness in your treatment
PRODUCTIVE ENVIRONMENTS
There is no need for alcohol lamp or burner to heat some instrument to remove the excess, also no need for an assistant.
ECONOMICAL:
If NI-HM batteries are used, you can use this instrument in very powerful and economical ways than disposable alkaline batteries . Normally, it has about 400-500 charging cycles which leads to long lasting usages, also if fully charged, normal usage is between 15-20 times
SAFETY & DURABILITY
This instrument might be semi-permanent only if batteries and tip are refilled, also the patient can not notice the treatment because they can not see compared than the usage of conventional alcohol lamp usage. The patients feels comfortable.
Prior to using this instrument ,please charge and check the batteries.
1.Push the button only when are ready to operate
2. Place the edge of the tip to the canal orifice ,and then push the button for 3 or 4 seconds. It produces enough heat to cut the excess within seconds. That means you don't need to hold the button for overlong time.
3. After removing the excess ,please pull the instrument carefully not to touch the skin of the patient.
4.After it comes cool ,please clean the tip with wet alcohol gauze or sterilize for the next usage.

Cutter & Trimmer Unit: with 4 X AAA rechargeable Ni-MH batteries, Rapid charger and two cutting and trimmer tips 29-11539 **139.95**

Connect to E-Type Air motor

Each 29-92161 **264.95**

Mark VII Apex Locator (Miltex)

The Mark VII Apex Locator gives dental professionals an exact measurement of the canal length under all conditions, including dry, wet and bleeding. This makes working in the canal easier and more accurate. It precisely measures the distance from the tip of the endodontic file to the foramen. The Mark VII allows dental professionals to know the depth of the canal by showing when they are 2.0 mm, 1.5 mm, 1.0 mm, 0.5 mm, 0.25 mm away from, and then the apex has been reached.
The Mark VII Apex Locator is easy to use and designed to be placed near the oral cavity, in the operator's field of vision. The apex locator is often clipped to the patient's napkin to ensure that the unit does not accidentally fall. The Mark VII does not require calibration between measuring multiple canals, thereby immediately enabling accurate measurement of another canal.

Features:
•Can be used in any canal condition
•Provides Accurate Readings
•Compact Size, Easy to Use
•Does not require calibration at the start of a procedure or between canals

Benefits:
•Saves time and canal does not require certain condition
•Allows dental professional to know where they are in the canal in relation to the apex
•Can be placed near the oral cavity, in the operator's field of vision
•Does not require any counter space
•Reduces procedural and set up time
•Reduces tray set up time and time it takes to measure multiple canals

Mark VII Unit 29-11982 **669.95**

Tri Auto ZX Cordless Endodontic Handpiece (J-Morita)

The cordless Tri Auto ZX is the only endodontic handpiece with a built-in apex locator, providing the capability and convenience to electronically monitor the root canal before, during and after instrumentation. With the combined technology and accuracy of the Root ZX apex locator, the Tri Auto ZX can significantly increase accuracy and safety.

The Tri Auto ZX also offers greater control and flexibility with the adjustable torque settings

The choice of automatic or manual mode operations provide versatility.

Endodontics

The three automatic functions include:
•Auto Start/Stop
•Auto Apical Reverse
•Auto

Unit Includes: Handpiece, Contra Head, Charger, Battery, Probe Cord, File Holders (3), Contrary Electrode (5), Function Tester, AR Oil, Practice Block, Instructional Video	29-12483	**1999.99**

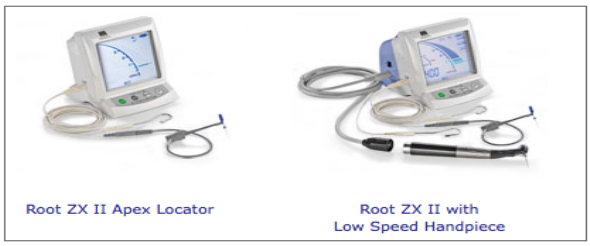
Charger	29-12481	**494.95**
Tri Auto ZX Sleeves (500)	29-12480	**30.95**

Root ZX II Apex Locator (J-Morita)

Apex Locator with Low Speed Handpiece



As the world's best selling apex locator, Root ZX II has set the industry standard for accuracy and patient safety.

Invented in 1992, it was the first unit with the ability to work in wet canals - measurement is not affected by the presence or absence of blood, other discharges, or electrolytes. Root ZX® II features patented technology which offers an accuracy rate of 97.5%*. User friendly, its display screen is large and easy to read. The action of the meter in the display corresponds exactly to the tactile sensation of using the file. Other features include: slim, lightweight file holder, no zero-adjustment, automatic calibration, battery power indication, and automatic power off function.

As an optional upgrade, a module enables the unit to function as a low speed handpiece, apex locator, or a combination of both. The module snaps easily onto the back of the unit and offers numerous safety features including Auto Apical Reverse and Auto Apical Slow Down.

APEX LOCATOR FEATURES
•97.5% accuracy rate*
•Automatic calibration
•Ability to work in wet canals
•Easy to read display screen
•Upgrade option to Low Speed Handpiece

Long File Holder
A long touch file holder is available to be used with the probe cord. It features a fork-like tip that allows the clinician to get an apex reading by simply touching the file. The file holder is 5 inches long, autoclave safe and ideal for hard-to-reach molar procedures, thus increasing access to the work area.

Indications
Apex location/measurement of root canal length

RootPro Endo Motor-Apex Locator (Pac-Dent)

CANAL PREPARATION & APEX LOCATOR SYTEM

RootPro™ Wireless is the most advanced apex locator / endo motor all-in-one system of its kind. With a newly added wireless foot pedal, the RootPro dramatically reduces the clutter and improves your efficiency

The RootPro™ endodontic motor with Low-Speed Handpiece is a dual-function device that prepares root canals while displaying accurate measurements of the root canal. The RootPro™ offers many automatic safety control options, making it the ideal choice for Dentist or Endodontist. It provides the user with expected predictability in today's dental practice.RootPro™ also accurately and precisely locates the position of the file inside a root canal without requiring the user

Endodontics

to set the machine to zero. RootPro™'s unique automatic calibration funtion ensures accuracy and eliminates the effect of changes in temperature, moisture, etc. inside the canal even during treatment. It comes with a wireless foot switch, dramatically reducing clutter and drag during operation, ensuring a user-friendly experience throughout.

ADVANTAGES

•Prepares root canals while displaying accurate & precise measurements of the root canal
•Offers many automatic safety control options: Auto Motor Start/ Stop, Auto Torque Reverse, Auto Apical Reverse
•Accurately and precisely locates the position of the file inside a root canal
•No zero-adjustments needed
•Automatic calibration ensures accuracy & eliminates the effect of changes in temperature and moisture
•Wireless foot switch for a user-friendly & clutter-free operation

1x Complete RootPro Unit: 1 x RootPro main unit with low-speed handpiece, 1 x probe cord, 3 x file holders, 1 x handpiece rest, 1 x foot switch, 1 x ac adapter, 5 x contrary electrodes, 1 x canal-length tester, 1 x AR oil	29-25480	**819.95**
1x Low-speed handpiece replacement	29-25481	**310.75**
Foot Switch	29-25482	**52.45**
AC Adapter (110V~240V, 50/60Hz)	29-25483	**31.45**
Low-Speed contra-angle handpiece sleeves, 250/box	29-25484	**37.75**

Vibring (Dentazon)

•Compatible with 10cc irrigation syringe of most brands
•No special syringe or attachment is required to use
•It is proven to be perfectly safe for every endodontic irrigation procedure and is 100% compatible with every type of irrigation solution

Unit	29-89521	**299.95**

Hyflex CM NiTi Rotary Files 19mm (Coltene)

CONTROLLED MEMORY EFFECT: HYFLEX CM NiTi Files have been manufactured utilizing a unique process that controls the material's memory, making the files extremely flexible, with no re-bound. This enhancement in NiTi file production technology gives the file the ability to more closely follow the anatomy of the canal, reducing the risk of the file separation, binding and complications such as ledging, transportation, and perforation.

FATIGUE RESISTANT-LESS BREAKAGE: HYFLEX® CM Niti Files with Controlled memory Effect are up to 385% more resistant to cyclical fatigue compared to other Niti files, reducing the incidence of file separation.

EASY TO FOLLOW, SAFE FILE SEQUENCE: HYFLEX CM Niti Files come with a recommended sequence of 3-6 files depending on the size of the root canal, making the procedure straightforward and easy to follow.

08/25, 19mm, 6/Pk	29-11713	**53.95**

Hyflex CM NiTi Rotary Files 21mm (Coltene)

CONTROLLED MEMORY EFFECT: HYFLEX CM NiTi Files have been manufactured utilizing a unique process that controls the material's memory, making the files extremely flexible, with no re-bound. Hyflex CM NiTi Rotary Files 25mm (Coltene)

300% more resistance to separation HyFlex® CM™ NiTi files with Controlled Memory are up to 300% more resistant to cyclical fatigue compared to other NiTi files* which substantially helps reducing the incidence of file separation. No rebound + Extreme flexibility = Superior Canal Tracking HyFlex® Controlled Memory NiTi files have been manufactured utilizing a unique process that controls the material's memory, making the files extremely flexible but without the shape memory of other NiTi files. This gives the file the ability to follow the anatomy of the canal very closely, reducing the risk of ledging, transportation or perforation. Regains shape after sterilization = Multi-use The shape and strength of files with straightened spirals can be restored during autoclaving and reused. Files not returning to original shape should be discarded.

Liberator Nickel Titanium Rotary Files (Miltex)

The liberator™ rotary nickel-titanium endodontic files are the result of years of research and development as well as feedback from leading clinicians in the field of endodontics. The files incorporate a unique straight flute design and manufacturing process that eliminates the traditional helical flutes found on virtually all rotary endodontic files.

Feel the safety and control - The patented design of the non-cutting Roane tip minimizes ledging and transportation while helping to keep liberator files centered in the canal.

Liberator files are designed with straight flutes that will not self-thread, unlike helically fluted files. As proof, a controlled study measure the incidence of self-threading of the Liberator compared to competitive rotary files as shown here.

Feel the superior cutting efficiency - The triangular cross section and lack of radial lands provide sharp cutting edges and reduce torque demand on Liberator files. Because the files operate at high RPM (1,500-200) compared to conventional files (300-500), torque is further reduced according to this basic rule of physics.

Efficient debris removal - A vortex created by the high rotational speed effectively removes debris.

Faster, Easy-Use - Liberator files rotating at 1,500-2000RPM cut dentin faster than conventional rotary files at 300RPM. This higher speed also provides excellent tactile feel in canals. Plus, torque control is not required for electric motors. And even air-driven handpieces may be used at 1,500 to 2,000 RPM.

Size 25-40, Length 25mm, 4/Pkg	29-12463	**10.95**

Versa Brush (Vista)

Versa Brush™ is a rotational utility brush which is ideal for a variety of endodontic and restorative procedures

Incredibly versatile, strong and bendable, ***Versa Brush™ is a "must have"*** *for both endodontists and restorative dentists. It is the ideal tool for cleaning endodontic access cavities and removing contaminents left behind, such as sealer components and smear layer.*
Used in a latch-grip handpiece at 250rpm or less, the prepared space can be literally scrubbed clean, allowing for more reliable and predictable bonding.

Versa Brush™ is perfect for:
•Cement removal
•Post hole cleaning
•Cleaning coronal access openings
•Use with EDTA to enhance cleansing and removal of smear layer

40/Pkg	23-26241	**124.95**
5/Pkg	23-26242	**29.95**

Xtreme 360° Files No Memory (JS Dental)

•ISO cc aluminum handle
•MM markings and stops
•Rotary engine driven instrument for preparing a smoother, rounder, more uniform canal

Gutta Percha Point

Gutta Percha Cutter and Trimmer

In 3 seconds only
This instrument is developed for the easy and safe removal and trimming of excess gutta-percha and thermal dense filling in your endodontic cases. It is composed ofendo-remover and trimmer operated by two AAA, NiMH rechargeable batteries, which are included in the package.

ERGONOMIC DESIGN
SLIM: To feel comfortable for the treatment in the mouth like dental handpieces
LIGHTWEIGHT: It weighs only 50g together wit 2 cells which leads to easiness in your treatment

PRODUCTIVE ENVIRONMENTS
There is no need for alcohol lamp or burner to heat some instrument to remove the excess, also no need for an assistant.

ECONOMICAL:
If NI-HM batteries are used, you can use this instrument in very powerful and economical ways than disposable alkaline batteries . Normally, it has about 400-500 charging cycles which leads to long lasting usages, also if fully charged, normal usage is between 15-20 times

SAFETY & DURABILITY
This instrument might be semi-permanent only if batteries and tip are refilled, also the patient can not notice the treatment because they can not see compared than the usage of conventional alcohol lamp usage. The patients feels comfortable.
Prior to using this instrument ,please charge and check the batteries.
1.Push the button only when are ready to operate
2. Place the edge of the tip to the canal orifice ,and then push the button for 3 or 4 seconds. It produces enough heat to cut the excess within seconds. That means you don't need to hold the button for overlong time.
3. After removing the excess ,please pull the instrument carefully not to touch the skin of the patient.
4.After it comes cool ,please clean the tip with wet alcohol gauze or sterilize for the next usage.

Cutter & Trimmer Unit: with 4 X AAA rechargeable Ni-MH batteries, Rapid charger and two cutting and trimmer tips — 29-11539 — **139.95**

Gutta Percha Cutter and Trimmer (MTI)

•Hot cutting of gutta percha prevents the GP points from moving and loosening unintentionally
•Designed for precise cutting of gutta percha
•This cordless handpiece and the interchangeable loop tips provide safe and easy access precisely at the canal orifice
•The instrument is introduced cold and with a touch of a button the tip heats instantly and trims off the excess gutta percha material.

Includes: handpiece, charger, set of 4 tips (assorted) — 29-89841 — **254.95**

Root Canal Sealers Repairs

Acroseal Root Canal Sealer (Septodont)

This endodontic sealer seals the canal permanently, eliminating the worries about leakage and minimizing the risks of root canal treatment failures

- Adheres to the canal walls and gutta percha points
- Zero solubility in water for leak-free obturation for reduced risk of late failure
- Low viscosity allows it to flow into accessory canals for superior fill every time
- Highly compatible - can be used with all gutta-percha obturation techniques, cold or warm
- Eugenol-free - fully compatible with most cements and core materials
- Automix syringe dispensing systems delivers a homogeneous mix without the mess
- Radiopaque

Kit: 1 x 8.5g tube of base paste, 1 x 9.5g tube of catalyst paste, 1 crossed-ruled mixing pad — 29-94111 — **37.95**

AH Plus (Dentsply)

Root Canal Sealer Paste-Paste resin system for better handling Very high radiopacity for easy detection

Standard Pkg. of 2 x 4ml — 29-11162 — **84.95**

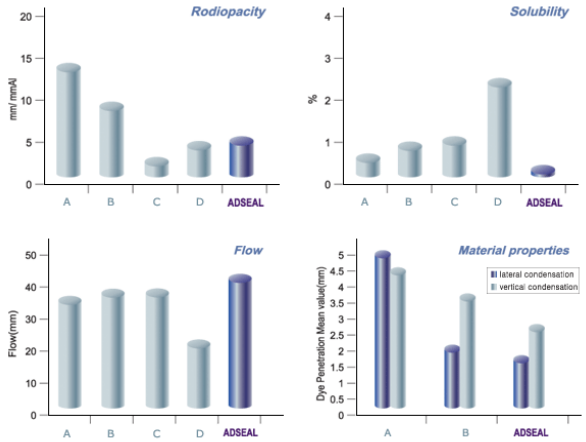
Adseal Root Canal Sealer (Meta Biomed)

Resin-based root canal sealer *(Compare to **Tubli-Seal** 10.5q (KRR))*

Advantage: Excellent biocompatibility, Easy to mix paste-paste, Hermetic sealing ability, Nonstaining to the teeth, Insoluble in tissue fluids and Good radiopacity

Components: 13.5g dual syringe (Base 9g, Epoxy resin, Calcium phosphate) Catalyst 4.5g (Amines, Bismuth subcarbonate), Spatula, , Mixing Plate, Direction for use, Dimension : 80 × 200 × 43 (㎜), and Weight : 135g

Physical and Chemical Properties



Working Time : 35 Minutes at 23℃ (73℉)
Setting Time : 45 Minutes at 37℃ (99℉)
Film Thickness : 3.3㎛

Biocompatibility

Test Method		Results
Cytotoxicity (ISO 10993-5)	Agar Diffusion -Freshly mixed -Set material	mild none
Irritation (ISO 10993-10)	oral	no irritation
Systemic (ISO 10993-11)	acute	safe
Implantation (ISO 10993-6)		acceptable (no edema)

AH26 (Dentsply)

Resin based, non-acrylic, eugenol-free sealer Used with gutta percha:

•Densfil obturators or silver points·Radiopaque
•Working time is 4.5 hours· Set time is 12-48 hours
• Suitable for a cold & warm obturation techniques

Standard Pkg. 8gm powder & 10gm resin	29-11163	**79.95**
AH 26 Resin (Liquid Only) 10gm tube	29-11164	**49.95**

Diapex Root Canal Sealer (Diadent)

Pre-mixed calcium hydroxide and iodoform (in a silicone oil base) paste for temporary or permanent root canal treatment. Diapex is highly radiopaque and antibacterial.

2.0g Paste & 20 Tips	29-94131	**39.95**
Tips, 20/Pkg	29-94132	**9.95**

Endomet Root Canal Sealer (Septodont)

• Easy to use
• Contains thymol iodide, an antiseptic agent
• Radiopaque and non-resorbable within the canal
• Stays soft on the mixing pad but rapidly hardens when placed into the tooth canal

Kit: 12gm tube base, 1-12gm tube catalyst,1 mixing pad	29-94091	**62.95**

Metapex (Meta Biomed)

Calcium Hydroxide with Iodoform Temporary Root Canal Filling Material with Excellent Radiopacity (Compare with Diapex from Diadent 2.0g paste)

• Weeping canal
• Formation of a hard tissue barrier(Apexification)
• Root canal filling for deciduous teeth
• Internal & external root resorption
• Excellent antibacterial effect and radiopacity
• Premixed paste
• Premixed paste
• Disposable tips for prevention of cross-contamination

Metapex, 2.2g	29-11986	**29.99**

Root Canal Sealer Silver-Free (Prime Dent)

Excellent sealing capacity

Complete Pkg: 8gm Powder & 10gm resin	29-94101	**41.95**

RSA Roeko Seal Automix (Coltene Whaledent)

A state-of-the-art polydimethylsiloxane based root canal sealer, features the following:

•Ready for use in a 1:1 automix system
•Flows into dentine tubules and tiny crevices
•Sets in both moist and dry conditions
•Insoluable
•Expands slightly (0.2%)
•Provides mechanical retention through expansion
•Permits subsequent revision of the canal
•Does not contain Eugenol
•Radiopaque
•Extremely biocompatible
•Dispenses the sealer homogeneously mixed and free of air bubbles

Standard Set: Dual-barrel syringe, 12 flexible mixing tips, 1 cap	29-94121	**83.95**
Refill Mix Tips, 24/Pkg	29-94122	**26.95**

Sealapex Calcium Hydroxide (Kerr)

Calcium Hydroxide Polymeric Root Canal Sealer

12gm Tube Base, 12gm Tube Catalyst & Mixing Pad	29-16171	**54.95**

Tubli-Seal Endodontic Sealers & Cements (Kerr)

Tubli-Seal is a paste/paste zinc oxide eugenol root canal sealer. Tubli-Seal is light in color, non darkening, and radiopaque.

10gm Tube Base, 1-3.5gm Tube Accelerator & 1 Mixing Pad	29-12484	**39.95**

Endodontics

Chelating Agents

EDTA Solution Aqueous Irrigant (Vista)

•17% EDTA in a aqueous solution with approximate ph of 8
•Ideal for root canal preparation & smear layer removal

120cc Refill Bottle	29-87681	**14.49**
3cc Unit Dose, 20 single use patient applications along with 20 Vista Probe needles, 20/Pkg	29-87682	**17.49**
30ml Bulk Syringe	29-87683	**8.95**
480ml Bottle	29-87684	**44.95**

MD-ChelCream 19% ETDA (Meta Biomed)

Easier Filing with Lubricating Action (Compare to RC Prep)

Applications:
•Root canal preparation with files and reamers
•Presence of calcifications in the canal
•Narrow canals in posterior teeth
•Smear layer removal

Advantages:
•Removal of inorganic substances by chelation (EDTA-Ca^2)
•Easier filing with lubricating action
•Produces the cleanest canal wall after smear layer removal

Cautions:
•Use MD-ChelCream with discretion to prevent perforation
•Avoid extrusion of the MD-ChelCream into the apex
•Keep the syringe capped all the time
•Store in temperature 10℃~ 25℃ (50℉~ 77℉)

2 Sys. 5.4ml	29-11983	**17.99**

MD-Cleanser 17% ETDA (Meta Biomed)

Excellent Smear Layer Removal (Compare to EDTA Solution from PulpDent)

Applications:
•Presence of calcifications in the canal
•Narrow canals in posterior teeth
•Smear layer removal

Advantages:
•Removal of inorganic substances by chelation (EDTA-Ca^2)
•Easier filing with lubricating action
•Produces the cleanest canal wall after smear layer removal

Components:
•MD-Cleanser : 100Mℓ
•1cc syringe
•Disposable tips
•Dimension : 50 × 115 × 55 (㎜)
•Weight : 138g

100ml w/One Syringe & 3 Tips	29-11984	**9.99**

Prep-Rite RC (PulpDent)

•17% viscous EDTA gel that is picked up on an endodontic file to facilitate preperation of the root canal.

Kit Contains: 4-5g Prep-Rite RC Syringes	29-87691	**23.95**

RC PREP (Premier)

dental townie choice awards 2007
Repeat Winner - 2003, 2004, 2005, 2006

For Chemo-Mechanical Preparation of Root Canals

Over 40 years of clinical use and numerous publications demonstrate the clinical efficacy of RC-Prep for chemo-mechanical preparation of root canals.

RC-Prep's unique formulation of glycol, urea peroxide and EDTA in a special water soluble base helps remove calcifications and lubricates the canal to permit more efficient instrumentation. Whether you prefer finger or engine driven instruments, RC-Prep

Jar 18gm	29-12280	**27.95**
Jar 227gm	29-70431	**244.95**
Syringes 2 x 9 gm	29-70432	**35.95**
Syringe Kit Contains: 5-3cc Syringes & 50 Tips	29-70433	**34.95**

RC Prep MicroDose (Premier)

Direct Application Into the Canal
RC-Prep™ MicroDose® is convenient, easy to dispense and eliminates the risk of cross- contamination.

Each MicroDose pipette contains the ideal amount of RC-Prep (0.2cc) for more efficient instrumentation during root-canal procedures.

You can apply RC-Prep directly into the pulp chamber or into a dappen dish

After each use, the empty pipette is discarded and the MicroDose syringe can be conveniently autoclaved

Refill (Pkg. of 100) 0.2cc pipettes	29-88632	**79.95**

Endodontics

Well-Prep EDTA Root Canal Cleaner (Vericom)

Compare to: *RC Prep (Premier)*

EDTA Root Canal Cleaner

Well prep containing ethylenediamine Tetraacetic acid (EDTA) As a chelating agent allows efficient cleaning and easier preparation of the root canal.

Kit: 3 Sys x 6 gm with Tips 29-87701 **22.95**

Irrigating Solutions

Chlor-Xtra Sodium Hypochlorite (Vista)

The perfect solution for the irrigation, debridement and disinfection of root canals during and after instrumentation

- 4X Faster than ChlorCid®*
- Dissolve more tissue
- Improve Disinfection
- Reduce post-treatment complications

Chlor-XTRA™ is a 6% Sodium Hypochlorite formula; enhanced with powerful wetting agents and proprietary surface modifiers that penetrate into lateral canals and isthmuses by lowering surface tension, The result is a much more powerful oxidizing agent, 2+ times thinner than standard Sodium Hypochlorite and 2.6 times more digestive.

- 2.5 X more wetting ability**
- 2.6 X more digestive**
- Much more powerful oxidizing agent

16oz Bottle	29-87671	**49.95**
Prefilled Syringe 3cc, 10/Pkg	29-87612	**14.29**
Prefilled Syringe 12cc, 10/Pkg	29-8767123	**14.29**

Rinse-N-Dry Ethyl Alcohol Solution (Vista)

- 95% Ethyl Alcohol penetrates into lateral canals and isthmuses improving drying and disinfecting properties.
- Use after smear layer removal with EDTA to assure canal is clear of all Chlor-XTRA™ before final irrigation step with CHX-Plus™.

NOTE: CHX and Sodium Hypochlorite can not be mixed due to severe precipitate formation.

40oz Bottle 29-87711 **7.99**

Vpro CanalClean Irrigation (Vista)

CanalClearn™ Irrigation Kit

- All your endo solutions in one easy kit
- Recommended to yield best outcomes

- Optimizes the time spent on irrigation
- No mess... Less time

5 Easy Steps to Improved Outcomes:

1 - Chlor-XTRA™ 16ml
2 - EDTA 6ml
3 - Chlor-XTRA™ 10ml
4 - Rinse-N-Dry™ 6ml
5 - CHX Plus™ 10ml
5 Colored Coded Syringes

Kit: 4/Case 29-87731 **69.95**

Sodium Hypochlorite (Vista)

For the debridement and irrigation of root canals during and after instrumentation compare to Ultradent® ChlorCid®*

Canal Clean Side-Port Irrigation Needles Tips (Dentazon)

Canal Clean irrigation needle can greatly in-

crease your patient's safety on root canal and gingival sulci irrigation treatments. Canal Clean's special design (closed-end tip & side-port opening) allows you to prevent possible root injury caused by unexpected forceful injection with conventional irrigation needle. As a result, secondary inflammation or flare-up may be also caused by polluted materials. The Canal Clean is a reliable prevention for such clinical difficulties.

Endodontics

Therma-Flo Step Down Tips (Vista)

Extended Length for precision placement of composite materials.
Step Down tips offer a completely new delivery option for microscope enhanced dentistry and for use with high magnification loupes
Featuring a self-tapping design that will adapt to most standard compules, our patent pending Step Down tips combine the ultimate in convenience with precise placement of composite materials.

Features:
- Narrow profile for optimal visualization of work area
- Extended length for deeper access
- Narrow profile allows for optimal visualization
- Designed for easy extrusion of highly-filled composites
- Available in 2X and 4X reduction for precision placement
- Orifice reduction for greater precision during micro-restorative procedures

Developed for use with the Therma-Flo™ Composite Warming Kit, but can be used with any standard compules or compule guns.

Step Down Tips 2x, 40Cup/Pkg	29-26211	**29.95**
Step Down Tips 4x, 40Cup/Pkg	29-26212	**29.95**

Utility Irrigating Syringes

- Disposable
- Non-sterile

12cc, 50/Box	29-98291	**11.95**

Utility Irrigating Syringes (TC Dental)

- Curved tip provides easy access for maximum canal irrigation
- Tight fit plunger and see through
- 10 cc and non sterile

Irrigating Syringe w/Curve Tips, 10cc 50Pcs/Box	29-11748	**14.99**

Vpro EndoSafe (Vista)

- Non-clogging Vpro™ EndoSafe™ is a simple negative pressure, simultaneous irrigation and evacuation device
- When used properly, it provides safe, easy and cost effective apical irrigation and evacuation.

10/Pkg	29-87721	**63.95**

Calcium Hydroxide Treatment

Calasept Plus Calcium Hydroxide (Wykle)

The most effective calcium hydroxide thanks to its high concentration and optimal calcium release.
CALASEPT Plus has a very high content of calcium hydroxide (> 41%) giving it a high concentration of hydroxyl ions.
These generate a high pH value of 12.4 which has a pronounced bactericidal effect.
The high concentration of calcium hydroxide in the paste provides for a long lasting release of calcium ions.
CALASEPT Plus is a ready-to-use paste in air tight syringes for direct application through the Flexi-needle.
CALASEPT Plus is radio-opaque.

Kit: 4 syringes each containing 1,5 ml CALASEPT Plus & 20 CALASEPT Plus Flexi-needles, luer lock	29-26071	**58.95**
1 syringe containing: 1,5 ml CALASEPT Plus & 5 CALASEPT Plus Flexi-needles, luer lock	29-2607	**18.95**

Forendo Paste (PulpDent)

Calcium hydroxide paste with iodoform in a silicone oil base

Bactericidal - Bacteriostatic - pH > 12 - Radiopaque - Non-Setting
For temporary and intermediate root canal therapy

Forendo Paste is a strong antibacterial dressing for routine use between office visits to disinfect root canals and for complicated cases when extended calcium hydroxide therapy is indicated.

Indications:
- Disinfects canals
- Inhibits bacterial growth
- Prevents flare-ups
- Promotes periapical healing
- Treats infected root canals, abscesses and periapical lesions
- Treats traumatic injuries, root restoration, fractures and perforations
- Treats pus, hemorrhage, exudation and weeping canals
- Stimulates apexification and apexogenesis

2.2 gm syringe + 20 applicator tips	29-11523	**32.95**

Endodontics

Metapaste (Meta Biomed)

Calcium Hydroxide with Barium Sulfate Water Soluble Temporary Root Canal Filling Material (Compare to Tempcanal from Pulpdent)

Applications:
- Weeping canal
- Formation of a hard tissue barrier(Apexification)
- Temporary root canal filling
- Internal & external root restoration

Advantages:
- Easy cleaning and removing with good water solubility
- Excellent antibacterial effect and radiopacity
- Premixed paste
- Syringe type for easy delivery of the paste into the canal
- Disposable tips for prevention of cross-contamination

Metapaste (w/Barium Sulfate & Water Soluble) 2.2g Syringe with 20 Tips	29-11985	**19.99**

Pulpdent Paste (PulpDent)

The Original, Non-Setting, Pre-mixed Calcium Hydroxide Paste
For Root Canal Therapy and Vital Pulp Therapy
Bactericidal - Bacteriostatic - Radiopaque - Non-Setting

Internationally acclaimed as the world's finest treatment for:
- Vital Pulp Therapy
- Pulpal Healing
- Dentin Bridge Formation
- Root Canal Therapy

Pulpdent Paste is the original premixed calcium hydroxide methylcellulose pulpal dressing. It is indicated for direct pulp capping, pulpotomy and pulpal curettage procedures, and it is used routinely as an antimicrobial intracanal dressing between office visits to disinfect root canals and prevent flare-ups.
Pulpdent Paste promotes favorable periapical healing and is the treatment of choice in complicated cases involving infection, root restoration, traumatic injuries and other instances where calcium hydroxide therapy is indicated.
When used for vital pulp therapy, Pulpdent Paste stimulates consistent dentin bridge formation
The new dentin bridge is visible clinically after approximately 2-3 months.

Kit: 3mL syringe + 24 needles (18 gauge blunt, sterile)	29-12277	**37.95**
3 mL syringe	29-12278	**25.29**
Syringe needles, 24/Pkg	29-12279	**11.95**

TempCanal (PulpDent)

Temporary Calcium Hydroxide Root Canal Treatment Paste Bactericidal - Bacteriostatic - Radiopaque - Non-Setting
TempCanal has a pH > 12 and provides the full benefits of calcium hydroxide in root canal therapy.
For routine use as an antimicrobial intracanal dressing between office visits to disinfect the canal and prevent flare-ups.
For complicated cases involving infection, traumatic injury and other instances where calcium hydroxide therapy is indicated.

Routine Treatment Between Office Visits:
- pH > 12 disinfects canal
- Prevents flare-ups
- Replaces hazardous formocresol
- Easily removed with file and irrigation

Treatment of Complicated Cases
- Promotes favorable periapical healing
- Treats infection, abscesses and periapical lesions
- Treats traumatic injuries, avulsed and luxated teeth
- Treats root resorption, root fractures and perforations
- Stimulates apexification and apexogenesis
- Treats pus, hemorrhage exudation and weeping canals

Preferred Delivery System
- Screw syringe dispensing system
- Flows through sterile 22- and 25-gauge needles directly into canal
- No mixing, no condensing
- Easily removed from canal with file and irrigation

Kit: 3mL syringe + 12 needles	29-12472	**35.99**
3 mL syringe	29-12473	**23.95**
TempCanal needles, pkg. of 12 assorted (22 & 25 gauge)	29-12474	**12.49**

TempCanal needles, pkg. of 12 X 25 gauge	29-12476	**12.49**
TempCanal needles, pkg. of 30 X 22 gauge	29-12477	**29.39**
TempCanal needles, pkg. of 30 X 25 gauge	29-12478	**29.39**

Endo Boxes & Organizers

Autoclavable Endo Aid (PacDent)

One-finger-held autoclavable organizer gives dental clinicians complete control over endodontic files
- The organizer is made of fully autoclavable material
- Effectively organizes endodontic files
- One-finger-held organizer with ruler ensures convenience

Endodontics

Endo aid kit: 1 organizer with integrated ruler, 2 rings to fit all finger sizes and 50 disposable triangular foam refills	26-25591	**39.95**
25 yellow triangular foam refills, 25 teal triangular foam refills	26-25592	**20.95**
50 Triangle foam refills, Gray	26-25593	**15.95**

Endo Ruler (PacDent)

•Autoclavable, stainless steel construction, one-finger-held endo ruler
•Millimeter scale

1 per box	29-25601	**6.95**

Endo-Cushions hold (IndiGreen)

Disposable Endo-Cushions hold, arrange and clean small instruments during endodontic or implant procedures. Ideal for files, posts, screws, drills and other small items. Peel-and-stick back secures to patient napkins, tray covers or anywhere handy. Pre-arranging saves set-up time. Dense, grey polyurethane foam.

3"long 50 cushions per bag	29-87921	**18.49**

Endoring Filecaddy (Jordco)

The Endoring FileCaddy organizer provides a unique bulk storage solution for all endodontic files.

The clinician places multiple files securely into the special foam insert, closes the lid and steam autoclaves the entire FileCaddy organizer–no bag or wrap required. Single handed operation allows easy opening of the protective lid to access the processed files at chair side.

Files are easily identified, selected and transferred to the companion Jordco Endoring II organizer for the current endodontic procedure. The FileCaddy organizer disassembles easily to allow replacement of the foam insert.

Kit: 1 FileCaddy and 12 single use refill combos	29-89871	**79.95**
12 FileCaddy single use Blue Foam Refills	29-89872	**25.95**
12 FileCaddy single use Yellow Foam Refills	29-89873	**25.95**

Endoring II Organizer Gelwells (Jordco)

The Endoring II organizer enables the clinician to directly place, store, measure and clean endodontic hand and rotary instruments within the operating field

It reduces the risk of cross-contamination and minimizes the passing of sharps between dentists and staff.

Using the Endoring II organizer helps make endodontic procedures safer and faster.

Single Endoring II Premium Kit: 1 Endoring II assembly (blue), 1 standard metal ruler, 1 e-Foam insert combo pack (48 inserts), 1 pack Gelwells (48 single-use cups) and 1 EndoGel pack (12 1ml MicroDose tubes–USA kits only)	29-89881	**79.95**
E-Foam Blue Pack: Single package of 48 foam inserts	29-89882	**30.95**
E-Foam Yellow Pack: Single package of 48 foam inserts	29-89883	**30.95**

Endo Burs

Endo Carbide Burs (PacDent)

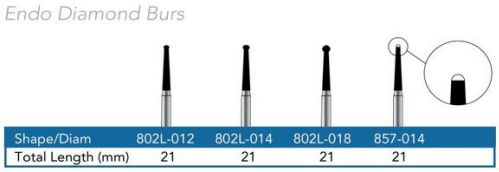
•151Z can be used for initial endodontic access, sectioning, root seperation, etc.
•152EZ, features non-cutting safe-end tip that prevents penetration of pulp chamber floor,enables easy access to root canals, comparable to Maillefer Endo-Z bur.

Endodontics

151Z 3Pcs/Pkg	19-25042	**20.85**
152EZ 3Pcs/Pkg	19-25043	**20.85**

Endo Diamond Burs (PacDent)

The endo diamond bur's round tip allows access to initial penetration while its taper shaped shaft flares the pulp chamber. The non-cutting safe tip diamond bur protects chamber floor while removing the pulp chamber roof. The cutting surface is 10mm.



21mm Total Length, 3Pcs/Pkg	19-25054	**22.95**
21mm Total Length, 3pcs/Pkg	19-25055	**22.95**
21mm Total Length, 3Pcs/Pkg	19-25056	**22.95**

Electromechanical Patient Operatory Chair (DCI)

Standard Features:
One operator-programmable position, one preset exit position
Electronic foot switch preposition and auto return switch
Built-in fuse/surge protection
Toe guard protection to prevent scuffing
All-metal construction
Safety shut-off base plate
Double-articulating headrest, adjustable for height and wheelchair positioning
Locking swivel, 60°
Right-hand or left-hand chair mount adapter
Pivoting arms for easy entry to and exit from chair
Seamless upholstery
Coordinated leg rest tilt
Input voltage 110V or 220V

Electric Patient Operatory Chair	30-11191	**3199.95**

Hydraulic Patient Operatory Chair (DCI)

Standard Features:
Five operator-programmable positions
Electronic foot switch preposition and auto return switch

Alliance Ensemble Dental Operatory Package (DCI)

DC1235 hydraulic chair
Standard Chair Features:
Cast bracket withswing-out arms
Five operator-programmable positions
One operator-programmable position, one preset exit position
Electronic foot switch preposition and auto return switch
Built-in fuse/surge protection
Toe guard protection to prevent scuffing
All-metal construction
Safety shut-off base plate
Double-articulating headrest, adjustable for height and wheelchair positioning
Locking swivel, 60°
Right-hand or left-hand chair mount adapter
Input voltage 110V or 220V
Coordinated leg rest tilt
BioFree tubing standard on all units
Straight aseptic tubing for three handpieces
Convenient brake release for flex arm
Master on-off control
Individual non-retracting water coolant adjustment
Purge system for handpiece tubing
Plastic B-size tray
Pre-wired with 8 conductor cable for accessory addition
Wet-dry foot control, Floor utility center with regulators and shut-off valves
Post-mount utility center, Post-mount utility center with solids collector
Self-contained water system with city water/bottled water selector, Patented quick-switch system for water bottle
QD water connection with flow control, QD air connection

Alliance Ensemble Dental Operatory Package 30-11140 **Call for Price**

Alliance Swing Mount Ensemble Operatory Package (DCI)

Rotating system design quickly and easily converts from left- to right-hand position

A10 Operatory System (Flight Dental)

30-11117 Call for Price

The A10 is one of our premium packages featuring a large doctor work surface and the elegant one-piece cuspidor. The generous size of the A10 will accommodate your largest patients comfortably while providing ideal working access for the doctor and assistant.

- Combine with your choice of A6 or A10 patient chair
- 3 Handpiece automatic control with air/water syringe
- Rotating utility center with one piece cuspidor
- Adjustable timer setting for bowl rinse and cup fill
- Unit mounted treatment light with two intensity settings
- Touchpad control for doctor and assistant controls chair, light, cuspidor and bowl rinse
- Choose from large or compact doctor's handpiece control
- City/Closed water system standard on all units
- Foot controls handpieces and offers water on/off toggle and chip air blower

Options:

Built in ultrasonic or peizo scaler, Handpiece fibre-optics system , Multi-media monitor mount, Integrated intra-oral camera, Continental style delivery, Glass Bowl Cuspidor Optional

A12 Operatory System (Flight Dental)

30-11123 Call for Price

A12H Hydraulic Lift Chair is integrated with cutting edge technology improving patient and doctor comfort. This new ergonomically designed chair provides unparalleled comfort and functionality for the dentist, making it the perfect chair for any dental operatory.

The exceptional range of motion coupled with its durability and sensible value, is the result of the perfect union between man and space.
Hydraulic motor with 380mm as the lowest position capability of the chair.
Dual 180 rotatable arms allows for convenient placement of cuspidor and
tray units for doctor and assistant.
Left-hand and right-hand capability optimizes efficiency and space
for doctor and patient.
New designed dental light providing superb luminosity.
Thin backrest provides the optimal space and access for the dentist and close positioning to the patient.
12 seamless or plush upholstery colors.
4 programmable chair position settings to make the work more efficient for the dentist.
Synchronized backrest and seat movements to provide the most comfortable patient seating
Optional LCD monitor mount, Optional G.Comm LED Light.

A2 Operatory System (Flight Dental)

30-11130 Call for Price

The A2 chair is the most economical chair in our line of products. The backbone to a reliable chair is contingent on both the engineering and quality of the materials used. The chair is produced using some of the highest standards and as such has received praise as one of the best chairs on the market. Furthermore, the entire unit is finished using a Powder-coated baked finish to enable the highest level of asepsis control and with a cast iron frame the chair provides excellent durability.
The company continues to exceed expectations, satisfying customer's desire for an economically priced unit built using the highest standards.

- Combine with the A2 patient chair
- 3 way air/water syringe with fully autoclavable tips
- Rotating one piece cuspidor
- Automatic bowl rinse and timed-cup fill functions accessible by patient and assistant side
- Unit mounted treatment light with two intensity settings
- Touchpad control of patient chair for doctor and assistant
- Choose from large or compact doctor's handpiece control
- City/Closed water system standard on all units
- Foot controls handpieces and offers water on/off toggle and chip air blower
- 12 seamless and plush upholstery colors

Options:
Built in ultrasonic or piezo scaler, Handpiece fibre-optics system, Multi-media monitor mount, Integrated intra-o

A3 Operatory System (Flight Dental)

30-11132 Call for Price

The A3 is Flight Dental's economy chair with a European inspired design. The workmanship seen on this chair is incomparable in the marketplace today, and has been one of Flight Dental's most successful endeavours. It combines versatility, aesthetics and superior quality to produce an operatory package that is suitable for hygienists and dentists alike. The chair is built with the patient and dentist in mind, with its thin backrest and ergonomically correct seat positioning, it produces the ultimate synergy between man and environment.

- 3 Handpiece automatic control with air/water syringe
- Utility center with one piece rotating unique coloured glass bowl cuspidor
- Adjustable timer setting for bowl rinse and cup fill
- Unit mounted treatment light with two intensity settings
- Touchpad control for doctor and assistant controls chair, light, cuspidor and bowl rinse
- Choose from large or compact doctor's handpiece control
- City/Closed water system standard on all units

Foot controls handpieces and offers water on/off toggle and chip air blower

Dental Equipment

RXDC HyperSphere X-Ray Unit (MyRay)

HyperSphere Plus incorporates an ergonomically advanced touch-activated positioning technology and the freedom of wireless control.

HyperSphere technology

Locked and unlocked by 2 touch-sensitive areas, the tube head revolves freely around the spherical ball-joint, enabling
freedom and precision in terms of positioning.

Easy controls

The wireless control device, which can be attached to any available surface in the surgery, offers a full range of intuitive exposure scenarios designed to make correct X-ray acquisition a straightforward process.

ZENX Digital X-Ray Sensor (MyRay)

The Zen sensors have cut corners, a two fold filtering system to give crisp high detailed image boasting 25 lp/mm.
Zen-X has been developed to simplify the whole process of taking radiographs thanks to the outstanding ergonomic shape, which ensures maximum patient comfort.
Versatility and speed
Powerful USB 2.0 connectivity makes the system extraordinarily convenient and mobile and minimizes the time between X-ray exposure and on-screen viewing.
The sensors also have an inexpensive option to extend their 2 year warranty to 5 years at time of purchase.

Eva Digital X-Ray Sensor (Dent-X)

EVA Dental is a filmless, digital dental imaging radiology system that produces highest resolution, diagnostic quality images. Utilizing patented "Active Column" CMOS technology, EVA produces high efficiency, low noise images which are digitized and transmitted to your computer via a standard USB (Universal Serial Bus) port and is compatible with laptop or desktop systems.
Digital imaging delivers significantly increased revenue to today's high-tech practice. Requiring less labor, it increases patient throughput and is safer for the patient with reduced X-Ray exposure.
Easy-to-use, state-of-the-art digital imaging eliminates the inconvenience of film processing and the 3 to 6 minute wait for a single X-Ray. Patient archiving is fast and simple for patient data base archives. EVA interfaces with Dent-X ProImage or other image and practice management software suites. The operational simplicity of digital radiography consolidates workflow as it builds productivity.

RXDC eXTend X-Ray Unit (MyRay)

We pleased to announce the eXTend DC x-ray unit is now available for sale. The intra-oral DC market is extremely competetive when it comes to pricing, and the eXTend allows MyRay to be much more competitive.

Simple wireless control

One handheld wireless digital control device allows you to program the unit from wherever you are in the surgery. There are no other wall-mounted or wired control panels to worry about. Easy-to-use and easy-to-handle, the control device offers a full range of intuitive exposure scenarios designed to make correct X-ray acquisition a straightforward process.

No more complex programming or button-crowded panels. RXDC defines automatically the correct exposure by selecting the region of interest.

Portable Digital X-Ray Unit D3

It has the following features:
*Convenience of being cordless using rechargeable Li-polymer battery pack
*Benefit of having a great reduction of X ray exposure to the patient and dentist i-e, about 1/7 radiation of the conventional X ray machines
*Has a high frequency circuit of inverter type incorporated in it
*Has a most suitable and diverse sensor system
*Very easy to use with a comfortable handle for holding it

Full unit plus 1. Shield, Two batteries, Charger, Bag, Manual CD, Software	30-97161	**3,695.00**
Manufacturer extended warranty	30-97162	**500.00**

Portable Digital All In One X-Ray Systems D4

Cordless Portable Digital All In One X-Ray Systems D4 helping out your professional skills in dentistry. It is now ready to replace the previous versions of mounted X-Ray machines.

Portable X-ray D4 provides you with
*Convenience of being cordless
*Charging battery pack of loading/unloading type
*Minimum chances of radiation exposure as it emits 1/7th radiations as compared to previous systems
*More compact in size and shape
*has inverter type high frequency circuit incorporated in it
*Applicable to both digital and film type sensor

Unit/Sensor Size 1, Build in Wifi module	30-97221	**8594.00**
Unit/Sensor Size 2, Build in Wifi module	30-97222	**9994.00**
Manufacturer extended warranty	30-97223	**500.00**

Portable X-Ray Unit REXTAR-X (Meta)

Compact & Light
*One-hand operation to make exposure
*Only 1.6Kg with battery providing up to 300 exposures with one time charge

Automatic and Manual exposure control system
*With smart exposure control system, proper exposure vales and time can be memorized to get the optimized darkness and contrast for future to same time to reset every single case and patient

Prema Enamel Microbrasion System (Premier)

PREMA® Enamel Microabrasion is a chemical-mechanical polishing compound containing a mild solution of hydrochloric acid with silicon carbide in a water-soluble slurry. The syringe delivery system permits an effective and economical application.PREMA® Enamel Microabrasion slurry is an acid-abrasive formulation used to correct superficial white, brown or multi-colored enamel defects. When used with a low-speed hand piece fitted with a 10:1 gear reduction angle, the slurry safely removes a controlled and limited amount of superficial enamel.
Enamel Microabrasion does not recognizably alter enamel surface contours. Patients with tetracycline staining, dentinogenesis imperfect or other such defects which are deep within the tooth structure cannot be improved with enamel microabrasion.

Qwikstrip (AXIS)

QwikStrip™ Serrated Strips are designed to make Crown & Bridge clean up quick, safe and simple after cementation of crowns, veneers, bridges, inlays or onlays. Finish with the appropriate QwikStrip™ Abrasive Strip to smooth the final restoration. The depth limiting design prevents soft tissue irritation, while the unique handle provides a comfortable grip for optimal tactile control, giving easy access to interproximal spaces. No more cutting of the patients' lips or gums with the firmly embedded strips. When IPR is necessary, use QwikStrip™ Single or Double-Sided for anterior teeth, followed by QwikStrip™ Curved for the posterior teeth. QwikStrip™ Abrasive Strips are color-coded and available in three styles: Single-Sided, Double-Sided, and Serrated. Available in packs of 10 in serrated, coarse, medium, fine and superfine grits. The assortment package includes 2 of each grit and 2 Serrated.

Finishing & Polishing

Seal-N-Shine (PulpDent)

Embrace WetBond Seal-n-Shine
Liquid Polish and Penetrating Resin
Light Cure - Moisture Tolerant - Clear Sahde
Finishes and Polishes Restorations - Seals Composites and Margins - Saves Time
Tough, resilient, long-lasting resin provides smooth, durable, protective finish and seals against microleakage.

- Eliminates final finishing and polishing steps
- Does not alter occlusion or anatomy
- Bonds to the moist tooth
- Cures with all lights
- Heals white lines - Prevents marginal staining
- Cures clear. No yellow tint.

Available in bottles or syringes.

Gleco Plaster Trap (IndiGreen)

Trap System Invented by a plumber, the Gleco Trap brings revolution to the age-old chore of sink trap retrieval and plaster trap maintenance. No more leaky bags or bulky buckets!
Install the pre-assembled Gleco Trap once, then replacing the bottle takes

Prestige Dental Products, Inc.
Prestigedentalproducts.com
Tel: 877-772-3888

less than one minute start to finish without tools. Simply turn side valve to drain off excess water, unscrew full bottle, and screw in a clean one.
• Side drain siphons out all water prior to removal, eliminating spillage
• Translucent bottle shows waste level.
• Adapts easily to existing plumbing — the Gleco Trap is the only plaster trap to meet US Uniform Plumbing Code!

System includes one trap assembly, two replacement bottles, all necessary 1 1/2" pipe components and simple instructions for a five-minute installation

64 oz	34-87931	**94.95**
19 oz	34-87932	**89.95**

Gleco Trap HV System (IndiGreen)

Item #10012 64 oz. Gleco Trap System
Item #10010 19 oz. Gleco Trap System
Item #11010 3.5-Gallon Gleco Trap HV Kit
Item #11011 5-Gallon Gleco Trap HV Kit

From the inventor of the original Gleco Trap, the Gleco Trap HV Sanitary High-Volume Kit brings the same clean, dry and simple maintenance to full-size plaster traps. Never again will you soak your cabinets and yourself with foul-smelling, contaminated wastewater when you change your plaster trap container.

The Gleco Trap HV features a specially-engineered air-tight lid with threaded inlet and outlet extensions that reserve an air pocket inside. When the trap is full, simply remove the air-release plug to drain all inlet and outlet plumbing into the bucket before disconnecting. Its patented design prevents the mess and contamination that occurs with the removal of traditional plaster traps.

Instead of leak-prone flexible hoses found on other traps, the Gleco Trap HV uses standard 1½" threaded inlet and outlet ports to ensure a positively leak-proof assembly. Adapts easily to existing plumbing.

Each kit includes a heavy-duty container, all 1½" PVC plumbing components to fit most sink configurations and instructions.

Trap-Eze Disposable Plaster Traps (Buffalo)

Economical trap systems designed to slow water discharge flow

• Requires minimum 9” clearance between bottom of sink tail pipe and top of trap bucket for easy installation without tools
• All trap buckets feature high-strength plastic construction and permanently-sealed lids
• 3 1/2 gallon size (12 1/2” diameter x 11” H) ideal for intermediate applications
• 5 gallon size (12 1/2” diameter x 14 1/2” H) best for larger offices and labs with higher volume collection needs (space permitting)
• Two flexible hoses (1 1/2” ID x 1 3/4” OD x 20” long) conveniently connect trap to sink tail pipe and sewer tail pipe
• Flexible adaptor fitting for sewer tail pipe included for improved drain seal
• Complete kit includes sealed trap bucket, 2 hoses, and sewer tail pipe adapter fitting
• Refill includes trap and two plastic caps for sealing full trap
• Fast and easy installation and trap replacement
• Made in the USA

Optic Ceramic Bearing: Push Button, Full Sized Head, 5 Holes, model 320	35-119761	**399.95**

TwinPower Turbine High Speed F.O. Handpiece (J-Morita)

J. Morita's TwinPower Turbine now features ceramic ball bearings. Forty percent lighter and 3 times harder than conventional bearings, they offer extended turbine life, reduced operation noise, and less vibration. For maximum torque control, TwinPower's unique double-impeller design provides up to 22 W of power. Other features include mini head option, zero suck back in the air line, rapid braking within 2 seconds, glass rod optics, and direct connection to popular coupling systems.

The TwinPower operates by air from the drive air nozzles powering the primary impeller. The exhaust air is then directed through fixed fins, which power the secondary impeller. The result is that the handpiece is more powerful and provides constant torque and controlled speed, even under load.

Fits Morita, Fiber Optic Standard Head, Includes: Lubricant Spray Nozzle, Chuck Grip Tester, Spray Hole Wire, Screwdriver, Cap Tool	35-121421	**864.95**
Fits Sirona, Fiber Optic Standard Head, Includes: Lubricant Spray Nozzle, Chuck Grip Tester, Spray Hole Wire, Screwdriver, Cap Tool	35-121431	**864.95**

Handpiece Pull Tester (HPP)

A pull tester is an absolute must when repairing/rebuilding turbines. Our pull testers are simple, but very effective.

Part #: THR008

A precision pin is mounted to a spring loaded shaft that exerts a pull of 8 lbs which more than exceeds the industry standard of 6 lbs.

Part #: THR808

The standard pull tester is to be used on a turbine that is not in motion.

The dynamic pull tester can be used like the standard, however the test pin is attached that allows you to perform the pull test on a handpiece while it's running.

This is the most accurate way to test the holding power of a spindle.

Air Torx E-Type Air Motor (J-Morita)

Air Torx offers efficient, powerful, and constant torque with operational speeds up to 20,000 rpm. Its innovative fluid dynamics generate about twice as much torque compared to a conventional low speed motor in the 5,000–10,000 rpm range. Air Torx is comfortable to operate - it is lightweight, perfectly balanced, and delivers smooth power control. Versatile, it can be used for a wide range of tasks such as grinding dentures, adjusting, finishing, and polishing restorations, and for tooth polishing with a prophy angle. Air Torx is designed for enhanced durability and offers an extended working life. Other features include: forward/reverse drive with continuous speed control, double-lock connection, autoclave safe design, and compatibility with standard ISO-type attachments.

•Powerful torque even at a low speed.
•Long working life
•Perfectly balanced, lightweight design
•Forward/reverse drive with continuous speed control
•Safe and easy double-lock connection
•Autoclavable for complete infection control
•Compatible with all standard ISO-type attachments

iBrite Deplaquer Polisher (Pac-Dent)

A convenient cordless stain remover that cleans better than just brushing and flossing. Its unique fusion of professional technology and ease of use allows for the ultimate removal of tobacco, coffee, tea, wine, and other types of stains even years after they form. The results will be visible immediately after use, and you will be able to smile more confidently. The kit comes with several different types and sizes of cleaning heads to ensure the cleaning cups reach all tooth crevices and gaps, and effectively remove the stains accumulated over time. The included polishing paste contains fluoride for cavity prevention.

Advantages:
•Cleans better than brushing and flossing alone
•Effective removal of tobacco, coffee, tea, wine, and other types of stains
•Immediate results
•Included paste contains fluoride for cavity prevention

1x iBrite Deplaquer/Polisher Unit: 1x Handpiece, 1x Remi desensitizing paste pen, 4x AA batteries, 1x Shade guide, 6x Prophy pastes, 5x Bids with adhesive stickers, 1x Instruction, 6x Prophy angles (2-Pedo cups, 3-ProAngle Ergo Torque cups, 1-Brush cup) 35-55410 **199.45**

This portable hygienist's handpiece is the ultimate in convenience, comfort, and control.

Handpieces

No more cords to mess with, lightweight, fully autoclavable, rechargeable, comfortable grip and contour, as well as minimal vibration and chatter. Smoothly control speed with a simple twist to your desired setting anywhere between 2,000 and 20,000 rpm.

Advantages:
- Cordless, portable, and rechargeable
- Textured silicon grip reduces vibration and chatter for enhanced comfort & non-slip control
- Fully autoclavable and lightweight
- Consistent, powerful torque delivery
- Variable speed between 2,000 and 20,000 rpm
- Interchangeable autoclavable grips allow color-coding, personalization & easy maintenance
- Works with any standard disposable prophy angle on the market

ProMate™ Hygiene Prophy Handpiece (Pac-Dent)

Reduce fatigue and daily micro-traumas on the hand and arm muscles

Reduce fatigue and daily micro-traumas on the hand and arm muscles with our new ProMate™ hygiene handpiece. It has a lightweight, ergonomic design that minimizes vibration and chatter as well as a textured silicon grip and contoured shape that provides superior comfort and non-slip control. Maintain the ProMate™ easily by autoclaving the entire handpiece with the grip, or remove and replace the grip for color coding and personalization. Use with your favorite standard disposable prophy angles today and see the difference! The grips are available in blue, green, lavender and dusty rose.

Advantages:
- Very economical, best buy for price & quality
- Soft, non-slip grips help reduce fatigue and daily micro-traumas
- Color-coded grips are ideal for personalization
- Easy maintenance with the entire handpiece being autoclavable
- Ergonomic lightweight design ensures superior comfort
- Compared to the best brands on the market
- Works with any standard disposable prophy angle

M35 Compact Electric Lab Handpiece System (Buffalo)

New High Torque Variable Speed System Features a Compact and Versatile Design

Console: 5 in. (128 mm) Width x 6.5 in. (166 mm) Depth x 3.25 in. (82 mm) Height x 2.9 lb. (1.3 kg) Weight

•High Torque Cutting Power from 0 – 35,000 RPM New high torque handpiece and control system provide excellent cutting power and smooth control in a compact system
•Improved Versatility System is designed for 120V AC operation but can be easily switched to 220V AC via setting on the underside of the Console
•Improved Console and Controls Improved controls provide fully variable speed via console or foot control, simplify operation and protect the controls and handpiece
•Excellent High and Ultra-Low Speed Operation System excels at providing a full range of usable operating speeds from ultra-low to 35,000 RPM
•Heavy Duty Construction Components and system designed to provide reliable and trouble-free operation. **1 year warranty**
•Sizes:
Handpiece: 6.25 in. (159 mm) Long x 1.1 in. (28.5 mm) Back Diameter .79 in. (20 mm) Front Diameter x 8 oz. (.23 kg) Weight

120V/220V AC (Console+MG Gray HP+FC)	35-118131	**419.95**

Magic Wand Lab Handpiece System (Buffalo)

Features/Benefits:

•Compact electric handpiece system features fully variable cutting speeds from 0 to 35,000 RPM
•Premium black electric handpiece provides smooth, quiet and comfortable operation with a history of long term durability
•Reliable, no-frills, made-in-USA Console
•Fully variable speed conveniently controlled by a heavy-duty, all-metal Variable Speed AC Foot Control
•The convenience and benefits of an electric handpiece without the added extras of higher priced systems
•Sizes
Handpiece: 6 in. (153 mm) Long x 1 1/8 in. (29 mm) Major Diameter, 5/8 in. (16 mm) Nose Diameter x 9.5 oz. (270 gm) Weight
Console: 4.25 in. (108 mm) Width x 5.25 in. (133 mm) Depth x 3 1/8 in. (80 mm) Height, 2 lb. 7 oz. (1.1 kg)

120V AC (Console + Black HP + FC)	35-118151	**449.95**
220V AC (Console + Black HP + FC)	35-118141	**449.95**

Handpieces

V35 Electric Lab Handpiece System 110V (Buffalo)

Features/Benefits:

•Reliable Gray Electric Handpiece, New design and high-torque motor provide smooth operation and powerful performance with less operator fatigue. Larger bearings, extra-strong chucking mechanism, and proven design promote increased reliability
•Variable Speed Foot Control, Variable speed foot control provides fully variable speed operation from 0 – 35,000 rpm and allows the system to excel at both higher speed and ultra-low speed (0 – 500 rpm) operation
•Dependable V35 Control Console, Four multi-speed options on the control console (14k, 22k, 27k 35k rpm) simplify console electronics, improve system reliability, and allow ideal speed selection for most cutting needs. Simplified design creates higher power transfer through the console and more torque to the handpiece. Console **Made in USA!**

X40 Premium Electric Lab Handpiece System (Buffalo)

New 40,000 RPM High-Torque System Updates Our Classic X35 and Provides Additional Speed and Torque

•New 40,000 RPM Handpiece 40k blue electric handpiece features an improved heavy-duty spindle, upgraded bearings, and more durable square carbon brushes, providing higher speeds, smoother operation, and increased reliability
•Improved Console The upgraded control console features dual power outlets allowing fast and easy switching between two separate handpieces as desired (one handpiece included with system), saving time-wasting tool changes. Higher voltage output and additional overload control help protect the handpiece from damage during extended heavy grinding
•**Superior Control:** The system provides exceptional control at ultra-low rotational speeds, high torque cutting power, and fully variable speed from 0-40,000 rpm. The X40 comes complete with a fully variable speed foot control for added versatility
•**Heavy Duty Construction:** Components and system designed to provide reliable and trouble-free operation. **1 year warranty**
•Sizes
Handpiece: 6.25 in. (159 mm) Long x 1 1/8 in. (29 mm) Major Diameter x 5/8 in. (16 mm) Front Diameter x 8.6 oz. (244 gm) Weight
Console: 7.25 in. (184 mm) Width x 7 in. (177 mm) Depth x 3.5 in. (89 mm) Height x 6.3 lb. (2.9 kg) Weight

X50 Brushless Electric Lab Handpiece System (Buffalo)

•Ultra-High Torque Cutting Power Brushless high-torque motor and control system provide brute-strength 7.8 N. cm. torque and precise control from 1,000 to 50,000 rpm with no carbon brush maintenance
•New Whisper-Quiet Motor New brushless motor features ultra-quiet and extremely smooth operation. Improved bearings and balance provide highly-concentric, vibration-free operation in a sealed, maintenance-free design. Convenient twist lock/unlock chuck provides safe and secure holding of HP-sized instruments
•New Advanced Console Design with Microcomputer Control New intelligent microprocessor control provides fully variable speed via console or foot control. Console provides precise speed control, digital rpm display, and controls for hand/foot and forward/reverse operation.

Handpieces

•Foot Control "Smart Cruise" Feature New smart cruise control circuitry automatically senses when the Foot Control speed is held constant and auto-activates precise rpm control with an audible two beep tone. Feature immediately deactivates with next touch of Foot Control and ready for resetting as desired
•Heavy Duty Construction Components and system designed to provide safe, reliable and trouble-free operation. High impact housing is tough and easy to clean. **1 year warranty**
•Improved Safety Intelligent safety circuitry is designed to protect the computer controls and the handpiece. The safety-lock on the console speed control dial helps prevent unintentional higher speed operation
•Sizes
Handpiece: 6.25 in. (159 mm) Long x 1.125 in. (29 mm) Back Diameter, .75 in. (19 mm) Front Diameter x 8.2 oz. (232 gm) Weight
Console: 7 in. (178mm) Width x 9.5 in. (241 mm) Depth x 4.25 in.

Oz Plus Set With Sensor 50K Set C None " without Pedal "	35-119131	**765.00**
Oz Plus Controller Only (Sensor 50K) Each	35-119151	**410.00**
Oz Plus 50K Handpiece w/Sensor Each	35-119161	**340.00**
Variable Pedal Only For Oz Plus Each	35-119121	**50.00**

Power Brush Type Motor (Saeshin)

•Variable speed dial system
•Right & Left turning ability
•Hand/Foot speed control system
•Automatic overload protection system
•Reset apparatus ability
•ON/Off and variable speed foot control
•Max, 45,000 rpm
•Torque 450 gf.cm
•Input 110 / 230 Volts (50 / 60Hz)
•Output DC 0-32W
•Weight Control box: 4.8Lb Handpiece: 6.7 oz. (strong 110LN)

RamPro500N Series (Saeshin)

•Computer controlled microprocessor
•Soft touch keypad control digital speed display
•Hand/foot mode and forward/reverse direction
•0 - 35,000 or 45,000 RPMs
•Auto cruise control on/off button for continuos power in foot pedal mode
•Four memory speed reset buttons
•Dual handpiece output jacks
•Safety overload protection
•Forward/Reverse direction
•Hand/Foot selection

Strong 204 Brush Motor (Saeshin)

Control Box:
•35,000 rms
•Torque: 280 gf.cm
•Input 110 - 230 volts
•Compact design

Tech2000 Handpiece:
•35,000 RPM
•Twist type chuck release

Handpieces

•Improved dust seal protection
•Includes 3/32" chuck
•Multi-chuck feature (easy to change chuck)
•Optional chuck sizes available: 1/8", 1/16", or 3MM

On/Off Pedal
•Maintains constant speed

204 35K Control Box, Tech2000 HP ON/OFF	35-120971	**179.95**
204 35K Control Box, Tech2000 HP None	35-120981	**169.95**
204 45K Control Box, 45000 RPM HP ON/OFF	35-120991	**179.95**
204 45K Control Box, 45000 RPM HP None	35-121001	**172.95**

Strong 207A Brush Motor (Saeshin)

Control Box
•35,000 rpms
•Torque: 300 gf.cm
•DC 0-32V
•Input 110 - 230 volts
•Overload protection

Tech2000 Handpiece
•35,000 RPM
•Twist type chuck release
•Improved dust seal protection
•Includes 3/32" chuck
•Multi-chuck feature (easy to change chuck)
•Optional chuck sizes available: 1/8", 1/16", or 3MM

On/Off Pedal
•Maintains constant speed

207A 35K Control Box, Tech2000 HP ON/OFF	35-121021	**189.95**

207A 45K Control Box, 45000 RPM HP Variable	35-121071	**204.95**
207A 45K Control Box, 45000 RPM HP None	35-121011	**184.95**

Strong 90 Carbon Brush Motor (Saeshin)

Basic model, Mini-Compact design, Less vibration standard carbon brush motor
•Variable Speed dial system
•Right & Left turning ability
•ON/Off Foot control
•Max, 35,000 rpm
•Torque 280 gf.cm
•Input 110 / 230 Volts (50 / 60Hz)
•Output DC 0-32W
•Weight: Control box: 2.9 Lb Handpiece: 7.1 oz. (Strong 102)

SS90 Control Box, Tech2000 HP ON/OFF	35-121081	**175.00**
SS90 Control Box, 5000 RPM HP ON/OFF	35-121101	**175.00**
SS90 Control Box Only	35-121111	**80.00**
SS90 On/Off Foot Pedal Only ON/OFF	35-121091	**21.00**

Thumb Portable Micromotor (Saeshin)

Saeshin Product
Thumb Portable Micromotor 24V
30,000 Rpm (Ram)

Set Consists of:
•Thumb Control Box, Charger, Thumb Pouch, Either an E-Type Handpiece with a 1:1 Straight Nose Cone or Lab Style Handpiece
•Recharger Battery takes 5 Hours to Fully Charge, Up tp 8 Hours Battery Life, Variable Speed Control
•Light Weight Handpiece, Chuck Locking, Easy Bit Change, High Torque, Quiet Operations, No Vibration

Thumb Lab Type Portable Set	35-121201	**399.95**
Thumb E-Type Portable Set With Straight Nose Cone Set	35-121191	**459.95**
Thumb Lab Style Motor Handpiece Only	35-121181	**279.95**
Thumb E-Type Motor Handpiece Only	35-121171	**259.95**
Thumb Control Box Only Each	35-121161	**194.95**
Thumb Charger/Adaptor Each	35-121211	**24.95**
Thumb Pouch Each	35-121231	**24.95**
Thumb Battery Each	35-121221	**74.95**

Xi Brush Type Motor (Saeshin)

•Compact / Eegonomic design
•Vertical / Horizontal placement
•Right & Left turning ability
•Hand/Foot speed control system
•Circuit safety system
•Variable Speed dial system (209A)
•ON/Off and variable speed foot control
•Max, 35,000 rpm
•Torque 300 gf.cm
•Input 110 / 230 Volts (50 / 60Hz)
•Output DC 0-32W
•Weight: Control box: 2.6 Lb Handpiece: 8.2 oz. (Strong 110LN)

XI Control Box, Tech2000 HP ON/OFF	35-12165	**185.00**
XI Control Box, Tech2000 HP Variable	35-12164	**199.00**
XI Control Box, Tech2000 HP None	35-12163	**175.00**

Each	35-97731	**14.95**

Handpiece Lubrication and Cleaning System (ATW)

Features:
- •High security, Easy to operate the dental handpiece lubrication system
- •3 Dental Handpieces can be Oiled and Cleaned One Time
- •Remained oil can be cleared by pressing the air key after handpiece lubrication
- •The mist filters attached behind the door can keep mist leakage to minimum
- •Mode Time of cleaning and oiling Time of cleaning
  - -Short Mode Almost 35 Seconds Almost 60 Seconds
  - -Long Mode Almost 45 Seconds Almost 60 Seconds
  - -Long Mode Almost 50 Seconds Almost 90 Seconds
- •The use of dental handpiece can improve the maintenance drive 40 percent of life

Unit for: 2 High Speed Handpieces & 1 Low Speed Handpiece, comes with Mist Filter 12/Box	35-117271	**799.00**
Lubricant Fluid, 1Q	35-117261	**39.99**
Mist Filter, 12/Pkg	35-11725	**18.99**

Handpiece Lubrication Oil Spray (Yoshida)

Made in Japan

Each	35-97551	**59.95**

Handpiece Purge Station with Hepa Filter (Parts)

- •Purges excess lubricant and water from handpiece
- •Patented Bio-Cleanse HEPA exhaust filter
- •Hepa Filter helps protect operator from air-borne pathogens
- •Provides for quick and easy handpiece maintenance
- •Exhaust reservoir safely collects excess lubricant

- •Purges handpiece coolant air and water lines
- •Easy view gauge with adjustable air regulator
- •Air supply line with 1/4" male quick-disconnect included
- •Compact size of a foot control - requires little counter space
- •Handpiece adapter required from below

Each	35-117371	**164.95**
Midwest Adapter	35-117361	**29.95**

Lares Adapter	35-11730	**37.95**
W&H Adapter	35-11729	**32.95**
Single Hepa Filter	35-11728	**7.99**

Lubrex Handpieces Cleaning and Lubricating System (Dentamerica)

- •Automatic cleaning, purging and lubricating system
- •Ergonomic front-loading, easy access design
- •Can be used for all high speed, low speed, air scaler, and air motor handpieces
- •Up to 4 handpieces can be processed simultaneously
- •Quick release air connector
- •Automatic fan and filter for vapor removal
- •Large reservoir capacity with visible oil level indicator
- •Specifications：100~240V 50/60 Hz AC
- •Dimensions：W330 x H430 x D430 mm
- •Weight：13 kg
- •Accessories：Main unit, Lubricant, Quick Connector, Hose, Power Cord

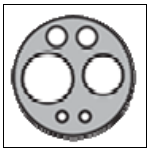
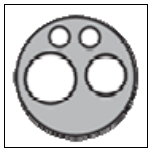
Lubrina Automatic Handpiece Lubrication System (J-Morita)

Lubrina cleans and purges handpieces, and a variety of other equipment, via a rapid air blow system. The speed of air flow has been substantially increased resulting in more power. It delivers superior performance in the same amount of time – just 25 seconds per handpiece. Lubrina also offers a long blow out mode, if needed, to help ensure proper maintenance and maximize service life. Rated as highly versatile in 2009 for its setting options, four ports, and compatibility with multiple handpiece and lubricant brands, Morita continues to improve Lubrina's versatility. In addition to 4-hole and 6-pin, it is now compatible with a standard 5-hole connection. Lubrina is also currently the ONLY system on the market that accepts multiple brands of spray lubricant including the use of two different sprays in the same cycle. Powerful, versatile, and easy to operate, Lubrina simplifies the maintenance process and keeps handpieces running smoothly.

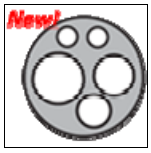
Flexible
Only unit that accepts multiple brands of spray
Allows two different sprays per cycle
Accommodates wide variety of attachments & handpiece types
Short and long mode options
Saves time & Money
Uses only 1/3 the lubricant (compared to manual lubrication)
Services up to 4 handpieces in only 100 seconds
Protects your equipment, helps keep it running smoothly
Unique
Built-in chuck maintenance system
Air suction system eliminates mist for clean operation
Lubrina is compatible with the following connections:



6-Pin Connection



4-Hole Connection



5-Hole Connection

Unit Includes: AR Spray (420ml), AR Spray Can Stand, Oil Absorption Pad (5) Oil Absorption Case, Tray, Tray Filter, Air Tube, Power Cord

Sinus Lift Curette (Nordent)

Nordent Sinus Lift instruments are designed to give practitioners improved access to the internal aspects of the sinus. Sinus Lift Curettes have spoons with smooth non-cutting edges and are available in various shank configurations and spoon widths to detach the delicate sinus membrane from lateral walls. Bone Condensers have fine serrations and diameters to compact bone graft material.

Curettes

Sinus Lift Curette #911 Mirror image ends with spoon shaped tips that are 2.7mm wide.

CECS911 36-11263.....$51.00

Sinus Lift Curette #912 Both tips have a terminal shank that is 21mm long and a 25° angle with different size spoons. One spoon is 2.6mm wide and one is 3.5mm wide.

CECS912 36-11264 .....$51.00

Sinus Lift Curette #913
Both spoons are 3.7mm wide.

CECS913 36-11262 .....$51.00

Sinus Lift Curette #914 Spoons are set on opposing terminal shanks that are 20mm in length. Both spoons are 3.7mm wide.

CECS914 36-11261 .....$51.00

Sinus Lift Curette #915
Both spoons are 6.5mm wide.

CECS915 36-11260 .....$51.00

Sinus Lift Curette #917 Combines a flat 6.5mm wide rounded tip paddle set at a 85° angle and a elliptical 3.7mm wide paddle that has a pointed tip.

CECS917 36-11259 .....$51.00

Bone Condenser

Bone Condenser #918 Combines a 3mm and 4mm condenser diameter into one instrument. Both have a 13mm reach.

CECS918 36-11258 .....$51.00

Bone Condenser #919 Both tips have a 14mm reach and a 4.7mm diameter condenser that has fine serrations.

CECS919 36-11257 .....$51.00

Hydrogum (Zhermack)

Advantages Fast water absorption
Easy mixing, Homogenous mass, smooth, compact surfaces, Long impression storage, Safe disinfection with Zeta 7
Solution and Zeta 7 Spray, Simple and fast mixing without bubbles with Alghamix II, 5-year shelf life

Kit Green 2x 500 g (1.1 lb) bags / 1x sealable storage tub / 1x measuring set	37-11316	**26.95**
Canister Green 1x 500 g (1.1 lb) bag / 1x storage canister / 1x measuring set	37-11317	**13.95**
Refill Green 1x 500 g (1.1 lb) bag	37-11318	**10.99**

Hydrogum 5 (Zhermack)

5 Days stability alginate, extra fast setting - dust free.
Recommended for: temporary crown & bridges,
removable protheses and chromes, study models,
antagonists in fixed and removable prothesis

Kit Lilac 2x 453 g (1 lb) bags / 1x sealable storage tub / 1x measuring set	37-11320	**26.95**
Canister Lilac 1x 453 g (1 lb) bag / 1x storage canister / 1x measuring set	37-11321	**15.69**
Refill Lilac 1x 453 g (1 lb) bag	37-11322	**10.99**

Hydrogum Soft (Zhermack)

Fast setting extra-elastic dust free alginate.
Indicated for removable prosthesis and chromes, study models,
antagonists in fixed prostheses

Kit Light Blue 2x 453 g (1 lb) bags / 1x sealable storage tub / 1x measuring set	37-11323	**26.95**
Refill Light Blue 1x 453 g (1 lb) bag	37-11324	**10.99**

Impression Material

MaxPrint Alginate Chromatic (MDC)

Dustless alginate, Changes color when ready, Up to 120 hours without distortion In humid environment, High detail reproduction 50 microns, Cherry scent, Heavy body (no gag reflex), No tearing, No re-makes

1 lb bag Fast Set w/measuring kit	37-11351	**10.95**

MaxPrint Alginate Cyan (MDC)

Is a superfine dustless Alginate for delivering precision with-out distortion.Max Print made with the finest raw materials to obtain the best impression.

1 lb bag Fast Set, w/measuring kit	37-11352	**10.95**
1 lb bag Regular Set, w/measuring kit	37-11353	**10.95**

Lock-n-Reload Couplers (IndiGreen)

You don't want to start a crown procedure with a two-thirds empty cartridge, but it's too much to throw away. Save up to 30% on your cost of VPS impression material by combining partially used cartridges with the innovative Lock-n-Reload™ coupler. Use one coupler and an extruder gun to quickly make full cartridges from a batch of "leftovers".
Saves motion spent switching material cartridges on the fly.
Keyed design eliminates the chance of accidental cross-mixing of impression materials during refills.
Twist-lock prevents cartridge separation during transfer.
For use with high-performance (rounded flange) automix cartridges.

20 blue disposable plastic couplers 37-87981 **23.95**

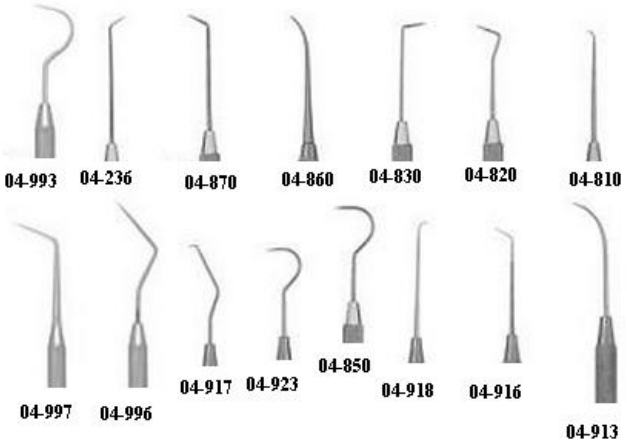
Explorers (J & J Instrument)



Several components are necessary to provide a fine and functional dental explorer. First, the tips must be sharp so that dental caries and calculus can be pre-cicely located. Next, the tips must be both malleable and durable.

The correct steel hard-end to consistent and exacting standards will ensure the tactile sensitivity that the practitioner demands. Finally, these tips must be joined to a handle that is lightweight and comfortable, yet sturdy. The meticulous mar-rage of these elements makes the J&J Explorer a most effective diagnostic tool.

ImplaKlean Implant Deplaquer –Scaler Set (Pac-Dent)

Designed to fulfill the requirements of dental implant maintenance, ImplaKlean™ scalers are made of high-performance autoclavable carbon reinforced resin. The unique rigidity allows conventional resharpening and because of the unique resin material will not scratch abutments' surfaces. The handles are ergonomically designed with a pair of color-coded silicone grips for comfort and easy identification. Each set includes three scalers; optional sharpening stone is specifically chosen for optimal resharpening results.

Available in 3 types for different implant deplaquing/cleaning purposes: 4R/4L is the universal tip for use on all implant surfaces; H6/H7 is a sickle scaler for the removal of supra-gingival calculus; 204S is a sickle scaler for the removal of posterior supra-gingival calculus.

•Unique resin material does not scratch implant surfaces

•Re-sharpenable with conventional methods
•Comfortable color-coded silicone grips
•3 types to satisfy different scaling needs
•Optional sharpening stone for optimal re-sharpening results

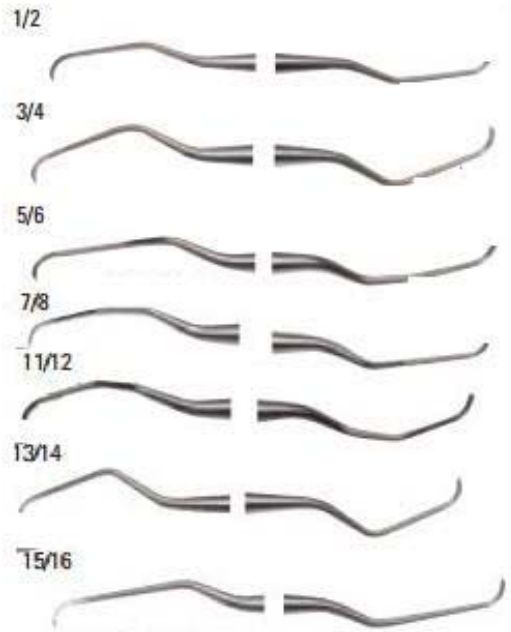
Scalers Double End (Premier)



Instruments

Pocket scalers and mini pocket scalers have a slender and longer terminal shank to provide access into deeper pockets. MPS has the same slender tip design as PS, but with half the blade length. InSite PS & MPS have a depth gauge at 5mm. through 10mm., offering an excellent visual guide. Big EasyUltralite Pocket scalers and mini pocket scalers do not feature the depth gauge found in InSite scalers

Scalette Posterior Double End (Nordent)

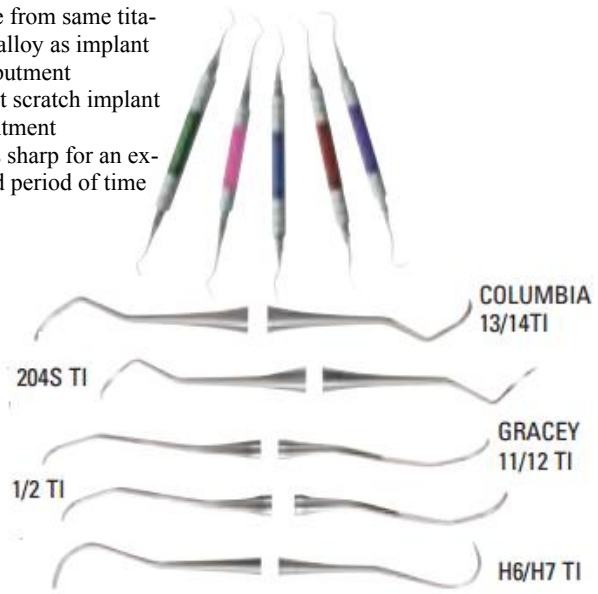
POSTERIOR
Combines the pointed tip of a scaler and the narrow profile of a very fine universal curette. The terminal shank is 11mm. long and the blades are set over the centerline of the instrument to enable easier access into hard-to-reach posterior areas.

Instruments

Each	40-90744	**30.95**

Titanium Implant Scalers (A.Titan)

•Made from same titanium alloy as implant and abutment
•Won't scratch implant or abutment
•Stays sharp for an extended period of time



Scaler Kit Contains: Columbia 13/14TI, 204S Ti, Gracey 11/12TI, Gracey 13/14TI, H6/H7TI, Sterilization Tray	40-90740	**259.95**

Scalette Anterior Double End (Nordent)

Combines the design characteristics of a scaler and a curette into one easier-to-use instrument. Using a Scalette® will save time during the procedure, space on the tray, and will reduce instrument replacement costs.
ANTERIOR
Combines a sickle scaler and anterior universal (sharp on both sides of the blade) curette.

Each	40-90743	**30.95**

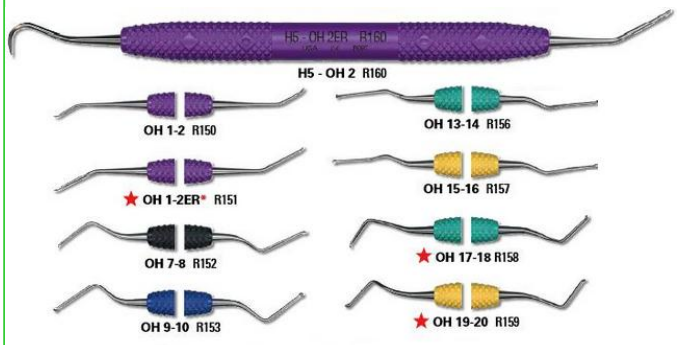
O'Hehir New Millenium Curettes (PDT)



•These unique curettes have small scoop blades with 310° radiuses cutting edges
•It's like having the toe of a curette without the interference of the remaining unused portion of a traditional blade
•This radical departure from traditional curette design allows the clinician to reach areas missed by traditional curette blades
•Designed for access and effectiveness
•Can be used with either a push or pull motion, in vertical, horizontal or diagonal directions
•Perfect for flutings, fractions and line angles

Piezo Ultrasonic Gracey Mini Curette Tips (Vista)

The long shank and slender design allow these tips to be used in places that are out of reach with regular sized tips. For instance, when furcations are present or when teeth overlap (crowding) because the bite was never corrected with braces.

HC-Mini-1 & 2

HC-Mini-3 & 4

HC-Mini-7 & 8

•Longer shank than regular curettes for better access into deeper pockets
•Shorter blades (on average 1.2 mm) permit better scaling in NARROW pockets, reduce tissue damage and offer great adaptation to the root surface
•Slender blades aid in tactile sensitivity and enhance deep pocket access and adaptation to the root surfaces
•Tips will fit: EMS* STYLE: Mini Piezon*, Scalex 880*, Bonart*, SuperSon EIE*, Master 400*, Parkel (Piezo)*, Dent America* - Acteon* STYLE: Vista P5*, NSK*, ENAC*, Sybron Endo*, Ob-

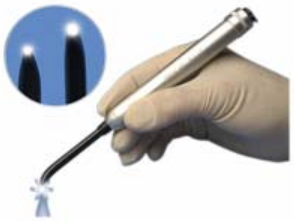
Microlux Transilluminator (AdDent)



Provides a focused beam of cool white light for use in clinical diagnosis of caries, calculus, and crown fractures. The light is powered by a high-intensity, light-emitting diode (LED) and transmitted through a focused glass fiber optic element. By using the technique of fiber optic transillumination, the scope of oral diagnosis can be greatly improved without the introduction of additional X-rays. It also functions as an auxiliary light source which aids in general operative procedures, preventive dentistry, and patient education. **Warranty: 1 year, excluding batteries.**

Kit Contains: 1 LED Transilluminator, 1 Glass Light Guide, 3 Batteries, 1 Pocket Clip	40-90237	**239.95**

Novatech Color-Coded Probes (Hu-Friedy)

Unique right-angle design allows for superior adaptability in areas of limited access.

SE, CP-12 (3-6-9-12mm) Standard Diagnostic Handle	40-90238	**29.95**

Periowise (Premier)

"The Friendly Probe"

Ideal for full examination or a quick screening. Easy to read 3mm. green band indicates periodontal health. Reaching a red mark indicates the presence of periodontal disease. Safe around implants. Autoclavable.

#5, Plane, Cone Socket, 12/Box	40-90181	**25.95**

Disposable Mirrors (DA)

- One-piece handle and mirror (61⁄4" long)
- Poly film protector with pull-off tab
- High quality front surface mirror at an economical price
- Disposable product that requires no sterilization
- ABS Plastic

Plane surface. Precision acrylic mirror with poly-film protectant and pull-off tab. One-piece handle and frame with finger manipulation. White, non-autoclavable ABS plastic.

Green, 100/Box	40-90182	**29.95**
72/Box	40-90183	**31.95**

Plastic Mirrors (DA)

- Autoclavable
- Rugged fiberglass plastic
- Lightweight construction
- Top quality
- Easy to hold handle design

#4 White, 24/Pkg	40-90184	**22.95**
#5 White, 24/Pkg	40-90185	**22.95**

Disposable Mouth Mirrors (Vista)

- Ideal for high-volume offices where interim sterilization is not practical
- Highly reflective surface
- Ultra-thin glass for enhanced imaging
- Lightweight ergonomic handle functions as a cheek retractor
- Medium size #4.5

60/Box	40-90186	**22.95**

Instruments

Disposable Mouth Mirrors (Mirodent)

•With 2 Handles
•Non-misting

100/Pkg	40-90187	**77.95**

Flecta Disposable Mirrors (Pulpdent)

•No more scratches and blotches
•Elongated mirror with 40% larger viewing surface
•Pull tab easily removes protective film from mirror surface
•Double-sided with back side light reflector
•Lightweight comfort handle reduces stress and fatigue
•Offset handle design is a better tongue guard and cheek retractor
•For in-office and take-home use

200/Box	40-90188	**44.95**

Foamez Mirror Wipes (Richmond)

•Removes fog and debris easily and quickly with one wipe against the mirror
•Eliminates the need to remove mirror from mouth or turn mirror against the cheek
•Slides easily onto the metal or disposable syringe tip

200/Pkg	40-90189	**26.95**

Illuminator Mouth Mirror (Zirc)

•Superior clarity, less eye fatigue
•High grade rhodium-coated glass front surface lenses are not disposable
•Autoclavable/Chemiclavable
•Made with Microban Protection

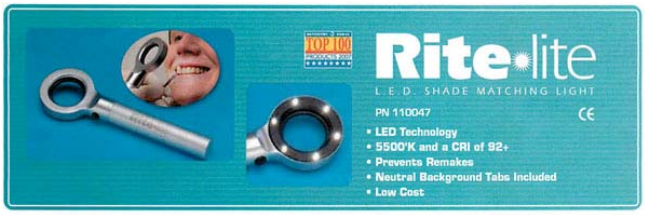
Rite-Lite LED Shade Matching Device (AdDent)



Rated Best out of 4 hand held shade matching lights by the University of Texas

L.E.D. Shade Matching Light Designed to eliminate costly remakes, the Rite-Lite shade matching light incorporates LED technology to provide simulated north sky daylight with a standardized color temperature of 5500K. The small, handheld, portable unit comes with neutral color tabs for placement behind the teeth to eliminate environmental color distractions.

Rite-Lite Device 23-11524 **199.95**

Sunlight LED Illuminated Magnifier Lighting Unit (Meta)

It Illuminates and Magnifies with the Most Natural Color
Used for measuring accurate shading level for porcelain works

Features:

•Most natural LED Lighting Source
•Surface emitting Light; illuminates equally that prevent Shadows
•Detachable 2x & 3x Magnifier with preventable shape distortion
•Three Step dimmer makes it easy to control the Brightness
•Use USB for easy charging and usage
•Most comfortable observation rate for both eyes; 16:9 rate rectangle

Kit Includes: Light Unite, 2x Magnifier, 3x Magnifier Lens, USB Charging cable and manual 23-98811 **184.95**

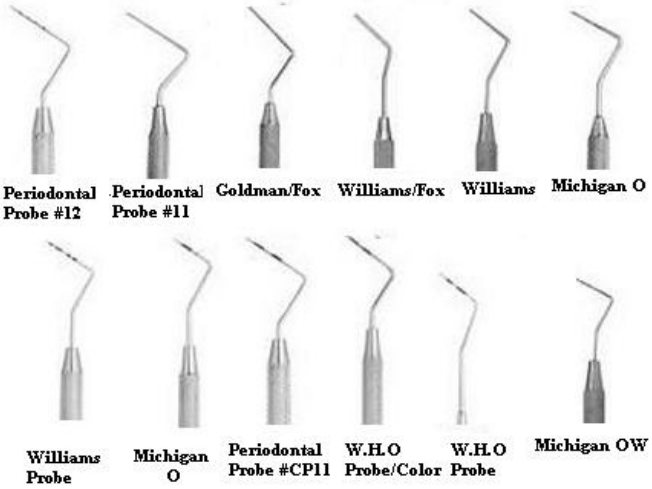
Probes (J & J Instruments)



It is essential that the tips on aperiodontal probe be polished to a smooth and fine finish. This is to assure ease and comfort insubgingival access. These tips must have clear, precise, and consistent markings to provide an accurate diagnosis. Once these properties are crafted onto every probe tip they are affixed to a handle with the left and knurling that enables the clinician to enjoy a tactile sensitivity in every procedure. Our color coding process employs an electro-etching technique that yields markings that are easily discernable and long lasting.

Probes-Single End (Nordent)

Probes are used to measure periodontal pocket depth in millimeter increments. All Nordent Probe tips are made from spring tempered stainless steel and machine ground to exacting tolerances. The millimeter measurements are precisely cut into the Probe tips. Color coding is applied to Probes under extreme temperatures so that the color penetrates the surface of the tip. Probe tips undergo additional tight tolerance grinding to achieve the desired readability for each

Mirrorlite Illuminated Mouth Mirror (Defend)

The perfect adjunct to the Mouth Mirror. The MirrorLite is now coated in titanium which resists corrosion and tarnishing. The Mirrorlite is ideal for: oral diagnosis, oral cancer exams, restorative dentistry, air abrasion and trans-illumination. The illuminated mouth mirror is ergonomic and compact which leads to less eye and back strain. The mirror uses LED light which allows you to see in true color and it is portable and autoclavable.

Intro Kit: 1 Mirrorlite, 3 Batteries, and 50 Mirror Refills.	40-12991	**69.95**
Refill Pack: 50 Mirror refills, and 1 battery	40-12990	**17.95**
Mirror Light Only	40-12988	**48.95**
Refill Double Sided #5	40-12989	**18.95**

Mirro-Vac Saliva Ejector Mirror (IndiGreen)

Reduce number of hands needed, instruments used and procedure time! Our Mirro-Vac Saliva Ejector Mirror combines evacuator and mirror functions into one efficient instrument. Ideal for sealants, air abrasion, bonding and other dry field procedures. Upper suction inlet relieves tissue grab and ensures anti-fog acrylic mirror stays clear—even under direct exhalation. Size 4 lens with 35º inclination delivers standard mouth mirror feel and function without compromise.

•Easy-lift film protects mirror surface until use
•Soft blue color eases patient anxiety
•Round, knurled handle improves grip.
Fully disposable, one-piece construction eliminates need for sterilization. 6" long

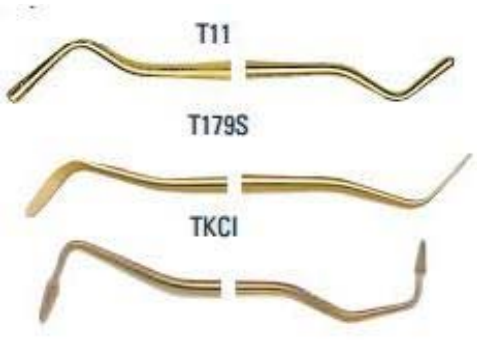
Titan Composite Instruments (DA)



Titan Composite Instruments feature a special coating that eliminates the problems of composite discoloration inherent in the use of steel instruments. Titan Composite Instruments are specially designed for use with composite and glass ionomer restorative materials, although their use with amalgam is also recommended. The instruments have been proven in long-term trials, in general practice, and in hospital use.

Instruments

GTX Titanium Composite Instruments (Miltex)

Revolutionary Tactile Tone Handle offers two unique features: Color and Feel. The permanently color-coded grips allow for immediate recognition between procedures and tray setups. The soft yet firm grip provides a more stable and comfortable feel and reduces hand fatigue and problems associated with carpal tunnel syndrome (CTS) and arthritis.

OptraContact (Ivoclar Vivadent)

OptraContact is used to achieve tight proximal contacts in posterior teeth. It features a patented forked working end with which a composite bridge is formed wile the first layer is cured. The bridge, which is created in the contact region, stabilizes the matrix. Furthermore, OptraContact allows contacts to be positioned in the anatomically correct upper third of the proximal surface.

Contains: 1 instrument, Molar-Green	40-90989	**57.95**

OptraSculpt (Invoclar Vivadent)

OptraSculpt is an innovative modeling instrument that facilitates the manipulation of composite materials. It consists of a high-quality handle and shank as well as specially designed modeling tips in six different shapes. These working ends are slightly elastic. Furthermore, they reduce the stickiness associated with handling composites, allowing fillings to be shaped more easily.

Instrument Refill Contains: 1 instrument, S/E Instrument w/spatula	40-90990	**57.95**
Instrument Refill Contains: 1 instrument, D/E Instrument	40-90991	**57.95**

Slix Composite Manipulation Instruments (Premier)

•Revolutionary protective coating provides ultra lubricity and a lustrous surface for a long-lasting esthetic appearance
•Highly resistant to composite sticking—makes cleanup quick and easy
•The coating is autoclave-safe, will not chip, flake or peel, and gives the tips the appearance of highly polished stainless steel
• The ergonomic handles are manufactured from an advance technology polymer (yellow) with medical-grade silicone grips and offer exceptional lightness, comfort, and durability
•Handle diameter is 1/2" (1.27cm.) to reduce hand fatigue

Each	40-91455	**55.95**

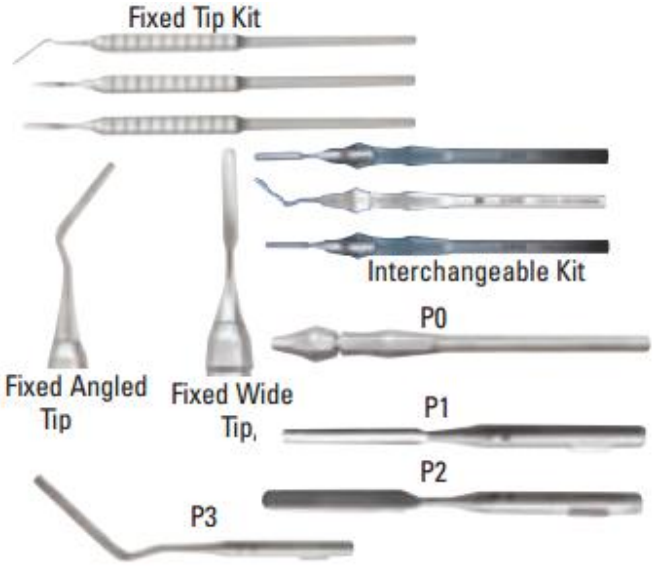
Periotomes

Periotomes (Hu-Friedy)

These instruments provide a unique way to aid in tooth extraction. Unlike forceps, which tear the ligaments by stretching them laterally, the periotome cuts the ligaments, preventing damage to the alveolar bone. This is a great instrument for any dentist doing implant cases because it leaves behind more natural bone structure than an extraction done with forceps.

PT 1, D/E Angled blades for posterior use	40-91715	**68.95**
PT 2, D/E Straight blades for anterior use	40-91716	**68.95**

Periotomes (A. Titan)



Fixed Tip Kit Contains: 100% stainless steel. 3 exclusive instruments w/fixed blades for all areas of the mouth, 3 different blade shapes are slightly rounded and paper thin to slide easily below the gumline 40-91717 **232.95**

Fixed Wide Tip, Universal	40-91718	**95.95**
Fixed Angled Tip for Posterior	40-91719	**95.95**
Interchangeable Kit Contains: #P0 Handle, #P1 Tip, P2 Tip, #P3 Tip	40-91720	**261.95**
P0 Interchangeable Handle	40-91721	**160.95**

Elevators— Davis Root Tip (Hu-Friedy)

All elevators come with a #510 handle unless otherwise indicated.

#2 S/E Davis Root Tip, each	40-91528	**49.95**
#3 S/E Davis Root Tip, each	40-91529	**49.95**

Elevators— Gouge (Hu-Friedy)

All elevators come with a #510 handle unless otherwise indicated.

#34 Gouge, Stainless Steel each	40-91532	**67.95**

Instruments

Elevators— Howard (Hu-Friedy)

All elevators come with a #510 handle unless otherwise indicated.

Howard #2, each	40-91541	**56.95**
Howard #3, each	40-91542	**56.95**

Elevators— Schmeckebier (Hu-Friedy)

All elevators come with a #510 handle unless otherwise indicated.

Schmeckebier #4, each	40-91547	**67.95**
Shmeckebier #5, each	40-91548	**67.95**

Elevators— West Apical Root Pick (Hu-Friedy)

All elevators come with a #510 handle unless otherwise indicated.

#2 West Apical Root Pick, each	40-91549	**48.95**
#3 West Apical Root Pick, each	40-91550	**48.95**

Elevators— Potts (Hu-Friedy)

All elevators come with a #510 handle unless otherwise indicated.

#6 Potts, each	40-91543	**67.95**
#7 Potts, each	40-91544	**67.95**
#6 X Potts, Stainless Steel each	40-91545	**67.95**
#7 X Potts, Stainless Steel each	40-91546	**67.95**

Elevators— Heidbrink (Hu-Friedy)

All elevators come with a #510 handle unless otherwise indicated.

Straight Heidbrink 2, each	40-91533	**67.95**
Straight Heidbrink 40, each	40-91534	**67.95**
Straight Heidbrink 41, each	40-91535	**67.95**
80, each	40-91536	**67.95**
Heidbrink 1, each	40-91537	**67.95**
Heidbrink 2, each	40-91538	**67.95**
Heidbrink 3, each	40-91539	**67.95**
13/14 Heidbrink Root Tip Pick, each	40-91540	**57.95**

Elevators— General (Hu-Friedy)

All elevators come with a #510 handle unless otherwise indicated.

General #190, each	40-91530	**67.95**
General #191, each	40-91531	**67.95**

Easy X-Trac System (A. Titan)

•Intended for immediate implant placement
•No pressure, pulling or rotary movements
•No post traumatic swelling
•No bone restoration

Easy Kit Contains: the 63, 60R, 60L, and 60U. All elevators have a sharp spade tip to create space between bone and root and are great for removal of root tips and fragments 40-91647 **1811.95**

X-Trac Forceps (A. Titan)

Luxators

Luxating Elevators (Hu-Friedy)

Luxating elevators feature thin, sharp blades that are used to cut periodontal ligaments. The elevator tips are permanently fixed to a satin finished, stainless steel handle for increased comfort and control. Luxating elevators reduce pressure on adjacent teeth, as they are used in a rocking motion for cutting as opposed to a standard elevator that lifts and pries.

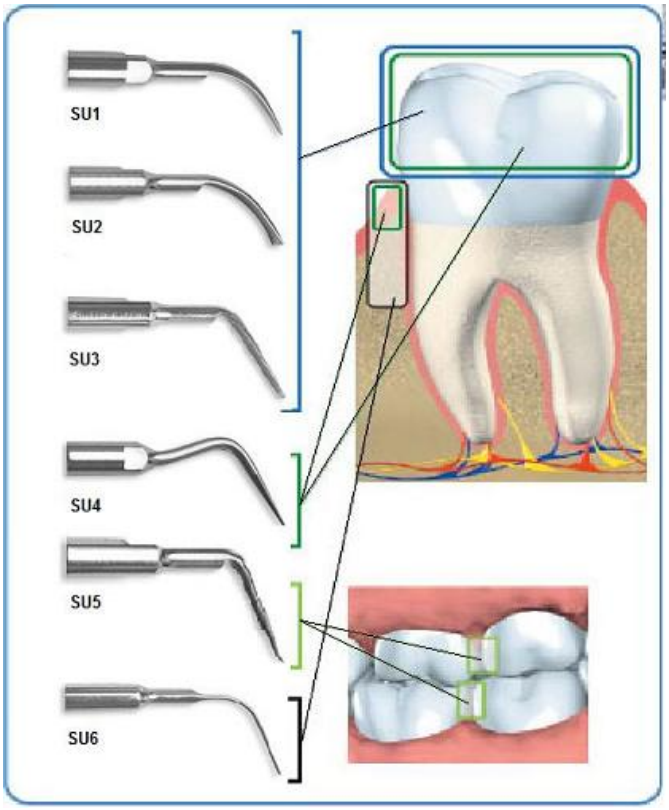
Ultrasonic Piezo Tips (Vista)



SU1 Light to Medium - Heavy Cases of Supra-Gingival Calculus
Utilizing the side radius of the initial 2-3mm of the top of the tip in a sweeping motion on the tooth enamel provides a smooth scaled surface with minimal need for secondary hand instrumentation.

SU2 Scaling of High Density Supra-Gingival Calculus Deposits
Utilizing the flat edge of the top of the tip and the side of the tip perpendicular to the tooth surface, use an up-and-down motion on the tooth surface to sheer off calculus.

SU3 Removal of Stains (Tobacco, Coffee & Other Similar Stains)
Utilizing both the round edge of the top of the tip and the side of the tip on the tooth surface, use an up and down motion on the tooth surface to sheer off stains.

SU4 General Scaling of Sensitive Areas
Less abrasive then the SU1 - SU3 tips, this tip is ideal for use in the periodontal pockets and with other sensitive locations.

SU5 Designed for Easy Interproximal Scaling
The thin design of the SU5 tip allows for entry into most interproximal spaces.

SU6 Designed for Subgingival Scaling
Long and thin design allows for a less evasive entry into subgingival pockets resulting in minimal patient sensitivity and reduced bleeding.

Piezo Ultrasonic Gracey Mini Curette Tips (Vista)

The long shank and slender design allow these tips to be used in places that are out of reach with regular sized tips. For instance, when furcations are present or when teeth overlap (crowding) because the bite was never corrected with braces.

•Longer shank than regular curettes for better access into deeper pockets.
•Shorter blades (on average 1.2 mm) permit better scaling in NARROW pockets, reduce tissue damage and offer great adaptation to the root surface.
•Tips will fit: EMS* STYLE: Mini Piezon*, Scalex 880*, Bonart*, SuperSon EIE*, Master 400*, Parkel (Piezo)*, Dent America* - Acteon* STYLE: Vista P5*, NSK*, ENAC*, Sybron Endo*, Obtura Spartan*, ADEC*, J.Morita*, Dentsply/Tulsa*, Amdent*
•Slender blades aid in tactile sensitivity and enhance deep pocket access and adaptation to the root surfaces.

Pliers & Instruments

3-Prong Clasp Adjusting Plier (All Star)

Precision tips for accurate wire and clasp adjusting and contouring. Also an excellent plier for bending of orthopedic appliances. Superior strength for wires up to .030".

Each 44-11196 **49.95**

Arch Torquing & Bending Plier (All Star)

Ideal for forming square or rectangular archwires. Beveled edges prevent scoring of archwire. Bends wires up to .022" x .028".

Each 44-11384 **70.00**

Band Biter (All Star)

AUTOCLAVABLE! Multi-purpose seater with hardened stainless steel tip.
Molded handle also serves as bite stick.

Each 44-11416 **14.60**

Band Contouring Instrument (Dentsply)

Corrosion resistant chrome plated hard steel file. Beveled edge can be used for burnishing and shaping bands. Filed edge can be used for removing band burrs and sharp edges. High tech plastic handle for easy holding and control. Withstands temperatures up to 375oF. Heat Sterilizable

Each 44-11417 **27.95**

Band Pusher

- Angled serrated tip
- Reduced risk of slippage
- Lightweight hollow handle
- Heat sterilizable up to 370°F/188°C

Each 44-11418 **19.95**

Tel: 877-772-3888

Bird Beak Plier (All Star)

Versatile plier for working with round wire up to .030". Round and pyramid beaks are smooth to prevent wire scoring. Can also be used to form springs.

Each	44-11445	**59.95**

Bone Bracket Position Gauge (All Star)

This unique gauge is placed on the incisal/occlusal surface of the tooth to simplify bracket positioning. Measures 3.5mm, 4mm, 4.5mm and 5mm.

Each	44-11534	**15.00**

Bracket Height Gauge (All Star)

Similar to the Boone Gauge but in a straight, double-ended design. Accurately measures height of bracket on tooth from the incisal edge.
Gauge has 3.5mm, 4.0mm, 4.5mm and 5.0mm.

For .018 Slots	44-11557	**38.00**
For .022 Slots	44-11556	**38.00**
Plastic:For .018 Slots	44-11555	**16.50**
Plastic:For .022 Slots	44-11554	**16.50**

Bracket Height Gauge (Dentsply)

Heat Sterilizable White .018	44-11561	**9.95**
Heat Sterilizable White .022	44-11560	**9.95**
Heat Sterilizable Blue .018	44-11559	**9.95**
Heat Sterilizable Blue .022	44-11558	**9.95**

Bracket Placer/Slot Aligner (All Star)

Design features a bracket holder on one end and a slot aligner on the other.
This end fits into the slot for accurate bracket placement.

Each	44-11565	**19.95**

Bracket Placing Tweezers (All Star)

Slim, precision-curved tips allow for an excellent field of vision while maintaining
a firm grip to assure accurate bracket placement.

Each	44-11566	**15.40**

Buccal Tube Tweezers

The curved body of the tweezers provides an unobstructed view for easier precise placement of buccal tubes.

Heat sterilizable up to 370°F/188°C

Buccal Tube Tweezers, each	44-11585	**19.95**
Reverse Action Buccal Tube Tweezers, each	44-11584	**19.95**

Diamond Disc Safety Guard

Use during interproximal reduction techniques to ensure patient safety. Protects the patients lips, cheeks and gums from spinning diamond discs. Give yourself peace of mind by providing safety to patients. Fits discs up to 22mm.

Each	44-11856	**49.95**

Direct Bond Tweezers with Bracket Aligner

•Reverse action will not release bracket until desired
•Aligns brackets by placing the opposite end into the bracket's slot
•Stainless steel construction
•Heat sterilizable up to 370°F/188°C

Each	44-11863	**14.95**

Instruments

Elastic Separating Plier (All Star)

Angulated beaks for accessibility, ease and accuracy. Grooved beaks assure positive hold for positioning elastics.

Each	44-12231	**30.00**

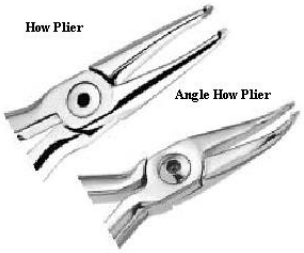
High Heat Bite Stick

Metal serrated triangle tip, Molded high impact plastic, Safe for dry heat sterilizer, Sterilizable up to 350°F/177°C

Each	44-12442	**19.95**

How Plier (All Star)

How Plier Matching serrated pads assure a firm, positive grip. Rounded tips for patient comfort and safety. 3/32" diameter pads. Angle How Plier Efficient utility plier with serrated beaks for a firm grip. 45° angled tips to access hard to reach areas.



How Plier	44-12455	**70.00**
Angle How Plier	44-12454	**84.00**

Jarabak Plier (All Star)

Excellent for precise bending and forming loops in light wires up to .020". Three sets of precision grooves assure a firm grip.

Each	44-12457	**84.00**

Lab Hard Wire Cutter (All Star)

The extra strong edges make it one of the most popular hard wire cutters. Designed to cut all sizes and types of archwires, it features a 15° cutting angle for easy intraoral access. Cuts archwires up to .022" x .028".

Each	44-12462	**70.00**

Ligature Director-Double Sided (All Star)

Design features ligature "tie-spin" tip on one end; ligature tucking onthe other. All stainless steel construction.

Each	44-12503	**15.50**

Lingual Contouring Instrument (Dentsply)

•Ideal for placing lingual 3 to 3 wire retainers
•Angled head for easy access to lingual of anterior teeth
•Flat plastic tip makes cement contouring easy; will not adhere to bonding cement
•Hold wire in place while placing bonding cement
•Autoclavable

Individually	44-12510	**8.95**

Polar Bear Instrument (All Star)

Quickly Chills Thermal Wires

Polar Bear Instrument W/C	44-13505	**22.95**

Posterior Band Remover Plier (All Star)

Safely and easily removes posterior bands.

3/16" Replacement Tips (3/pk)	44-13601	**16.00**

Instruments

Safely and easily removes posterior bands	44-23601	**59.95**

Separating Plier

•Stainless steel with spring back action for easy use
•Heat sterilizable up to 370° F/188°C

Each	44-14164	**29..95**

Tweed Loop Forming Plier (All Star)

Convex/concave beak makes precise Omega loops. Tip has 3 forming sections:.045", .060", and .075". Etched tip surfaces prevent wire slippage.

Each	44-15099	**84.00**

Upright Plier Stand (All Star)

Each	44-15191	**33.50**

Weingardt Plier (All Star)

Serrated tips hold wires firmly at a convenient working angle. Tapered beaks fit easily between brackets and hard to reach areas. Our most popular utility plier.

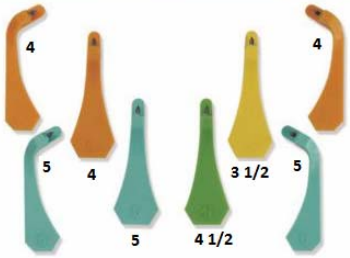
Each	44-15210	**84.00**

Wire Plier (All Star)

Light Wire Plier Designed for working on small wires and forming wire springs. Tapered beaks make it easy to bend small diameter loops. Bends wires up to .020".Wire Contouring Plier Smooth working area is ideal for forming and contouring archwires. Useful in placing accentuated curves in wires. Excellent plier for forming nickel titanium archwires.

Wire Contouring Plier	44-15239	**70.00**
Light Wire Plier	44-15238	**84.00**

Zand Gauge



Perfect bracketing and alignment achieved with less effort.
•Pencil marking tip
•Precise bracket placement
•Great for posterior region
•Cold sterilizable 8 per pack
•Reduces rebracketin

E-Prop Mouth Props (IndiGreen)

Like a third hand, innovative **E-Prop Mouth Props** maintain an open field while holding a standard saliva ejector in the perfect position. Simply slide a saliva ejector into the prop before connecting to a valve. Or used without a saliva ejector, its unique C-shape aids side access and visibility. Invented by a hygienist, E-Prop is ideal for use in lengthy procedures such as scaling and root planning. Rigid polypropylene construction with soft elastomer pads allows for comfortable, secure bite-in. Latex-free E-Prop is fully autoclavable. Available in three color-coded sizes: small (purple), medium (yellow) and large (red). Saliva ejectors not included.

Small, Purple	40-87891	**13.95**
Medium, Yellow	40-87892	**13.95**

Large, Red	40-87893	**13.95**
Multi-Prop, 3/Pkg	40-87894	**38.95**

Xcision Forceps (Miltex)

The Miltex Xcision brand of forceps are the original forceps featuring a unique, light weight, ergonomic handle. They feature a smooth handle with circular openings. This helps reduce hand and wrist fatigue and makes the instrument easier to clean. The Xcision forceps have a resistant Teflon disc which helps reduce wear in the joint of the instruments. They also feature a slim, compact design for easy access to molars.
The Miltex Xcision Extracting Forceps have been designed to allow subgingival access to the root while removing the tooth. The beaks are anatomically shaped and tapered, which allows them to penetrate deeper into the tooth socket and maximize the tooth-to-forceps contact. Serrated breaks allow for better gripping of the tooth surface, which helps aid in the a traumatic extraction of the tooth and reduces the risk of featuring the tooth structure or causing trauma to the surrounding hard and soft tissues.

7 Xcision Forceps, Upper Premolar Universal	40-52000	**158.95**

Miscellaneous

Tooth Slooth Fracture Detector (Professional Results Inc.)

This simple but effective diagnostic device is used for detection of cracked teeth. It specifically pin-points suspected cusps that cause pain during chewing, or teeth that are sensitive to hot or cold due to cracks. Replaces the use of cotton rolls, bite sticks, Q-tips and other devices. Autoclavable. Color: White

4/Pkg 40-90745 **15.95**

Tooth Slooth II Crown Seater (Professional Results Inc.)

This two-ended instrument is beneficial for cementation purposes or for diagnosing fractures of difficult-to-reach molars or for use in small mouths.
Features include:
•Smaller Tooth Slooth head for fracture detection
•Slot for holding anterior crowns in place during the cementation process
•Pointed end for testing for sensitivity in the fossa area or for cementation purposes
•Knurled, slip-resistant surface
•Autoclavable
•Color: Blue

4/Pkg 40-90746 **15.95**

Instruments Cleaners & Lubricants

Barrier Milk (L & R)

•Helps prevent corrosion of instruments when used prior to sterilization
•Protects and extends the life of instruments during autoclaving
•Lubricates and maintains smooth working of hinged instruments
•Nitrate-free, chromate-free, phenolic-free
•Non-irritating
•Neutral pH
•Mild, pleasant odor

8oz Ready-to-Use Spray 40-90750 **18.95**

Gal 40-90751 **52.95**

Instrument Lubricant Spray (Hu-Friedy)

•Prevents instrument discoloration and buildup of mineral deposits, and keeps hinged instruments moving freely
• Should be applied to instruments after cleaning and prior to sterilization
•Does not contain silicone
•Packaged in a convenient non-aerosol pump bottle

8oz 40-90752 **18.95**

Lorvic Credo Clave (Young Dental)

Autoclave water additive concentrate. Prevents rust and corrosion of both instruments and autoclave. Use 2oz. per gal. autoclave water.

1/2 Gal 40-90753 **56.95**

Surgical Milk (Young Dental)

A concentrated pre-autoclave dip. Inhibits rust and lubricates all hinged instruments.

Qt. 40-90754 **28.95**

Gal. 40-90755 **50.95**

Instruments

Vapor Phase (Young Dental)

Pre-autoclave rust inhibitor spray extends the life of valuable instruments.

10oz	40-90756	**25.95**

Instrument Care

Instrument Care System (Miltex)

Surgical Instrument Stain Remover, 3 oz. (85 grams), (case of 12)	40-22628	**109.95**

Release Agent for Instrument Care (Cetylite)

RELEASE® (Cetylite) Releasing Agent/ Dry Lubricant Release prevents adhesion, facilitates clean-up, is non-toxic, non-flammable and protective.

- It prevents sticking of composites to plugger points, build-up of amalgam to carriers and capsules
- It facilitates clean-up of trays of impression materials
- It can be used to treat spatulas, bowls, flasks, articulators, instruments, etc. Release affords instant dry lubrication to jointed instruments and sliding contact surfaces such as pliers, forceps, doors, drawers, etc
- It is compatible with and effective on all surfaces and materials. Release dries instantly on contact into an almost invisible protective coating, preventing tarnish and discoloration
- Only a small amount is needed for superior lubrication or anti-stick properties
- Release does not contain silicones or their petroleum distillates, which may contaminate materials

Dry Lubricant 6oz	40-13468	**28.99**

Instrument Brushes (Miltex)

Nylon. Cleans all types of instruments. Will not harm instrument surfaces. Ideal for delicate instruments.
Stainless Steel Ideal for cleaning rasps, files and burs.

Nylon, 3/Pkg	40-90748	**24.95**
Stainless Steel, 3/Pkg	40-90749	**25.95**

Instrument Coding

Instrument Code Rings (Dentsply)

- Specifically made for use with Orthodontic Instruments
- Designed to fit orthodontic plier handles, scalers,

Instruments

band seaters, hemostats, and other orthodontic instruments
•Made from high temperature silicone that can withstand heat sterilization and autoclaving up to 370 degrees

Instruments

Neivert Whittler Instrument Sharpener (Temrex)

Sharpens any metal tool or instrument to razor edge in seconds. It can be used on knives, scissors, curettes, scalers, spoon excavators, and chisels. Sharpener is made of tungsten carbide. Autoclavable.

Each	40-90793	**55.95**

Sidekick (Hu-Friedy)

Designed to perform routine maintenance sharpening of scalers and curettes, this sharpener is the only power device with instrument guide channels and vertical backstops to help control blade angulations. These template-like features allow virtually effortless positioning of your scalers/curettes and provide consistent sharpening results. Correct routine sharpening will help extend the life of your instruments. The Sidekick is small, compact, cordless, can be placed anywhere and requires minimal counter space—perfect for anywhere in the dental office.
Hu-Friedy, at its sole option, will repair or replace for a period of one year following the date of purchase, Sidekick Sharpener that fails as a result of a defect in materials or workmanship. Purchaser must return the defective Sidekick Sharpener (postage prepaid) and must have previously provided Hu-Friedy with the Sidekick warranty registration card.

Kit Contains: Sidekick unit, user manual and CD-ROM, ceramic sharpening stone, plastic test stick, magnifying lens and 2 AA batteries

Signature Series Ortho Cassettes (Hu-Friedy)

Hu-Friedy now offers IMS Signature Series Thin Orthodontic Cassettes.
The Thin Ortho Cassettes are 40-50% thinner than our existing cassettes allowing for more cassettes to fit into processing equipment (you can now fit 8 thin ortho cassettes in the same amount of space as 5 standard cassettes).
These cassette features a brand new design of an ultra low profile silicone rail that gently holds pliers in place during processing; therefore, reducing the chance for instrument damage and allowing for easy accessibility.

Large, Thin, fits up to 7 pliers Standard configuration has rails for 4 hand instruments Available in blue rail color. Each	40-89191	**159.95**
Small, Thin, fits up to 4 pliers Standard configuration has rails for 3 hand instruments Available in blue rail color. Each	40-89192	**134.95**

Cone & Socket Plier (J & J Instrument)

To tighten and remove cone socket points.

#102 To tighten and remove cone socket points	40-11398	**22.85**

Instruments

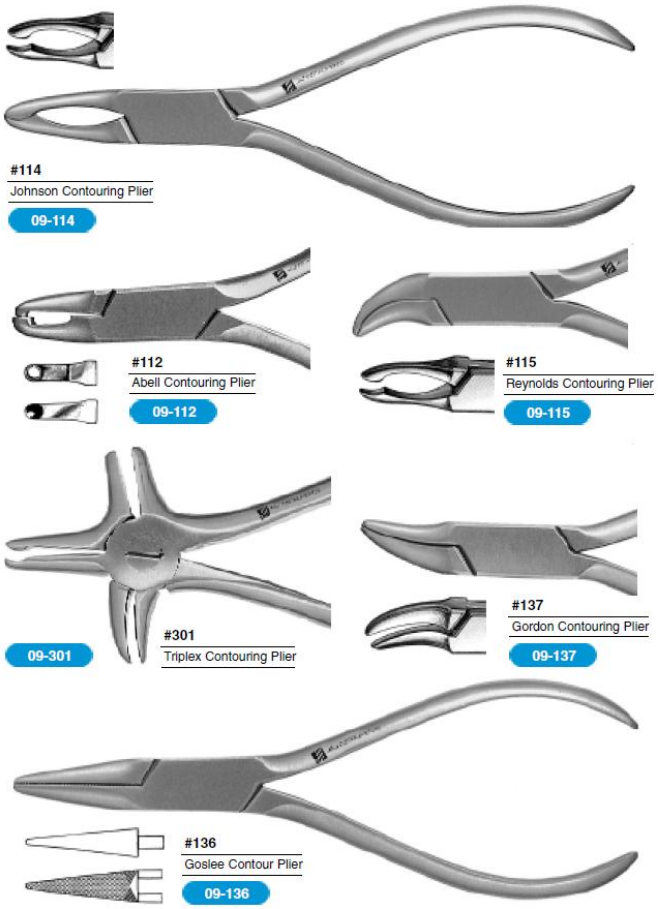
Clasp Adjusting Plier (J & J Instrument)

Clasp Adjusting Plier	40-11362	**22.85**
Elite Clasp Adjusting Plier Fluted Handle 3 Jaw plier, Straight aligned tips for delicate, consistent bending	40-11363	**59.95**

Collar Plier (J & J Instrument)

Peeso Collar Plier #118	40-11369	**22.85**
Robinson Collar Plier #120	40-11368	**22.85**

Contouring Plier (J & J Instrument)



- #114 For contouring bands and crowns
- #112 Ball and socket beaks. Used for crown and band contouring
- #115 Falcon beaks. For contouring bands and crowns
- #137 For general contouring
- #301 Three in one

Abell Contouring Plier #112	40-11399	**22.85**
Johnson Contour Plier #114	40-11400	**22.85**
Reynolds Contour Plier #115	40-11401	**22.85**
Goslee Contouring Plier #136	40-11402	**22.85**
Gordon Contouring Plier #137	40-11404	**22.85**
Triplex Contouring Plier #301	40-11403	**34.23**

Cotton Plier (ATW)

High Quality

Made in Japan

Each	40-98491	**98.95**

Dela-Rosa Plier (J & J Instrument)

#858 Forms Inner Bows and Loops	40-11529	**22.85**

Instruments

Deluxe Bracket Holders

Stainless steel holder is designed for accurate placement of anterior and posterior direct bond brackets and buccal tubes. Excellent field of vision.

Each 44-11855 **11.95**

Deluxe Bracket Holders (ATW)

Stainless steel holder is designed for accurate placement of anterior and posterior direct bond brackets and buccal tubes. Excellent field of vision.

Each 44-97902 **9.95**

Direct Bracket Holders (All Star)

Unique reverse action tweezers with finely serrated beaks for a non-slip grip.
Easy release of both metal and plastic direct bond brackets. (fits narrow to wide twin)

Each 44-11857 **13.00**

Direct Bracket Holders (ATW)

High Quality

Each 44-97901 **8.95**

Direct Bracket Holders (Hu-Friedy)

Each 40-89211 **48.95**

Distal End Cutter (J & J Instrument)

#116 Distal End Cutter. With safety hold and inserted steel tips. Cuts hard round and rectangular arch wire. Holds loose distal end wire
#16S Small Small head with safety hold and inserted tool steel tips. Cuts hard round and rectangular arch wire. Holds loose distal end wire. Smaller head than 09-016.

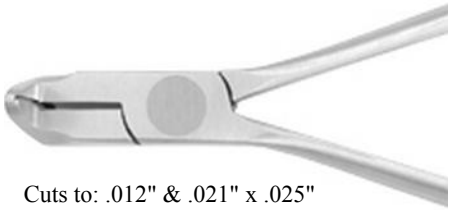
#16 With: safety hold and inserted steel tips Cut hard round and rectangular arch wire Holds loose distal end wire 40-11584 **59.99**

#16S Small head, With: safety hold and inserted steel tips Cut hard round and rectangular arch wire Holds loose distal end wire 40-11583 **59.99**

#16 Regular Head Elite Fluted Handle With: Safety hold and inserted tool steel tips Cuts hard, round and Rectangular arch wires Holds loose distal end wire Comes with wrench Fluted Handle, Regular Head 40-11582 **69.99**

#16S Small Head Elite Fluted Handle With: Safety hold and inserted tool steel tips Cuts hard, round and Rectangular arch wires Holds loose distal end wire Comes with wrench Fluted Handle, Regular Head 40-11585 **69.99**

Distal End Cutter Cut and Hold (Hu-Friedy)



Cuts to: .012" & .021" x .025"

With Hold, Short Handle, each 40-89201 **149.95**

With Hold, Long Handle, each 40-89202 **149.95**

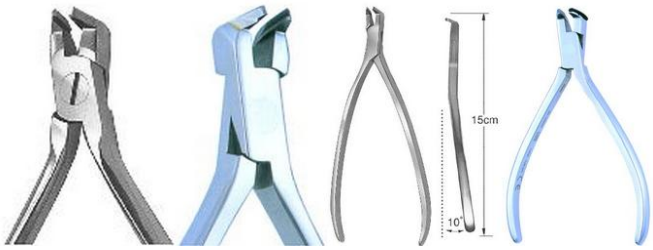
Instruments

Distal End Cutter (J & J Instrument)

#116 Distal End Cutter. With safety hold and inserted steel tips. Cuts hard round and rectangular arch wire. Holds loose distal end wire
#16S Small head with safety hold and inserted tool steel tips. Cuts hard round and rectangular arch wire. Holds loose distal end wire. Smaller head than 09-016.

#16 With: safety hold and inserted steel tips Cut hard round and rectangular arch wire Holds loose distal end wire	40-11584	**59.99**
#16S Small head, With: safety hold and inserted steel tips Cut hard round and rectangular arch wire Holds loose distal end wire	40-11583	**59.99**

Distal End Safety Cutters (Shioda-Japan)



Max Cutting : .022 x .028	40-11590	**89.99**
Slim, Max Cutting : .022 x .028	40-11589	**89.99**
Slim, Long Handle, Max Cutting : .022 x .028	40-11588	**89.99**
Slim, Flush Cut, Max Cutting : .022 x .028	40-11586	**99.95**
Replacement Ring for 5503SF, 10Rings/Pkg	40-11587	**9.95**

Distal End Cutter Flush (Hu-Friedy)

Each	40-89221	**189.95**

Force Module Separator (J & J Instrument)

#101 Hold, Spread and Place Elastics Adjustable screw for control of width opening	40-12224	**59.99**

Forming Plier (J & J Instrument)

V-form wire contouring plier with double notched tip	40-12225	**22.85**
Ribbon Arch Plier #142A	40-12226	**22.85**
Tweed Loop Forming Plier	40-12227	**22.85**
#352 Elite Fluted Handle Comes with wrench	40-12228	**59.95**

Hard Wire Cutter (J & J Instrument)

Diagonal Hard Wire Cutter	40-12529	**33.21**

Laboratory

Trap-Eze™ Disposable Plaster Traps (Buffalo)

Requires minimum 9" clearance between bottom of sink tail pipe and top of trap bucket for easy installation without tools
All trap buckets feature high-strength plastic construction and permanently-sealed lids
3 1/2 gallon size (12 1/2" diameter x 11" H) ideal for intermediate applications
5 gallon size (12 1/2" diameter x 14 1/2" H) best for larger offices and labs with higher volume collection needs (space permitting)
Two flexible hoses (1 1/2" ID x 1 3/4" OD x 20" long) conveniently connect trap to sink tail pipe and sewer tail pipe
Flexible adaptor fitting for sewer tail pipe included for improved drain seal
Complete kit includes sealed trap bucket, 2 hoses, and sewer tail pipe adapter fitting

Automatrix (Dentsply)

AutoMatrix is a Retainerless Metal Matrix which is time-saving, gives you a clear field of vision and makes it easier on your patient. AutoMatrix Retainerless Metal Matrix is indicated where placement of a matrix band around a prepared tooth will facilitate contouring of a direct placement of restorative material (class II preparations).

Sectional Matrix

Contact Matrix Rings (Danville)

MegaRings make perfect, tight contacts even easier. They apply the greatest force and resist deformation to keep their strength. Application is easy as ever, with the same forceps. Design allows easy 'stacking'. Converging tines prevent 'pop-offs' and the widest tines in the market to span the widest preps.
MegaRings are made of a unique, ultra 'springy' alloy and also features a graduated, higher profi le towards the back of the ring. This is engineered to spread the force of bending over the entire arch of the ring.
Contact Rings hold the matrices in place and cause the teeth to spread apart, creating tight, reliable contacts. The wide blades on the contact rings span wide preps where competitive brands fall in. Rings are also easily stacked for multiple proximals. Converging tines prevent pop-offs.

Matrix & Wedges

FenderWedge (Directa)

Protects adjacent teeth during preparation!
In almost 2/3 of cases adjacent teeth are damaged during class II preparation. Avoid this with Fender Wedge™ as you establish and maintain correct positioning for your contact point.
As easy to insert as a wedge.
Jams in and Stays put! Avoids interference.
Placing a Fender Wedge™ prior to preparation facilitates easy placement of matrix and establishment of contact points.

* Most popular loupes for hygiene ** Most popular loupes for endodontic procedures

Based on a report in a 2003 Supplemental Issue of Access on Magnification Use In Dental Hygiene, Magnification loupes extend a dental clinician's career by decreasing the physical strains associated with achieving clear oral cavity visualization while providing superior patient care.

With Set and Forget™ optics, you do not have to be individually measured to get a custom Fit. all miltex® optics allows you to Set your interpupillary, convergence and declination angle For perfect optical alignment. the optics are quickly and easily locked into your individual Setting So your loupes are always perfectly aligned.

Step 1: Choose your magnification: If you are a new loupes user, start with the lowest power you need. Most dental professionals begins units loupes with a magnification power of 2.5x. Remember, as the magnification transmission decreases

Step 2: Choose your working distance: All loupes are preset to focus at a certain distance and objects will remain in focus within a range of several inches around that pre-set point. Miltex® loupes are available in 4 working distances: Short (10-13"), Regular (12-16"), Long (14-18") and Extra Long (16-20").

The 250 Series (2.5x) is the highest ideal general purpose optic. The 250 series optic will provide a magnified view of approximately 2.5 times the object size. Most first time loupes users choose this magnification.

The 300 Series (3.0x) is an ideal optic for individuals who have worked with a 2.5x magnification power optic and want to step up in power. The 300 series optic provides a view of the entire quadrant of the mouth and has an excellent depth of focus.

The 350 Series (3.5x) is the highest magnification available in a compound lens design. The 350 series optic is an excellent choice for dentists requiring high magnification in lightweight loupes.

Nano Loupe Light (Dentlight)

The most power per pound, and the smallest overall light on the market with the most power at its size of only 6 grams on headlamp and 87 grams on battery pack.
Focused Beam - Unlike other headlights, iZoom has no glares with its unique beam quality giving your patient the most comfort.
Constant Power - With unique heat sink technology and constant current LED driver, Dentlight Nano maintains power throughout the battery run time.
Reliable - With smart battery, cooling design, flexible wire and plug and start power driver, Dentlight Nano works any time you need it.
Smart and Robust Battery - Black anodized aluminum rechargeable battery weighs only 87 grams with seamless backlit membrane buttons that set three power levels and prevents cross-contaminations with easy to disinfect clip-on battery pouch.
Ease of Use and Adaptation - Fit to all major loupes including Orascoptic, Zeiss, Designs for Vision, Surgitel and iZoom.

Kit Includes:slide-on composite filter, two battery packs, easy-to-clean battery pouch, universal charger, and loupe adapter with articulating arm that fits on all major loupes	43-11157	**534.95**
Headlamp Only	43-11156	**168.95**

Medseptic Skin Cream

Medseptic Skin Protectant is a superior moisturizer and protectant made with natural lanolin. Lanolin has been recommended by the Foot and Ankle Institute for diabetic patients to help hold moisture in their skin, especially on the feet, ankles, elbows and hands. Lanolin is absorbed by skin since it contains the same lipids that are found in our skin. Contains 50% USP approved lanolin (purest lanolin), an ingredient recognized in the clinical industry for its natural replenishing properties. Especially formulated to treat adult diaper dermatitis, denuded skin and minor burns. Ideal for diabetic patients. Medseptic Cream

4oz Jar 60-97411 **7.29**

Remedy 4-in-1 Cleansing Lotion

Remedy 4-in-1 Cleansing Lotion cleanses, moisturizes, protects and nourishes the skin in one application. Optimizes shelf space and nursing time. Leaves skin feeling fresh and silky. No-rinse lotion formula easily cleanses and removes sticky barriers and pastes, avoiding unnecessary friction on the skin. Convenient trigger sprayer yields over 280 sprays. Added dimethicone helps protect skin. Ideal for light incontinence and to avoid transepidermal water loss (TEWL).Harsh soaps and surfactants strip skin of moisture and contribute to TEWL. Remedy 4-in-1 Cleansers have a phospholipid base that binds both water and nutrients to gently clean and condition the skin. Remedy cleansers contain ingredients derived from natural and organic oils that mimic the body's natural lipids. Remedy cleansers can also be used during showers in place of soaps. The phospholipids will gently cleanse the skin without stripping it from its natural oils. Olivamine is a blend of antioxidants, amino acids, vitamins and methylsulfonylmethane (MSM). These ingredients are all known to play a vital role in basic cellular construction and protection. Olivamine contains antioxidants like hydroxytyrosol, the most potent antioxidant known today (derived from olives). It also contains amino acids like L-proline, L-cysteine and glycine - three of the main building blocks of collagen. These components are also treated with photo-acoustic resonance to help minimize the tendency for in-

Hemodent (Premier)

Hemodent effectively stops minor gingival bleeding. It contains no epinephrine to help avoid cardiac reactions. Hemodent is stable and offers a long shelf life.

40cc	48-11223	**49.95**
20cc	48-11222	**28.95**

Hemodettes Hemostatic Solution (Dux)

- 20% buffered aluminum chloride
- Non-aqueous glycerin base
- Packaged in plastic cups with attached finger ring
- Unit dose packaging eliminates cross-contamination
- Vivid blue color indicates area of placement and verifies complete rinse
- Gel viscosity eliminates migration from the preparation
- Presaturated cotton pellets included in each cup
- Cranberry flavor

25 Unit Dose Cups	48-90551	**22.95**

Styptin Hemostatic Solution (Dux)

Stypin's unique squeeze bottle packaging eliminates cross-contamination.
20% Aluminum Chloride in a buffered solution
The vivid blue color of the liquid indicates area of placement and affords easy/ complete rinsing.
The increased viscosity eliminates migration from the area of placement.

15ml, Cranberry	48-90571	**22.95**

Hemogin-L Hemostatic Solution (Dux)

Hemogin-L "Stops Bleeding Fast". Hemogin-L will not discolor tissue or migrate (due to increased viscosity), and is colored to indicate area of placement and afford easy/ complete rinsing.
Hemogin-L is packaged with an eye-dropper to eliminate cross contamination.
25% Aluminum Chloride in a unique water soluble solution. An effective astringent that will not stain.

20cc, Bottle	48-90569	**27.95**
Aluminum Chloride, 25%, 10cc	48-90568	**17.95**
Hemogin-L, 40cc	48-90567	**46.95**

Racegel (Septodont)

RaceGel® is a brand new hemostatic agent in the form of a gel specifically designed to make gingival preparation procedures easier and more comfortable for patients while ensuring the quality and precision of impressions. Racegel® exhibits a thermo-setting properties: the product is liquid at room temperature and turns into a firm gel when placed in contact with oral tissues. Racegel® comes in a thin syringe with pre-bent tips to better control the placement of the gel even in less accessible areas. The use of a retraction cord is no longer necessary, but is still possible if clinically required. The use of Racegel® allows easier insertion of the cord. Contains 25% Aluminum Chloride and rinses

Racegel Kit	48-20011	**80.95**

Magic FoamCord (Coltene)

Magic FoamCord, the first expanding silicone material designed for an easy, less time consuming retraction of the sulcus without trauma
Features:
Easy - Efficient - Successful
First VPS Retraction Material
Retraction taking as easy as Impression Taking
Retraction easy,efficient and painless
PVS Sulcus Expansion without trauma
Perfect results
Astringent is not required
Flows directly into the Sulcus
Low Cost

Mirro-Vac Saliva Ejector Mirror (IndiGreen)

Reduce number of hands needed, instruments used and procedure time! Our Mirro-Vac Saliva Ejector Mirror combines evacuator and mirror functions into one efficient instrument. Ideal for sealants, air abrasion, bonding and other dry field procedures. Upper suction inlet relieves tissue grab and ensures anti-fog acrylic mirror stays clear—even under direct exhalation. Size 4 lens with 35º inclination delivers standard mouth mirror feel and function without compromise.

- Easy-lift film protects mirror surface until use.
- Soft blue color eases patient anxiety.
- Round, knurled handle improves grip.

Fully disposable, one-piece construction eliminates need for sterilization. 6" long.

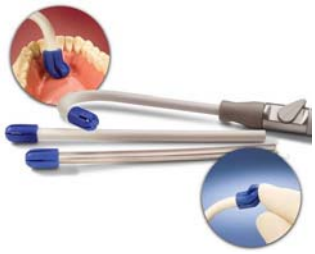
Spand-Ezz Saliva Ejector System (Dentsply)

Non-intrusive design works seamlessly with the Spand Ezz cheek retractor.

Creates a dry working field, without being an impediment to the patient or practitioner.

5/Pkg disposable clips/tubes	50-11152	**11.95**

Total-Comfort Aspirators (IndiGreen)



Hard plastic tip aspirators are just that—hard! They pinch lingual surfaces, jab the mandible and aspirate soft tissue. Now there is a truly comfortable solution—so comfortable, it's patented!

Total-Comfort Soft Tip Aspirators feature cushioned, flexible, patient-friendly tips. Tested and proven to be gentle on soft tissue and bone while reducing soft tissue aspiration. Elastic tips are securely bonded for safety. Protected by U.S patent 6,068,477 and other patents pending. 100% non-latex. Made in the USA.

Deluxe Universal Autoclavable QD HVE (Parts)

- Single Piece Contoured Lever/Valve Assembly
- Ultra-smooth Body
- Long Lasting Viton O-rings
- Anodized Aluminum Finish
- Lightweight Swivel QD
- Hangs from Tip in Most Syringe Hangers

With 6-feet of Grey tubing	50-11153	**56.95**
With 6-feet of Sand tubing	50-11154	**56.95**
With 6-feet of Sterling tubing	50-11155	**56.95**
Each	50-11156	**46.95**

90º Autoclavable HVE (Parts)

- Smooth lever action
- Long lasting Viton O-rings
- 90º head for special handling
- Fully autoclavable
- Quick-disconnect

Each	50-11165	**47.95**

Deluxe Autoclavable QD HVE Upper Assembly (Parts)

- Upper assembly only for deluxe QD HVE
- Use while original is being autoclaved

Each	50-11157	**55.95**
Replacement Spool Assembly, deluxe HVE	50-11158	**17.95**

Deluxe Standard Autoclavable QD HVE (Parts)

- Single piece contoured lever/valve assembly
- Hangs from base in most HVE hangers
- Ultra-smooth body
- Long lasting Viton O-Rings
- Anodized aluminum finish
- Lightweight swivel QD

Each	50-11159	**44.95**
With 6-Feet of Grey Tubing	50-11160	**54.95**
With 6-Feet of Sand Tubing	50-11161	**54.95**
With 6-Feet of Sterling Tubing	50-11162	**54.95**

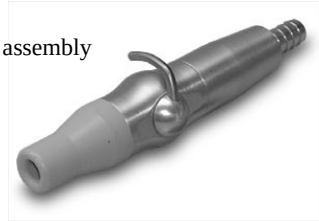
Deluxe Standard Autoclavable QD HVE, Upper Assembly (Parts)

- Upper assembly only for deluxe QD HVE
- Use wile original is being autoclaved

Each	50-11163	**38.95**
Replacement spool assembly, deluxe HVE	50-11164	**17.95**

Deluxe Autoclavable QD SE (Parts)

- Single piece contoured lever/valve assembly
- Ultra-smooth body
- Long lasting Viton O-rings
- Anodized aluminum finish
- Lightweight swivel QD
- Fits in most syringe hangers



Each	50-11168	**39.95**
With 6' of tubing	50-11166	**43.95**
Replacement spool	50-11167	**15.95**

Saliva Ejector System

Contour Vacuum Valve, Slider HVE (Parts)

- Quiet operation
- Smooth external contour without a lever allows one-handed operation
- Quick disconnect and fully autoclavable
- Ready for cleaning and sterilization in seconds

Each	50-11179	**65.95**

Screw-on Tip Saliva Ejector (Parts)

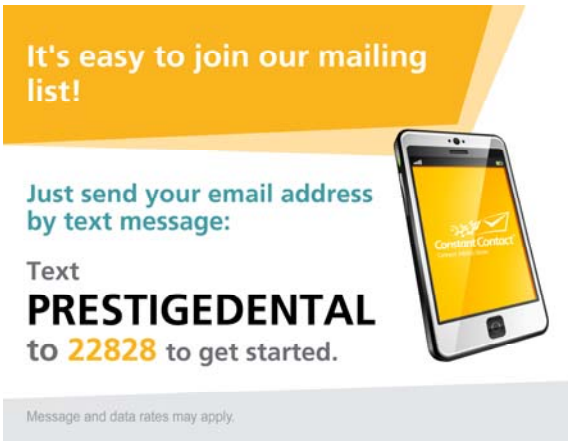
- Secure screw-on style tips
- Choice of Grey or Black tips
- Rubber tip, brass insert
- Autoclavable valve only, remove tip first

SE with Black Tip, each	50-11180	**34.95**
SE with Grey Tip, each	50-11181	**34.95**
SE with Metal QD and Grey Tip, each	50-11182	**34.95**

Standard Rotary HVE (Parts)

- Traditional rotary on/off
- 360º swivel quick-disconnect
- Lightweight comfortable body
- Fits large-bore HVE hangers
- Easy to disassemble for cleaning

Grey HVE, each	50-11183	**29.95**
Black HVE, each	50-11184	**29.95**



Horizontal Rotary Saliva Ejector (Parts)

- Traditional rotary on/off
- Accepts plastic or metal screen
- Removable push-on tip
- Easy to disassemble for cleaning

Grey SE, each	50-11185	**15.95**
Black SE, each	50-11186	**15.95**

Autoclavable SE No Shut-off (Parts)

- Use for auto-hanger vacuum installations
- Same great features as S-1200, less lever valve

Each	50-11187	**13.95**

SE Adapter for HVE (Parts)

Inserts into HVE to accept SE tips

Each	50-11190	**8.95**

Saliva Ejector Adapter (Parts)

- Allows connection of SE and tubing to an HVE
- Inserts into an HVE tip
- 7/16” OD with a 7/32” barb

Each	50-11191	**4.95**

Blade-Safe Blade Remover (Miltex)

An instrument for the safe removal of scalpel blades from handles.

- Protects hand against cuts
- Economically priced
- Stainless steel
- Autoclavable
- Easy to use

Each	52-88951	**18.95**

QlickSmart Blade Removal System (Myco)

- Removes all common blades from most size No3, No4, No5, No7 and No9 scalpels
- Immediate containment of blade upon removal
- For single handed use with either left or right hand
- OSHA Standard Compliant
- Bench or Wall mounted

Each	52-88981	**30.85**

Soft Tissue Trimmer (Axis)

- For soft tissue surgery, the Soft Tissue Trimmer can be used as an alternative to electrode surgery and surgical blades
- The biocompatible hard oxide point cuts tissue without burning
- Recommended to be used without water/spray cooling
- Autoclavable
- Friction Grip only

FG No STT, Size 0.016mm, Head Lenght 5.0mm, each	52-88991	**82.95**

Power Adapter	43-11154	**36.95**

LED Headlight System (LumaDent)

Increase efficiency, lighted field wherever you look. without shadow
Save your back, The better you see, the faster you can perform
Complete LED Headlight

Weight: 0.19 oz (5.5 gr). One of the lightest headlamp on the market, it is lighter than a quarter

Diameter: 0.64" (16.3 mm), Length: 0.79" (20 mm). Smallest in the market.

Light Output: 40,000 Lux at 14" working distance.

Spot Size: 2.5" at 14", 3.5" at 18"

Battery Life: 8 hours continuously at maximum intensity, with Low-Battery indicator light.

Battery Charging Time: 3 hours
Battery size: 3" x 2" x 0.9" (8.8 cm x 5.5 cm x 2.3 cm)

Battery Weight: 5.8 oz (155 gr)

Package includes: LED headlamp, Battery Pack, Charger, Mounts for your loupes/frame, Wire accessory.

If you are interested in Student Group Buy, please, email sam@prestigedentalproducts.com for info.

Please download the Order Form from our website and select the maker name & the frame model, so we can send you the right one.

BenaCel (Unicare Biomedical)

BenaCel Resorbable, Dental Dressing, Plug for deep wounds biopsy sites and post extraction sockets
Benacel absorbable hemostatic gauze acts instantly to control bleeding. Upon contact with blood, BenaCel hemostat will absorb the blood and transform into a gelatinous material.

50mm x 50mm Plug, 10/Pkg	52-11111	**57.95**
15mm x 15mm Plug, 12/Pkg	52-11113	**39.95**
5mm x 7mm, 10/Pkg	52-11112	**29.95**

CytoFlex Membrane NonResorbable (Unicare Biomedical)

CytoFlex® is a non-resorbable membrane for use as a space-making barrier in guided tissue regeneration procedures.
Composed of a proprietary micro porous polytetrafluoroethylene (PTFE) thin film,
CytoFlex® has a surface texture and porosity suitable for adhesion of host cells to the material while preventing passage and integration of bacteria within the interstices of the material.
The supple membrane conforms easily to tissue contours, and yet offers sufficient stiffness to maintain a space over the bony defect.
The smooth, micro-texture surface is designed to improve flap attachment but prevent tissue and bacteria ingrowth.
FDA has approved Cytoflex® for use as a barrier membrane in the treatment of periodontal defect using guided tissue regeneration procedures.

25mm x 30mm, 5/Pkg	18-11112	**194.95**

Cytoflex Resorb (Unicare Biomedical)

Cytoflex® Resorb is an absorbable membrane for use as a space-making barrier in guided tissue regeneration procedure. Cytoflex® Resorb membranes are designed to enhance the adhesion of host cells, and at the same time provide a favorable environment for neo-vascularization and repopulation of bone cells to regenerate osseous tissue. The flexible barrier membranes are easily adaptable to tissue contours, yet offer sufficient strength to protect the bony defect from the intrusion of
bacteria and soft tissue. Composed of synthetic polylactide and polyglycolide copolymers, Cytoflex® Resorb barriers are resorbable and do not require a second retrieval procedure.

30x40mm, Each	18-11115	**109.95**

UniGraft Bioactive Glass (Unicare Biomedical)

Unigraft is made of the highest quality bioactive glass by a proprietary process. The synthetic bioactive granules are optimally sized for ease of administration and enhancement of tissue growth. The product is conveniently packaged in a sterile vial, which is stored within a hermetically sealed foil pouch to ensure product sterility prior to implantation. Unigraft not only offers an osteo-genic framework for new bone growth, but also bolsters a higher level of osteoblastic activity to enhance bone regeneration. FDA has cleared this product for use in treating periodontal defects, extractions sites, cranial and facial augmentation and augmentation of the alveolar ridges.

Easy to use:
Hemostatic -- quickly stabilizes the wound site
Compatible with autologous and freeze-dried bone
Bioactive :
Accelerates bone regeneration
Transforms into natural bone with time
Safe Alternative to Freeze-Dried Bone:
Consistent high quality
Free of disease transmission
No complicated release forms or restrictions for blood-donors

200-420 Micron, 1.0gm, 5/Pkg	18-11133	**259.95**
200-420 Micron, 0.37gm, 5/Pkg	18-11134	**159.95**

Cytoflex Mesh (Unicare Biomedical)

Cytoflex® Mesh is made of a pure, implantable Titanium mesh with precision mesh profile. This product is designed for use to ensure three-dimensional reconstruction of alveolar bone defects and to facilitate bone augmentation through adequate fixation of the augmentation material.

The thin, supple mesh conforms easily to tissue contours, and yet presents sufficient stiffness to maintain a space over the bony defect.
Each CytoFlex® mesh is double pouched and provided sterile.

Surgical Vacuum (Tech West)

Tech West's innovative Surgical Vacuum leads the industry in performance and value. Quiet, durable and reliable by design, the Surgical Vacuum features a thermally-protected, fan-cooled motor with rubber-mounted heads to minimize noisy vibrations and maximize energy efficiency. The fast recovery time of the Tech West Surgical Vacuum enables smooth and continuous operation. Requiring virtually no maintenance, the unit is factory set to run at 17 to 23 inches of mercury for optimum performance. To enable considerable savings by the dentist who does not require NFPA certification, the pump is uncertified. However, Tech West can also provide NFPA-certified pumps for those offices requiring certification. Complete with a two year warranty, the Surgical Vacuum Pump is offered in both dual and triple configurations with plumbing, electrical and installation assistance available upon request.

ART-E1 Electrosurgery / Cutting Unit (Bonart)

One of the best selling and most popular products
State of the art radio frequency electrosurgical unit proudly manufactured and offered by Bonart. Unit is comparable to major brands. Great quality&economical.
Comes with: 7 piece variety electrodes set, 1 hand piece, 1 indifferent or grounding plate, 1 power cord, 1 foot switch. Operation mode of cut, coagulation, cut-coagulation. Operation mode is monopolar.
Output power is up to 70 watts. Operation frequency is at 1.5 to 1.7 MHZ with 10 different power settings.
Unit is a monopolar mode but bipolar converter is optional and available upon request.
Electrodes are autoclavable, 1/16" diameter shaft.
Made universal to other major electrorsurgical brands.
Ideal for human (dental and dermatology use) and veterinary use

Complete Unit with 7 Pc. Electrodes 27-11111 **429.99**
Electrodes Kit 7pc/Box 27-11112 **69.95**

X-CUBE Brushless Surgical Implant System (Saeshin)

powerful, user-friendly surgical motor system used for general oral surgery, implantology as well as for all kinds of micro surgery procedures.
This **implant kit** is the best value in the industry and comes with everything needed to get started tomorrow.

- Push Button & Lever Type
- Reduction Gear Ratio 20:1 (16:1, 32:1, 64:1 also available)
- Torque: 20:1 (5.0 ~ 55 Ncm)
- RPM range with 20:1 Angle: 30 - 2500
- Autoclavable
- Motor speed control from 600 to 50,000 rpm with high power and high torque
- No noise and no vibration for precise sugical control
- With 32:1 geared angle for ideal speeds of 18-1562 rpm and up to 55 Ncm torque
- **Eye-appealing LCD display** with simple user interface
- **Powerful 230W output**
- **10 types of gear ratio setting** 1:5 / 1:4 / 1:2 / 1:1 / 16:1 / 20:1 / 27:1 / 32:1 / 64:1 / 256:1
- **10 program memory for setting** the speed, torque, operation direction, water pump
- **Quiet and strong water pump** (5 stage - control)
- **Automatic overload protection:** If the load on the bur is higher than torque. the motor is stopped automatically after 2 seconds. and to relas the overload function, push foot control pedal

Ergonomic foot control pedal: Control all the functions.

Brite Shield (Premier)

Enzymatic action is up to 35% faster than other brands
Chemo-mechanically debrides clogged dental burs, removes alginate and stone from impression trays. Also removes set glass ionomer, carboxylate and zinc phosphate cements. Ideal for removing bio-burden from hand instruments.
A protective shield coats the instrument through a unique passivation process to restrict rust and corrosion while imparting a lustrous surface to stainless-steel instruments.

800gm/Jar, Container makes up to 34 gallons of finished solution. 55-4921 **49.95**

Pro One SonicTab (Cory Lab)

These easy-to-use enzymatic tablets dissolve in a gallon of water in under a minute to create a powerful and effective ultrasonic cleaning solution.
Made from a biodegradable, non-chlorine, non-corrosive formulation that contains fast acting protease enzymes.
The solution will greatly assist in the removal of blood, bone, tissue, food particles and other soils that may be resistant to chemical detergents.
Virtually eliminates handling and storage of heavy liquid concentrates.

64 Tablets/Box 55-24891 **32.95**

Efferzyme Ultrasonic Cleaner Tablets (Crosstex)

The first effervescent tablet for all your general purpose instrument and endoscopic cleaning.
Fast acting prolease enzymes formulated specifically for cleaning soils from medical instruments.
Just add 2 tablets plus one gallon of water to produce an effective presoak or
ultrasonic cleaning solution.
Also used as an evacuation system cleaner.

52 Tablets/Box 55-24881 **39.95**

Enzymax Powder (Hu-Friedy)

A lighter-weight concentrated powder allows Enzymax to be cost effective while saving valuable storage space. Enzymax powder is specially formulated with a fresh scent.

800gm Makes 55 Gallons 55-24951 **46.95**

EZ-Zyme (Miltex)

• Removes mucous and tissue from hemostats.
•Concentrated, Each 3/4 ounce packet makes 1 gallon of solution.
• Highly effective instrument presoak, ultrasonic and evacuation cleaning solution.

Box of 32 Packets 55-24871 **32.95**

Ultrasonic Cleaner (Yates & Bird)

Cleans any object that can be immersed in liquid. This versatile unit is ideal for both dental office and laboratory use. Compact enough (5" cube overall size) for convenient chair side use, but large enough with its 31/2" diameter x 2" deep tank to accommodate full dentures and many other laboratory items. Model 42 generates 42,000 high-intensity cleaning pulses every second that instantly clean any dental diamond, bur, instrument or dental appliance.

Biosonic Enzymatic (Coltene Whaledent)

Enzymatic Ultrasonic Cleaning Concentrate.

8oz. Concentrate	55-24911	**33.95**

ProEZ 1™ (Certol)

Single Enzymatic Detergent and ultrasonic cleaning concentrate, instrument cleaner

Single Enzymatic Detergent. Protease enzymes attack blood based soils.
- Most economical choice.
- Concentrated: One ounce makes one to two gallons of solution.
- May be used as holding solution or in ultrasonic cleaners.
- Neutral pH and safe for delicate instruments.
- Powerful surfactants added into the formula aid the enzyme cleaning action.
- Water softening and chelating agents work o prevent the minerals in your office tap water from interfering with the cleaning process and prevent corrosion on your valuable instrument.

1Gallon with Pump	55-11123	**29.50**

ProEZ foam™ (Certol)

Ready-to-Use Foaming Enzymatic Instrument Pre-cleaning Spray

ProEZ foam is an easy to use instrument pre-cleaning spray

Powerful quad enzyme formula quickly dissolves sticky blood soils wile unique anti-corrosive system protects and brightens delicate metal surfaces.

ProEZ foam is especially valuable in the dental setting when soiled instruments must be held for extended periods of time. Simply spray cleaning foam on tray of instruments.

Advance Piezo Ultrasonic Scaler & Endodontics (TPC)

Standard Scaler Features:

•Compact unit housing for easy placement anywhere in the operatory
•Extremely gentle on patient, causes little or no sensitivity
•No heat build up in handpiece tip with extended use
•Autoclavable handpiece
•Extensive power range to allow widest choice of clinical applications
•Fine water spray eliminates excessive overspray onto patient
•Thin sub gingival tips available
•5 tips included with unit
•1 year warranty

Optional Endodontics Unit Features:

•Endodontic file holder available
•Easy and rapid operating for root canal treatment
•Achieve enlargement of canal quickly specifications
•Input rating: 115/230V, 50/60 Hz
•Dimensions: 160mm(W) x 155mm(D) x 70mm(H)
•Weight: 2.1kg
•Frequency: 32 KHz
•1 year warranty (tips excluded)

Complete Unit with 2 Insert 25KHZ & Another Universal Insert Free	56-11116	**449.95**

Biosonic Ultrasonic Scaler System (Coltene Whaledent)

New Features:
- Water intensity and power control knobs now rotate in the same direction
- On demand turbo button
- Significantly less expensive than competitors units
- Operates with either 25KHz or 30KHz inserts
- Turbo button for an operator-controlled power boost
- Accepts most competitive magnetostrictive inserts
- Units small footprint saves space in the operatory
- No bulky external power supply
- 115V Model

ART-P3 II Piezo Electric Scaler (Bonart)

Up to a maximum power setting of 50 with auto tune system that locks the frequency. The well-equipped feature called "AGC" (Auto Gain Control) stabilizes the power setting and prevents stalling during scaling operation. System comes with a built in LCD digital screen that displays the mode and power setting, allows the user to choose from Scaling, Perio and Endo mode with one turn of the knob, and has an easy to access water control knob at the front control panel. System includes 4 various tips (2 pointed tips & 2 flat tips), 4 individual plastic autoclavable wrenches, 1 aluminum sterilization box. ISO certified; CE marked; 510k registered. Warranty Terms: 5 year limited warranty on the internal PC board and electrical components 2 year limited warranty on detachable piezo hand piece 1 year limited warranty on the hand piece cable, foot control, power cord etc. 120

Complete Unit with 4 Piezo Tips 56-11121 **479.95**

ART-P6 Piezo Electric Scaler (Bonart)

ART-P6 Piezo Electric Compact Sized Scaler

Unit is designed and manufactured to meet the most demanding scaling environment. System is portable and lightweight weighing only 3.52 lbs; it comes with a built in power setting knob (1-20) that allow users to set power output at their desired level of operation. Technical specifications are as follows:

•Power Supply: Available in either 115V or 230V
•Working Freq: 28KHz to 32KHz
•Water Supply: 25-60Psi (172-414kPA)
•Dimension: 7.68”(L)x3.38”(W)x3.27”(H)
•Weight: 3.52 lbs
•Handpiece Cable Length: 8.52 feet
•Footswitch Cable Length: 8.52 feet
•Operation Environment Temperature: 0-140 degrees F
•Relative Humidity: 10-90% (non-condensing) system **includes 4 tips and 1 plastic wrench** in US; 3 tips and 1 plastic wrench in other regions. **5 year power unit warranty**

Complete Unit with 4 Piezo Tips 56-11125 **339.95**

ART-PB3 Piezo Electric Built in Type Scaler (Bonart)

Power Package includes: PC Board, LCD display screen, VR Switch Set, Piezo Titanium Hand Piece w/ Cable Assembly,4 Tips, 4 wrenches, 1 sterilization box. Optional parts includes: Solenoid Valve, Transformer, Foot Control at additional costs.

Warranty Terms:

5 year limited warranty on the internal PC board and electrical components

2 year limited warranty on detachable Piezo hand piece

1 year limited warranty on the hand piece cable, foot control, power cord etc.

120 days on the expendable part like Piezo tips

Cavitron Jet Combination System SPS (Dentsply)

Cavitron Jet Combination System SPS	56-11128	**3399.95**

Piezo Advantage (Vista)

Little or no hand piece vibration virtually eliminates hand fatigue and patient sensitivity, while still powerful enough to remove heavy calculus.

•Compact, functional design with removable and autoclavable control covers
•It can easily be wall, pole or table-top mounted
•Extensive range of Hygine/Perio tips and diamond coated Endodontic tips
•Compatible with Vista's Hygiene Irrigator™ System
•Table Top or Modular Unit Styles

Table Top Unit Includes:
•Piezo Advantage™ Ultrasonic Unit
•3-Autoclavable hand piece sleeves
•3-Tip Wrenches
•6-Ultrasonic Tips of your choice (*HST, UCT, Safety 20-4D and 40-4D Tips not included in this offer.)
•Choice of wall or pole mount
•Modular unit also includes insulation material

Suggested Tips: SU1, HA, HC, HFL, HFR, PFL, PFR, GE20, GE40

Focused Spray Slimline 1000 Cavitron Insert (Dentsply)

Cavitron FSI SLI 1000 Ultrasonic Insert offers improved access and familiar adaptation so you can efficiently remove deposits while maintaining patient comfort
•Triple bend design
•Slimline tip design
•30KHz
•Coined edge design
•Focused Spray technology
•Can be used at all power levels

30k Insert each	56-91953	**158.95**

Jetpolisher 2000– Air Polisher (Deldent)

Advanced complact, non-clogging airpolishing system for about half the price of standard countertop polisher

Recommended to clean tooth surfaces prior to bonding procedures, placing sealants, and bleaching.
• Non-clogging nozzle due to exclusive H.S.T. technology.
• Harmless to titanium implants.
• No installation required, completely portable, and can be moved easily from room to room
• Measure: 3.5" x 3.5" x 7.5"
• Connects directly to existing hand piece tubing (30-35 psi) via 2-3 hole or 4 hole connectors ***(kavo, W&H, Sirona connectors)***
• Using existing dental unit's foot pedal
• Lightweight and easy on the wrist
• Fully detachable autocavable hand piece and water control knob to prevent cross-infection
• Large, easy-view powder reservoir.
• **FDA cleared for use around implant.**
• **2 years warranty.**

Delsonic 2000 Piezo Scaler (Deldent)

•Sleek, compact, quiet, powerful, and portable.
•Linear tip vibration, for more efficient and more comfortable scaling.
•High frequency 30 kHz design provides greater patient comfort than the competition (less vibration against teeth).
•Cool running, high torque hand piece (minimal tip warmth).
•Fully autoclavable hand piece sleeves, so purchasing additional hand pieces is not necessary.
•Range of tips available for all clinical needs.
•Tips are designed to introduce spray even into deep pockets.
• May be used with any independent fluid supply system dispensing purified water or medicaments.
• 2 year warranty (compare with competitive brands' one year warranty on handpiece).

Jetsonic 2000M Combo - With Cavitron - Type Scaler (Deldent)

Advanced combination scaling and polishing unit with patend H.S.T. air polishing system and advanced scaling design features.
The air polishing portion of the JetSonic 200M has all the features of the JetPolisher 2000 ***with the addition of warm water flow.***
The scaler side of this unique unit also offers advanced magneto restrictive technology, including
• Unique sensor technology recognizes and activates the selected hand piece (scaling or polishing)
• Advanced patented digital circuitry **automatically tunes any "stack-type" insert, whether 25K, or 30K.**
• Advanced microchip feedback system maintains optimum scaling power for all settings.
• Power-Surge Mode technology increases power by 15-20% with a "double-click" on the foot switch for removal of tenacious deposits. The pre-selected power setting returns automatically when the foot control is released
• Large, easy-view powder reservoir (no need to stop to add powder).
• Convenient rinse mode available
• Water heating feature

Ultrasonic Scalers

Piezo Co-Pilot Scaler (Vista)

The piezo **Co-Pilot™** is a beautifully designed and powerful self-contained dual reservoir scaling system. The Co-Pilot™ accepts a wide variety of piezo tips from major manufacturers and can be ordered with either a standard (Acteon*) or metric (EMS*) style hand piece.

- Two large, easy-to-fill 350ml reservoir tanks with easy-to-see liquid levels
- Accepts a wide variety of ultrasonic scaling tips for General Scaling, Periodontal, Endodontic and Apical Surgery applications
- Advanced circuitry, touchpad controls, and push-button controlled variable irrigation flow settings
- Compact design for improved productivity and portability (needs NO operatory air/water connections)
- Soft-lit dome and reservoir. Autoclavable handpiece sleeves available in six contemporary colors

System Includes:
- **1** - Piezo Pilot" ultrasonic scaler unit,
- **4** - Ultrasonic tips and **4** torque wrenches (Either Hygiene or Endo tip packages)
- **1** - Detachable handpiece (either Universal Acteon* or Metric EMS* thread)
- **3** - Color-matched autoclavable handpiece sleeves
- **1** - Quick-disconnect water line and replaceable in-line water filter
- **1** - Omni-directional foot pedal

Piezo Handpiece (Bonart)

Piezo handpiece truly defines the innovative modern piezo technology developed by Bonart. The outer casing of the hand piece is made of a specialiized material that can withstand steam sterilization of 135 degrees Celcius. Its newly improved transducer design offers a more powerful scaling, endo and perio vibrating frequency with less pain and great ease. It comes with a protective cap to be installed at the bottom portion of the hand piece during autoclave session to prolong the life of the entire hand piece. ISO certified; CE Pending. 510k registered!. 2 year limited warranty.

Each	56-11184	**129.95**

ProSonic Air Scaler (Pac-Dent)

The ProSonic™ air scaler is a pneumatically driven device that generates an elliptical oscillation of the working tips in the sound range (< 6.5 kHz) with longitudinal and transverse movements. It is as powerful as it gets without being an Ultra Sonic, and has been clinically proven to be efficient and gentle with a wide range of uses, including: Hygiene, Periodontics, Minimally invasive caries therapy, Cavity shaping and finishing, Endodontics and Cementation. It features a controlled water spray that prevents the “drowning effect" often experienced by patients during deep scaling. The scaler is entirely autoclavable / chemiclavable, and the tips can also be dry heat sterilized. To further safeguard the operator and patient from cross contamination, it also comes with replaceable tactile silicone grips which also relieves finger fatigue. The ProSonic™ has a slim and lightweight design that permits complete scaling even in tight interproximal areas. Packaged with 5 scaling tips - Universal, Sickle, Perio, Perio Left and Perio Right

- Sonic technology effectively removes calculus deposits and dental stains.
- Connects to existing air driven tubings and foot control
- Lightweight - helps to relieve wrist and finger fatigue
- Can be safely used on patients with pacemakers
- Fully autoclavable
- Ergonomic & color coded silicone grips
- Selection of tips for different scaling needs

ProSonic™ Air Scaler Unit: 1x ProSonc air scaler, 1 x universal scalping tip, 1 x sickle scaling tip, 1 x perio scaling tip	56-55401	**414.70**

Piezo Pilot Scaler Unit (Vista)

Introducing the Piezo Pilot™ a New Generation of ultrasonic scalers. Featuring state-of-the-art circuitry and a compact modern design, the Pilot is a lightweight powerhouse. The soft-lit dome and removable / autoclavable hand piece sleeves are available in six contemporary colors to adapt to any operatory decor. The unit also features a magnetic handpiece holder that can be positioned on either side of the Pilot or onto any magnetic surface.

A complement to any office decor, the Piezo Pilot™ is a powerful, lightweight, and beautifully designed piezo scaler that allows the hygienist to work quickly and effortlessly. The Pilotâ€™s state-of-the-art circuitry offers a wide range of amplitude settings for regular hygiene procedures and all ultrasonic endodontic procedures, including certain bone surgery applications. It comes with a choice of either four ultrasonic hygiene or four ultrasonic endodontic tips, your choice of either a Universal (P5) or Metric (EMS) handpiece, and is compatible with tips from a variety of major tip manufacturers, including Vista's full line of piezo tips.

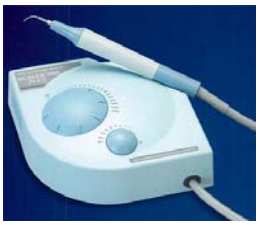
Ultrasonic Scalers

Scalex 800 Ultrasonic Scaler (Dentamerica)

The scalex 800 Ultrasonic Scaler is 25,000 scaling strokes per second, solid state power unit.
• Streamlined compact size and slim light weight handpiece
• Convenient foot control
• No power loss at maximum pressure
• Unit is available in 100/110V 50-/60 Hz, or 220/240V 50 Hz operation
• Dimensions 22L x 19W x 7.5H cm, weight 3.6kg

Unit 25K, Tips not Included	56-11267	**354.95**
F4 Scaler Universal, External Water Tip 25K each	56-11268	**79.95**
F1 Scaler Universal, Internal Water Tip 25K each	56-11269	**49.95**

Scalex 880 Piezo Scaler (Dentamerica)



The Scalex 880 Piezo Scaler has State of the art piezoelectric technology is self-tuning and load adjusting for maximum smooth operation
• Streamlined compact size and slim lightweight handpiece.
• Innovative water-cooled circuitry designed for greater stability during operation
• Extremely gentle on the patient
• The Scalex 880 Piezo Scaler has Available a wide variety of high quality tips to correspond with specific clinical applications
• Three universal tips included. **1 year warranty**

Unit with 3 Universal A Tips	56-11276	**444.95**
Piezo Handpiece only	56-11277	**249.95**
Piezo Scaler Tip (Universal A) each	56-11278	**24.95**
Piezo Scaler Tip (Universal B) each	56-11279	**24.95**
Piezo Scaler Tip (Chisel) each	56-11280	**24.95**
Piezo Scaler Tip (Perio) each	56-11281	**44.95**
Endo Chuck each	56-11282	**84.95**

Scalex 850 Self Contained Ultrasonic Scaler (Dentamerica)

Scalex™ 850 offers self-contained solution tank for total portability, adding therapeutic medicaments

The **Scalex 850 Self-Contained Ultrasonic Scaler** has all the cleaning power you need with performance guaranteed for one full year. Self-contained solution tank allows for convenient portability and the addition of medicated solutions to scaler therapy. Automatic tuning activates inserts in a magnetostrictive cleaning pattern for feather-touch removal of calculus and stains under all loading conditions—no power loss under pressure. Each system includes base unit with graduated 1000ml self-contained solution tank, handpiece with extra-long 7 ft. cord and one 30kHz insert. 110V. **1 year manufacturer's warranty.**

Unit, 30K with 1 Tip	56-11273	**849.95**
F6 Scaler Universal External Water Tip 30K each	56-11274	**94.95**
F3 Scaler Universal Internal Water Tip 30K each	56-11275	**59.95**
Water Tank	56-12275	**59.95**

Scalex 830 Ultrasonic Scaler (Dentamerica)

• 30,000 scaling strokes per second, solid state power unit.
• Streamlined, compact size and slim lightweight hand piece
• Innovative water-cooled circuitry designed for greater stability during operation
• No power loss at maximum pressure
• Available selection of a wide variety of high quality inserts t correspond to specific clinical applications
• Unit for 25K scaling strokes is available
• Specifications：110/220V 50/60Hz AC
• Dimensions：L140 x W140 x H50 mm
• Weight：1 kg
• Accessories：Control Box, Hand piece, Foot Control, Water Connector, Tube, Power Cable

Unit 30K with 1 Tip	56-11272	**469.95**
F6 Scaler Universal External Water Tip 30K each	56-11271	**69.95**
F3 Scaler Universal Internal Water Tip 30K each	56-11270	**49.95**

Ultrasonic Scalers

Scalex 890 Self-Contained Piezo Scaler (Dentamerica)

Scalex 890 offers self-contained solution tank for total portability, adding therapeutic medicaments

The **Scalex 890 Self-Contained Piezo Scaler** has all the cleaning power you need with performance guaranteed for one full year. Self-contained solution tank allows for convenient portability and the addition of medicated solutions to scaler therapy. State of the art Piezo Electric Self- tuning And load adjusting technology for smooth and effortless operation.

Innovative water cooled circuitry designed for greater stability during operation.

1 year manufacturer's warranty.

Unit with 3 Universal A Tips	56-11289	**779.95**
Piezo Handpiece only	56-11288	**229.95**
Piezo Scaler Tip (Universal A) each	56-11287	**24.95**
Piezo Scaler Tip (Universal B) each	56-11286	**24.95**
Piezo Scaler Tip (Chisel) each	56-11285	**24.95**
Piezo Scaler Tip (Perio) each	56-11284	**49.95**
Endo Chuck each	56-11283	**79.95**

Sonic Air Scaler (TPC)

Features:
- Includes 3 tips AS1, AS2, AS3
- Tip wrench included
- Light weight
- Portable
- Saves time
- Autoclaveable
- Available in 2 or 4 hole

Package includes the following:
- AS5000 Air sonic scaler handpiece
- ASI Universal Tip
- AS2 Sickle Tip
- AS3 Perio Tip
- A776 Tip Wrench
- 6Month warranty

4 Hole Kit	56-17051	**198.95**
2 Hole Kit	56-17052	**198.95**
ASI Universal Tip	56-17053	**19.95**
AS2 Sickle Tip	56-17054	**19.95**
AS3 Perio Tip	56-17055	**19.95**

Ultrasonic Inserts

After Five Plus Ultrasonic Inserts (Hu-Friedy)

Sub-gingival
- External fixed water delivery
- Thin, probe-sized design
- Provides smooth, deep access into periodontal pockets
- Lifetime warranty against defects in materials and workmanship, and guaranteed against breakage, joint failure, and corrosion under normal use

Left, 25 kHz, Teal Handles, each	56-90975	**136.95**
Straight, 25 kHz, Blue Handle, each	56-90976	**136.95**
Right, 25 kHz, Red Handle, each	56-90977	**136.95**
Set, 25 kHz, each	56-90978	**374.95**
Left, 30 kHz, Teal Handles, each	56-90979	**136.95**
Straight, 30 kHz, Dark Blue Handle, each	56-90980	**136.95**
Right, 30 kHz, Red Handle, each	56-90981	**136.95**
Set, 30 kHz, each	56-90982	**374.95**

After Five Ultrasonic Inserts (Hu-Friedy)

Sub-gingival
- External water delivery
- Provides smooth, deep access into periodontal pockets
- Lifetime warranty against defects in materials and workmanship, and guaranteed against breakage, joint failure, and corrosion under normal use
- Thinner Tip, Slender Taper with Metal

Straight, 25 kHz, each	56-90983	**127.95**
Set of 3: Left, Sraight, Right, 25 kHz, each	56-90984	**344.95**
Straight, 30 kHz, each	56-90985	**127.95**
Set of 3: Left, Straight, Right, 30 kHz, each	56-90986	**344.95**
Left, 3. kHz, each	56-90987	**127.95**

Ultrasonic Scalers

Biosonic Ultrasonic Inserts (Whaledent)

BioSonic Inserts - variety of most popular tip designs in both 25 kHz and 30 kHz
Better performance reliability and longevity through patented manufacturing process
Ergonomically designed grip for operator's comfort and reduced hand stress
Maximum comfort in popular tip designs

Biosonic Ultrasonic Scaler Tip Slim #10 (25kHz)	56-21110	**98.95**
Biosonic Ultrasonic Scaler Tip Slim #10 (30kHz)	56-21111	**98.95**
Biosonic Ultrasonic Scaler Tri-Bend #1000 (25kHz)	56-21112	**98.95**
Biosonic Ultrasonic Scaler Tri-Bend #1000 (30kHz)	56-21113	**98.95**
Biosonic Ultrasonic Scaler Tip Opti-Mist (25kHz)	56-21114	**114.95**
Biosonic Ultrasonic Scaler Tip Opti-Mist (30kHz)	56-21115	**114.95**
Biosonic Ultrasonic Scaler Tip Slim OptiMist #10 (25kHz)	56-21116	**119.95**
Biosonic Ultrasonic Scaler Tip Slim OptiMist #10 (30kHz)	56-21117	**119.95**
Biosonic Scaler O-Rings Pkg of 12	56-21118	**19.95**

Satin Swivell Ultrasonic Inserts (Hu-Friedy)

- Exclusive 360° rotation
- Color-coded silicone grips
- Large handle diameter reduces finger pinching
- Internal water delivery
- Lifetime warranty against defects in materials and workmanship, and guaranteed against breakage, joint failure, an corrosion under normal use

10-25K, Satin Swivel Insert, each, UI25SS10	56-90950	**147.95**
100-25K, Satin Swivel Insert, each, UI25SS100	56-90951	**147.95**
1000-25K, Satin Swivel Insert, each UI25SS1000	56-90952	**147.95**
10-30K, Satin Swivel Insert, each UI30SS10	56-90947	**147.95**
100-30K, Satin Swivel Insert, each UI30SS100	56-90948	**147.95**
1000-30K, Satin Swivel Insert, each, UI30SS1000	56-90949	**147.95**

Sonix Air Scaler with 3 Tips (Dentamerica)

- 6000 Hz frequency
- Fits onto any highspeed handpiece tubing
- Lightweight, portable, and space-saving
- Autoclavable/Chemiclavable
- Available in 2 or 4 hole configuration

Sonix Air Scaler, 4 Holes with 3 Tips	56-11291	**194.95**
Sonix Air Scaler, 2 Holes with 3 Tips	56-11290	**194.95**
Air Scaler Tips (Universal)	56-63631	**24.95**
Air Scaler Tips (Perio)	56-63632	**24.95**
Air Scaler Tips (Sickle)	56-63633	**24.95**

Streamline Ultrasonic Inserts (Hu-Friedy)

- Internal water delivery
- The #3 Beavertail design is excellent for removal of gross calculus and orthodontic cement
- Use #10 Universal for the removal of all types of debris
- Use #100 for removing light deposits
- Use #1000 for removing tenacious stains and calculus
- Lifetime warranty against defects in materials and workmanship, and guaranteed against breakage, joint failure, and corrosion under normal use.

Ultrasonic Scaler Inserts (Bonart)

SPA Series Insert
Internal water flow

P-10 Series Insert
Universal external water flow

P-100L Insert
Left angle slim external water flow

P-100R Insert
Right angle slim external water flow

P-100 Series Insert
Straight angle slim external water flow

IF-50 Streamline Insert
Universal internal water flow

IF-5 Beavertail Insert
Beavertail internal water flow

IF-100 Series Insert
Slim internal water flow

SPA Series– Internal water flow insert:

Bonart Medical Technology, Inc. holds the patent to the SPA series of internal water flow inserts. The SPA inserts spray water close to the tip utilizing a silicone sleeve that pushes the water from the back of the tip to the front. This feature allows for a more focused water spray. **Autoclavable, Made in USA**

P-10 Series– Universal external water flow insert

The Bonart universal external water flow insert series (P-10) is a straight angled universal insert with an external water tubing that sits above the tip. The P-10 series is designed to be compatible with most major brand magnet scalers. **Autoclavable, Made in USA**

P-100L - Left angle slim external water flow insert

The Bonart P-100L insert is a left-angled insert with a slim tip. Water flows from an external water tube that sits above the tip. The P-100L insert is designed to be compatible with most major brand magnet scalers. **Autoclavable, Made in USA**

Ultrasonic Scalers

P-100R– Right angle slim external water flow inserts

The Bonart P-100R insert is a right-angled insert with a slim tip. Water flows from an external water tube that sits above the tip. The P-100L insert is designed to be compatible with most major brand magnet scalers. **Autoclavable, Made in USA**

P-100 Series– Straight angle slim external water flow insert

The P-100 series is a straight-angled insert with a slim tip. The slim tip is best used for perio scaling of calculus on sensitive areas of the mouth. Water flows from an external water tube that sits above the tip. The P-100 insert is designed to be compatible with most major brand magnet scalers. **Autoclavable, Made in USA**

IF-50 Streamline Insert

The IF-50 Streamline #10 ultrasonic insert has a universal sized tip. Water flow comes from the back of the tip. This tip is designed to be compatible with most major brand magnet scalers. **Autoclavable, Made in USA**

IF-5 Beavertail Insert

The IF-5 Beavertail insert has a spatula-style tip for removing hidden calculus more easily. Water flows from the back of the tip. This tip is designed to be compatible with most major brand magnet scalers. **Autoclavable, Made in USA**

IF-100 Slim Series Insert

The FS slim series insert has a slim tip for better perio scaling of calculus on sensitive areas of the mouth. Water flow comes from the back of the tip. This tip is designed to be compatible with most major brand magnet scalers. **Autoclavable, Made in USA**

Piezo Endodontic Tips (Vista)

GE20 20mm Tip from Bend Angle Same geometry as the GE20D without the diamond coating. This tip reacts less aggressively and is not recommended for cements.
GE20D Diamond Coated 20mm Tip from Bend Angle Used in a variety of endodontic procedures, including the removal of dental pulp, re-treatment, retrieval of separated instruments, identifying canal openings and the removal of cements. Vista Dental recommends usage of irrigation as a cooling agent when removing crowns and posts to avoid injury.

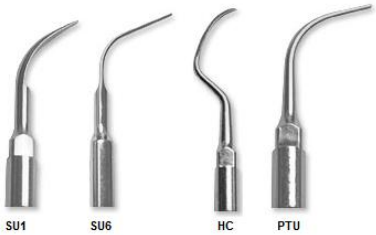
Piezo Hygiene Tips (Vista)



SU1 Light to Medium - Heavy Cases of Supra-Gingival Calculus, Utilizing the side radius of the initial 2-3mm of the top of the tip in a sweeping motion on the tooth enamel provides a smooth scaled surface with minimal need for secondary hand instrumentation.
SU6 Designed for Subgingival Scaling Long and thin design allows for a less evasive entry into subgingival pockets resulting in minimal patient sensitivity and reduced bleeding

Ultrasonic Scalers

HC Universal Curette Design for Sub and Surpragingi-val Scaling Designed for deep pocket access and powerful enough for medium to heavy calculus removal. Use the edge of the tip to guide the motion for smooth end results.

PTU Subgingival Pocket Scaling With a design to simulate the natural curvature of a tooth, this universsal tip provides for easy access into pockets with minimal patient discomfort. Extremely thin design helps address patient sensitivity and allows tip to create a smooth scaled surface.

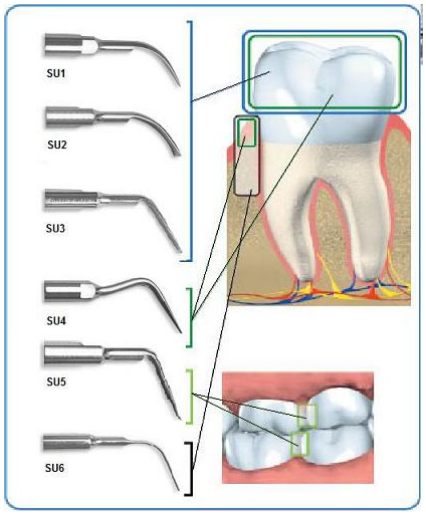
Ultrasonic Piezo Tips (Vista)

Hygiene/Perio

SU1 Light to Medium - Heavy Cases of Supra-Gingival Calculus

Utilizing the side radius of the initial 2-3mm of the top of the tip in a sweeping motion on the tooth enamel provides a smooth scaled surface with minimal need for secondary hand instrumentation.



SU2 Scaling of High Density Supra-Gingival Calculus Deposits

Utilizing the flat edge of the top of the tip and the side of the tip perpendicular to the tooth surface, use an up-and-down motion on the tooth surface to sheer off calculus.

SU3 Removal of Stains (Tobacco, Coffee & Other Similar Stains)

Utilizing both the round edge of the top of the tip and the side of the tip on the tooth surface, use an up and down motion on the tooth surface to sheer off stains.

SU4 General Scaling of Sensitive Areas

Less abrasive then the SU1 - SU3 tips, this tip is ideal for use in the periodontal pockets and with other sensitive locations.

SU5 Designed for Easy Interproximal Scaling

The thin design of the SU5 tip allows for entry into most interproximal spaces.

SU6 Designed for Subgingival Scaling

Long and thin design allows for a less evasive entry into subgingival pockets resulting in minimal patient sensitivity and reduced bleeding.

Piezo Tips (Bonart)

ART Piezo Tip: BE-1 / BS-1: is a pointed universal tip best used for general deposit removal in all quadrants.

ART Piezo Tip: BE-2 / BS-2: is a flat crescent tip best used for removing resin-free ortho cements. This tip may also be used for supragingival calculus removal.

ART Piezo Tip: BE-3 / BS-3: is a rounded flat tip. The rounded edge is designed for gentle treatment.

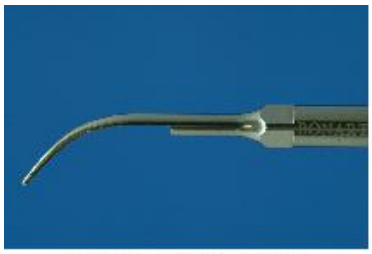
ART Piezo Tip: BS-PFR: is a right-angled tip designed for perio procedures and reaching difficult-to-reach spots near the posterior teeth.

ART Piezo Tip: BS-P: is a slim perio tip designed for supra and subgingival scaling.

ART Piezo Tip: BS-PFL: is a left-angled tip designed for perio procedures and reaching difficult-to-reach spots near the posterior teeth.

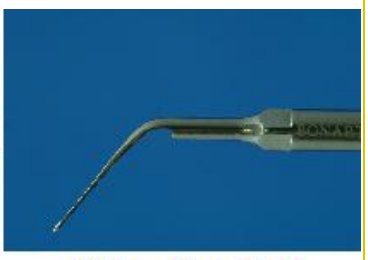
ART Piezo Tip: BS-PFU: is a straight-angled universal tip specially designed for perio procedures and reaching difficult-to-reach spots near the posterior teeth.

ART Piezo Tip: BS-10P: is a 45º angled tip recommended for procedures on shallow pockets.



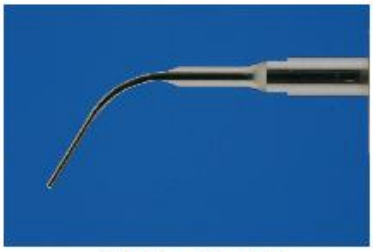
ART Piezo Tip: BE-1 / BS-1
Universal pointed tip

ART Piezo Tip: BE-2 / BS-2
Flat chisel tip



ART Piezo Tip: BE-3 / BS-3
Rounded flat tip

ART Piezo Tip: BS-PFR
Right-angled perio tip



ART Piezo Tip: BS-P
Slim perio tip

ART Piezo Tip: BS-PFL
Left-angled perio tip

ART Piezo Tip: BS-PFU
Straight-angled perio tip

ART Piezo Tip: BS-10P
45º angled perio tip

ART Piezo Tip: BS-H2L
Left-angled curved perio tip

ART Piezo Tip: BS-H2R
Right-angled curved perio tip

ART Piezo Tip: BS-10Z
Flat headed perio tip

ART Piezo Tip: BS-H2L: is a left-angled curved tip specially designed for perio functions and reaching difficult-to-reach spots near the posterior teeth. This tip is recommended for treatment on premolars, molars, furcation, and narrow spaces.

Foot Control Assembly Cavitron Select SPS BOOST Type (Chapman-Huffman)

•A footswitch assembly heavy enough to stay where you put it, no chasing it around with your foot
•Same light foot pressure to operate as original equipment switch
•Round pin male plug as illustrated with 8 foot cable
•Two position switch
•Fits DENTSPLY CAVITRON Select SPS BOOST
•DENTSPLY cross ref. # 565162003

Fits Dentsply Cavitron Select SPS Boost	56-88091	**195.95**

Perio Flow Ultrasonic Adapter (Vista)

•Transforms Piezo ultrasonic handpiece into a versatile subgingival pocket irrigator!
•Attaches any style of luer-lock irrigation tip to your piezo ultrasonic scaler
•Autoclavable
•Available in three styles to fit all Vista Piezo Ultrasonic units, Satelec and Tulsa P5 units, EMS and Amdent™ Piezo ultrasonic systems
•Great for subgingival irrigation after scaling

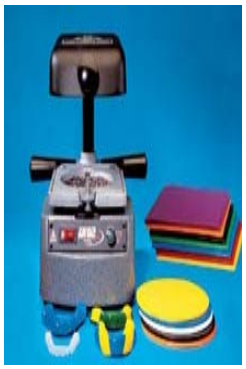
Vacuum Forming

Vacuum Forming Machines

Air Vac XQ Vacuum Former (Keystone)



The Keystome Air Vac XQ Dental Vacuum Forming Machine is a work horse Dental vacuum forming machine. It's price, features and reliability make it one of the best dental vacuum formers on the market. The Air Vac XQ has greater accuracy and definition when processing bleaching trays, sports mouth guards, implant stints, temporary splints, custom impression trays, denture bases, copings, temporary crowns and bridges and orthodontic appliances.

- The first and only patented 'Xtra Quiet", American made vacuum forming machine in the industry
- Utilizes compressed air to create all types of dental appliances in less time, with precise adaptation and superior accuracy
- **5 year warranty**
- UL, CUL, and CE rated

Air Vac XQ Vacuum Former110V	57-11111	**459.95**

Vacuum Forming

The Machine III Vacuum Former (Keystone)

This is the most popular Dental Vacuum Forming machine in the dental industry. Its price, features and reliability make it he first choice in dental vacuum formers. More power means greater accuracy and definition when processing bleaching trays, sports mouth guards, implant stints, temporary splints, custom impression trays, denture bases, copings, temporary crowns and bridges and orthodontic appliances.

- Uses 5” x 5” resin sheets
- 22 lbs

The Machine III 110V	57-11471	**369.95**
The Machine III 220V CE Euro Cord	57-11472	**389.95**

Tray-Vac Vacuum Forming Machine (Buffalo)

Excellent Performance Heavy duty electric vacuum motor provides powerful and immediate suction, creating accurate adaptations, no compressed air connections required.

Gasket-Free Easy Frame System spring loaded, self-leveling, gasket-free frame with clever quick-release “fingernail-saving” latch securely handles a variety of 5” x 5” sheet materials and maintains excellent alignment with the flat vacuum table

Solid Construction Solid construction (7 1/2” W x 9 1/2” D x 15” H, 17lbs) for improved durability, long life and virtually no maintenance in a lighter-weight design

Convenient and Safe Design heater hood rotates behind the center post for safety and convenience

Wide Range of Available Accessories Please see the complete line of Buffalo Dental vacuum forming equipment and supplies including a wide range of Vacuum Forming Sheets, Block-out Compound, Silicone Spray, Tray Handles, Knives and Burs, the ThermaKnife Thermal Cutting Knife, and PolyShoK Sports Mouth guard Materials.

Tray-Vac Vacuum Former, 220V AC, Light Weigh, Small Powerful (CE)	57-11472	**389.95**

Vacuum Forming Materials

Base Plate Material (Keystone)

Three thicknesses (.060, .080 & .100)
- Pure, high impact styrene 5”x 5” sheets
- Low melt temperature used for denture base or wax bite plates
- Packages of 100 or 625 sheets

Also available in round

.060 Base Plate 5” x 5” 100/Pkg	57-11117	**34.95**
.080 Base Plate 5” x 5” 100/Pkg	57-11116	**48.95**
.100 Base Plate 5” x 5” 100/Pkg	57-11115	**52.95**
.060 Base Plate 5” x 5” 625/Pkg	57-11114	**209.95**
.080 Base Plate 5” x 5” 625/Pkg	57-11113	**279.95**
.100 Base Plate 5” x 5” 625/Pkg	57-11118	**299.95**

Coping Material (Keystone)

Excellent for temporary bridges
- Get good Definition
- 5”x 5” sheets
- Three thicknesses (.020, .030 & .040)

Also available in round

.020 Coping 5” x 5” 50/Pkg	57-11123	**17.95**
.030 Coping 5” x 5” 50/Pkg	57-11122	**19.95**
.040 Coping 5” x 5” 50/Pkg	57-11121	**22.95**
.020 Coping 5” x 5” 625/Pkg	57-11120	**119.95**
.030 Coping 5” x 5” 625/Pkg	57-11119	**139.95**
.040 Coping 5” x 5” 625/Pkg	57-11127	**179.95**

Crown & Bridge Material (Keystone)

- Thin, clear rigid material
- 5” x 5” sheets
- Acrylic does not bond to material
- For temporary bridges
- Packages of 50 or 625 sheets

Also available in round

.020 Crown &Bridge 5” x 5” 50/Pkg	57-11128	**24.95**
.020 Crown & Bridge 5” x 5” 625/Pkg	57-11129	**259.95**

Vacuum Forming

Duraclear Sheets Round (Dentsply)

Best material for combination of strength, durability, and clarity. Unsurpassed clarity when formed. Can be cleaned with almost any method without staining or wear. Extremely durable, will not crack, bend out of shape, or break. Will bond to acrylic, making it easy to modify for other appliance uses. Specific uses include invisible retainers, minor tooth movement, temporary bridges, aligners, and bite planes.

.030" 125mm 20 sheets/box	57-11139	**34.95**

.040" 5" 20 sheets/box	57-11145	**34.95**
.040" 125mm 20 sheets/box	57-11144	**34.95**
.060" 5" 10 sheets/box	57-11143	**34.95**
.060" 125mm 10 sheets/box	57-11142	**34.95**
.080" 5" 10 sheets/box	57-11141	**34.95**
.080" 125mm 10 sheets/box	57-11140	**34.95**

Duraforce Sheets (Dentsply)

Superior conformity to the model when heated, little or no shrink. Cooling spray is not required.

Great long term wear. Strong and durable, will not crack or break. Strong enough to create divots and initiate tooth movement if needed. Can be easily cleaned without heavily staining the material. Good clarity. Not bondable to acrylic. Specific uses include final retainers, bruxism splints, temporary bridges, and minor tooth movement.

Pro-Flex & Dual Combo (Keystone)

An excellent way to make niteguards. First, vacuum form a dual laminate onto the patient's cast. This gives a hard bite plate with a built-in soft liner. Then, modify the occlusal surface by adding the semi-flexible Pro-flex NFC acrylic resin. The final result is a hard bite plate modified to the patient's needs that is slightly flexible with a soft inner liner for patient comfort. Two great products combined into one terrific final appliance.

Dual Laminate Kit	57-11364	**59.95**
Clear NFC 160gm Powder w 4oz Liquid Kit	57-11365	**139.95**

Pro-Form Fun Mouthguards (Keystone)

Pro-form has added some new designs to its extensive line of laminated mouthguards. They are all made using the same laminating procedure to insure the same Pro-form quality.

Also available in round

Blue Polkadot 5"x 5", 12/Pk	57-11391	**59.95**
White Polkadot 5" x 5", 12/Pk	57-11390	**59.95**

Blood 5" x 5", 12/ Pk	57-11392	**59.95**

Pro-Form Dual Laminates - E– Gasket (Keystone)

The Pro-form Dual Laminate is a unique combination of two materials formed into a single laminated sheet. It was made especially for use in bruxing cases. The soft liner assures patient comfort and the hard surface assures long-lasting wear. Also, acrylic will bond to the hard surface to allow the dental technician to modify the occlusal surface. Available in 3 different thicknesses (2, 3, & 5 mm). 12 laminated sheets per package.

Also available in round

2mm E-Gasket 5"x 5", 12/Pk	57-11130	**57.95**
3mm Dual Laminates 5"x 5",	57-11131	**62.95**
5mm Anti Snore Device 5"x 5", 12/Pk	57-12132	**68.95**

Pro-Form Niteguards (Keystone)

This laminate or layered soft/soft material was made specifically for nighttime bruxers. The layering gives the thermoplastic a more abrasion-resistant characteristic that will withstand grinding better than traditional soft sheet materials. Available in packages of 12 laminates.

Also available in round

Niteguards 5" x 5" ,12/Pk	57-11363	**54.95**

Vacuum Forming

Pro-Form Tie-Dye Mouthguards (Keystone)

Also available in round

Pro-form has added some new Tie Dye designs to its extensive line of laminated mouthguards. They are all made using the same laminating procedure to insure the same Pro-form quality.

Vacuum Forming

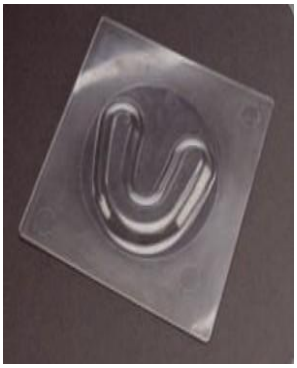
Tuff Form Sheets (Dentsply)



Patented arch form indentation. Provides additional material surface area, which eliminates thinning along the incisal edge, and provides a retainer with uniform thickness throughout the appliance. Will bond to acrylic, making it useful for creating modified appliances. Superior conformity to the model when heated. Material has little or no shrink. Material forms to the contours of the model, and cooling spray is not required. A very secure fit to the model is assured. Great clarity when formed, creating a true invisible retainer for patients. Will not get brittle and crack. Material forms thin, making it comfortable for the patient, and increasing patient compliance. Specific uses include invisible retainers, minor tooth movement, temporary bridges, aligners, and bite planes.

Clear Square .040”,	Box of 50 sheets	57-11481	**79.95**
Clear Round .040”,	Box of 50 sheets	57-11482	**79.95**

Tray Material (Keystone)

Also available in round

- Two thickness
- Pure, high impact styrene
- 5” x 5”, sheets
- Custom impression trays
- Packages of 100 or 625 sheets

Wax Equipment

Digital Wax Pot BesQual-E100 (MDC)

- 4 Compartment Wax Heater
- Easy to use and operate
- Heats wax quickly and maintains in its liquid condition without any change in its physical properties
- Built-in digital CPU circuit to preset and maintain desired temperature accurately and precisely
- Operates both in Celcius or Fahrenheit (°C/°F)

Digital Wax Pot BesQual-E100 58-11124 **124.95**

Wax Pot BesQual-E350 (MDC)

- 4 Compartment Wax Heater
- Built-in thermostat to accurately maintain desired temperature
- Easy to use and operate
- Heats wax quickly and maintains in its liquid condition without any change in its physical properties
- Automatica Heater-On indicator LED (LED turns off when reaching preset temperature)
- Operates both in Celcius or Fahrenheit (°C/°F)

Wax Pot BesQual-E350 58-11125 **124.95**

Digital Wax Pot BesQual-E120 (MDC)

- Digital Single Pot Wax Heater
- Easy to use and operate
- Heats wax quickly and maintains in its liquid condition without any change in its physical properties
- Built-in digital CPU circuit to preset and maintain desired temperature accurately and precisely
- Operates both in Celsius or Fahrenheit (°C/°F)

Digital Wax Pot BesQual-E120 58-11126 **124.95**

Digital Dipping Pot BesQual-S200 (MDC)

- Excellent heat conductivity, lasting service life and easy to use
- Built-in memory chip to memorize the previous working temperature even after turning off power
- Operates both in Celcius or Fahrenheit (°C/°F)
- Automatic heater-on indicator LED (LED off when reaching the preset temperature)

Digital Dipping Pot BesQual-S200 58-11127 **124.95**

Multi Wax Pot BesQual-S800 (MDC)

- Individual temperature setting for each pot with LCD Digital Display
- Built-in memory function to keep previous temperature
- Operates both in Celcius or Fahrenheit (°C/°F)
- Built-in thermostat; Accurately maintains desired temperature

Fixer & Developer (Air Techniques)

Every batch of Air Techniques chemistry receives continual quality checks from start to finish.
It has superior anti-oxidation properties for longer life.
Balanced hardener levels protect the film emulsion, preventing scratches and roller marks during processing.
Air Techniques Fixer easily washes off the film surface, extending archival life of the radiographs.

Insta NEG Insta Fix (Microcopy)

Premixed Instant Developing Solution, Manual x-ray processing is reduced to one minute or less
With INSTA-NEG and INSTA-FIX, manual X-ray processing is reduced to less than one minute! These solutions give not only speed but great diagnostic quality with archival permanence. In addition, many users indicate a greater active tank life compared to conventional and other high-energy solutions. INSTA-NEG and INSTA-FIX are premixed for use in either standard developing tanks for TOTAL X-ray processing (including panoramic film), or in small containers for endodontic and

Film Holders

Dental X-Ray Film Dispenser (Kodak)

Each	59-92951	**169.95**

XCP Evolution 2000 X-Ray Film Positioners Kit (Dentsply-Rinn)

DENTSPLY Rinn's XCP film holding system has been the state-of-the-art in dental radiography for over a third of a century. Steadily refined over the years, recent improvements have made today's XCP easier to use and brought a new level of patient comfort. Now the XCP brings precise film positioning to a whole new area - endodontics.

• Aligns film and prevents cone cutting, for perfect x-rays every time. XCP long-cone technique reduces distortion.
• Color-coded for easy assembly
• Rounded bite blocks with no sharp edges improve comfort; open bite block design gives a softer bite
• NEW! Anterior vertical bite-wings using #1 x-ray film
• Same-arch bite technique for bite-wings with a more closed bite
• Thinner, lighter aiming rings, compatible with rectangular and round open-ended PIDs
• New, shorter arms fit all intraoral x-ray units, guide PID for proper alignment
• Fully steam autoclavable

Kit w/Bite-Wing Holder, Each	59-92961	**129.95**

X-Ray

Air Techniques Film Holders

Film Carrier for Peri Pro (Air Techniques)

Size 0, Pedo Film, 5/Box	59-11201	**44.95**
Size 1, Adult Anterior Film, 5/Box	59-11200	**44.95**

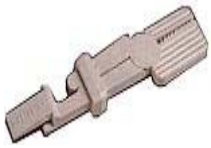
ATW Film Holders

Coin Envelopes (ATW)

White 500/Pkg	59-11141	**9.95**
Yellow 500/Pkg	59-11140	**9.95**

Snap Film Holder (ATW)

Autocalvable Holds Films size #0, #1 or #2 paralleling or bisecting angle techniques for anterior or posterior exposures.



3/Pkg	59-11292	**16.99**

Flow X-Ray Film Holders

Cushies (Flow X-Ray)

Cushies are pre-slit, individually wrapped foam tubes that slip onto dental film to "cushion" its edges when placed in the mouth. Place one between a patient's teeth and the RAPD bite-blocks to make it easier for the patient to hold the bite-block in place. Cushies fit either the long or short side of dental film.

50/Pkg	59-11147	**8.49**

Endodontic Film Positioning System (Flow X-Ray)

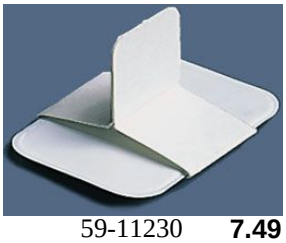
Flow's Endodontic Positioner System works just like our RAPD system except that it is designed specifically for endodontic x-rays. It combines the advantages of the right angle positioning technique in an endodontic format to eliminate cone-cutting when taking x-rays during endodontic procedures. The entire kit is autoclavable and, like the RAPD System, is available as a kit or replacement bite-blocks, arms and rings.

3 Bite-Blocks for Endodontic Positioning System.	59-11191	**10.79**
Indicator Arm for Endodontic Positioning System.	59-11190	**24.79**
Aiming Ring for Endodontic Positioning System.	59-11189	**3.75**
Kit, 2 Aiming Rings, 2 Indicator Arms and 2 Bite-Blocks.	59-11188	**26.95**

Loop-EZ Bite-Wing Loops (Flow X-Ray)

Slip-on bite-wing loops

Made of heavy-duty paper board, Flow's bite-wing ops are made to accommodate any dental film



Child 500/Pkg	59-11230	**7.49**
Adult 1500/Pkg	59-11229	**17.49**
Adult 500/Pkg	59-11228	**7.49**

Stickem's Bite-Wing Tabs (Flow X-Ray)

Self-Adhesive Bite-Wing Tabs – automatic dispenser. easily fold down and stick to any size film.

500/Pkg	59-11296	**7.95**

Microcopy Film Holders

Edge-Ease Tissue Protectors (Microcopy)

Edge-Ease soft foam cushions provide a comfortable edge on intraoral film packets.
They adhere to the film packet and enable patients to bite harder without discomfort from soft-tissue trauma.

Sizes White: (short) 300/pkg.	59-11187	**48.75**
Sizes Blue: (long), 300/Pkg	59-11186	**48.75**

X-Ray

Flaps Film Tabs (Microcopy)

FLAPS® are stick-on film holding tabs made of soft plastic foam for soft, comfortable positioning of both periapical and bite-wing X-rays.
Also great for digital X-ray sensor positioning.

500/Pkg	59-11206	**32.95**

Miltex Film Holders

X-Ray Film Holders (Miltex)

Steam and chemical Autoclavable
Straight end.

3/Pkg	59-11723	**17.95**

Pac-Dent Film Holders

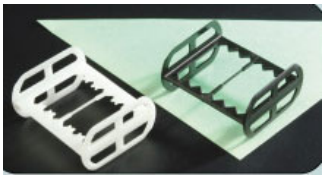
Bite Wing Tabs (PacDent)

Self-adhesive tabs to aid in film positioning when taking X-rays. Can be affixed to film packet, packaged in handy dispenser box which is easy to use and store.

500/Pkg	59-11125	**5.76**

PlasDent Film Holders

Film Carrier (PlasDent)



Size #1 Black, 5/Pkg	59-11199	**13.47**
Size #0 & #00 White, 5/Pkg	59-11198	**13.47**

XCP Aiming Rings (HB)

Complete Kit: 5 aiming rings 2 posterior yellow,, 1 anterior blue, 1 bitewing red, 1 endodontic green;5 indicator arms -2 posterior yellow, 1 anterior blue, 1 bitewing red, 1 endodontic chrome; 19 bite blocks– 8 posterior bite block yellow

	59-25951	**49.95**
Aiming Ring, Anterior Blue 4/Pkg	59-25955	**17.95**

Kit Duo both #1 & #2 Sensors with control unit, rayMage imaging software, sensor positioning kit 30-11483 **9,994.00**

Hyperion Panoramic Imager Morphology Recognition Technology (MyRay)

Panoramic Imager with Morphology Recognition Technology (MRT)

Hyperion is a highly-advanced panoramic imager, which employs the latest technologyes to enhance radiography acquisition and diagnostics.

Via laser-guide multi-motor kinematics, Hyperion positions itself around pationts, reads subjects and scans accordingly, Morophology Recognition Technology (MRT) automatically identifies patient size and all parameters required to ensure correct X-Ray exposure.

No need to program exposure times, KV or mA technical factors.

15 different diagnostic programs are available to satisfy any possible diagnostic need.

Digital Sensor Holders

Comfee's Sensor Sleeves (Flow X-Ray)

Comfee's sleeves are the best way to protect your valuable digital sensors and maximize their effectiveness.
Comfee's are made from soft, supple vinyl with a unique textured design that reduces surface resistance, so sensors slide in effortlessly.

Econo-Pak, Large size (fits most size 2 sensors) – box of 500	59-92293	**15.95**
2 Sensor Sleeves, Large Size fit most size 2 Sensors 500/Pkg	59-92292	**52.95**
0 Sensor Sleeves, Medium Size fit most size 0/1 Sensor 500/Pkg	59-92291	**52.95**
Econo-Pak, Medium size (fits most size 0 and 1 sensors) – box of 500	59-92294	**15.95**

Kodak Sensor Sheath (Tidi)

Size 0, 500/Box	30-92861	**89.95**
Size 1, 500/Box	30-92862	**89.95**
Size 2, 500/Box	30-92863	**89.95**

Schick X-Ray Sensor Sheath (Tidi)

- Tear-resistant durable material
- Soft edges and no excess plastic for patient comfort
- Custom fit reduces slipping on bitewings, ensuring a good image
- Hygienic top-web and paper backing to provide superior cleanliness
- Conveniently packaged in handy dispending units
- Latex free

Size 0, 500/Box	30-92881	**69.95**
Size 1, 500/Box	30-92882	**69.95**
Size 2, 500/Box	30-92883	**69.95**

Dexis Sensor Sheath (Tidi)

- Custom fit infection control
- Tear-resistant durable material
- Soft edges for patient comfort
- Latex free
- Easy to apply and remove
- Protects patients, staff and equipment

500/Box	30-92851	**69.95**

Sensor Slippers - Sensor Sleeve (Crosstex)

Convenient "all-in-one" barrier sleeve, comfort cushion and positioning aid
Converts autoclaveable film holders into sensor holders
Super comfort for the patient!
Seamless sleeve won't abrade corners of the mouth
Eliminates bulky sensor holders / baskets
Saves time - convenient, economical and a delight to use!
Color-coded for ease of use: yellow for posterior, blue for anterior

Large, Fit all #2 Sensors, each	30-92791	**29.95**

Digital X-Ray Sensor Protector (Palmero)

Size 2 1/2" x 10", 500/Box	30-92841	**12.95**
Size 1 3/8" x 8", 500/Box	30-92842	**12.95**
Size 1 5/8" x 8", 500/Box	30-92843	**12.95**

R.S. Barrier™ Digital X-Ray Sensor Barrier (Steri-Shield)

For use with radiological sensors, these snug fitting elastic barriers fit all popular sensors on the market. Perfect infection control for your patients while protecting your equipment form corrosive wipes or sterilizing solutions. available in non-latex (white) and a value priced natural rubber latex (blue)
One size fits all sensors
Eliminates damage effect of cold sterilizers on sensors
Helps pad sensor edges for patient comfort
Easy on/off, snug fitting sleeve design

R.S. Barrier™ (Green) Non-Latex, 250/Pkg	59-90621	**49.95**
R.S. Barrier™ (Blue) Latex, 250/ Pkg	59-90622	**37.95**

Sensibles Adjustable Sensor Positioning System (Flow X-Ray)

Adjustable bite block that works with our Aiming Rings and arms to position various sizes/ brands of x-ray sensors.
Unique patent pending ratcheting system hold various size sensors.
Color coded parts.
Maximum size allowance

Sensor Positioning System	59-92771	**94.95**
Econo Starter Kit, each	59-92772	**39.95**
Refill Kit -12 Large bite blocks, each	59-92773	**49.95**
Refill Kit -12 Medium bite blocks, each	59-92774	**49.95**

X-Ray

Regam X-Ray Sensor Sheath (Tidi)

- Soft edges and no excess plastic for patient comfort
- Designed to fit Regam size 2 sensor
- Latex free

Size 2, B-131, 500/Box	30-92871	**69.95**

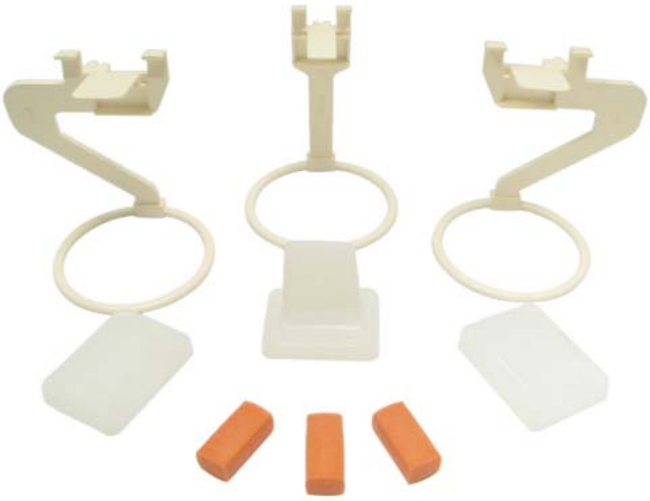
Wrap Ease Sensor Sleeve (Crosstex)

-Fully adjustable "all-in-one" barrier sleeve, comfort cushion, and positioning aid
-Fits perfectly in Rinn® products, even converts autoclaveable film holders into sensor holders
-Quick, easy, economical
-Works with all the leading positioning devices
-Available in two sizes and completely adjustable to fit all sensors
-Eliminates the need for costly disposable baskets / holders

Fit all size 2 Digital Sensor, each	30-92801	**27.95**
Fit all Size 0-1 Digital Sensor, each	30-92802	**27.95**

Dentazon Digital Sensor Holders

Digital X-Ray Positioner & Aligner (Dentazon)



DXPA : Less-pain digital x-ray sensor positioner and aligner
DXPA significantly reduces patient's oral discomfort while using digital x-ray sensors. The DXPA comes with 2 uniquely designed autoclaveable silicone covers and 1 bite wing cover which can be autoclaved (recommended temp. -125°C). The DXPA delivers reliable results for both anterior and posterior digital x-ray images.

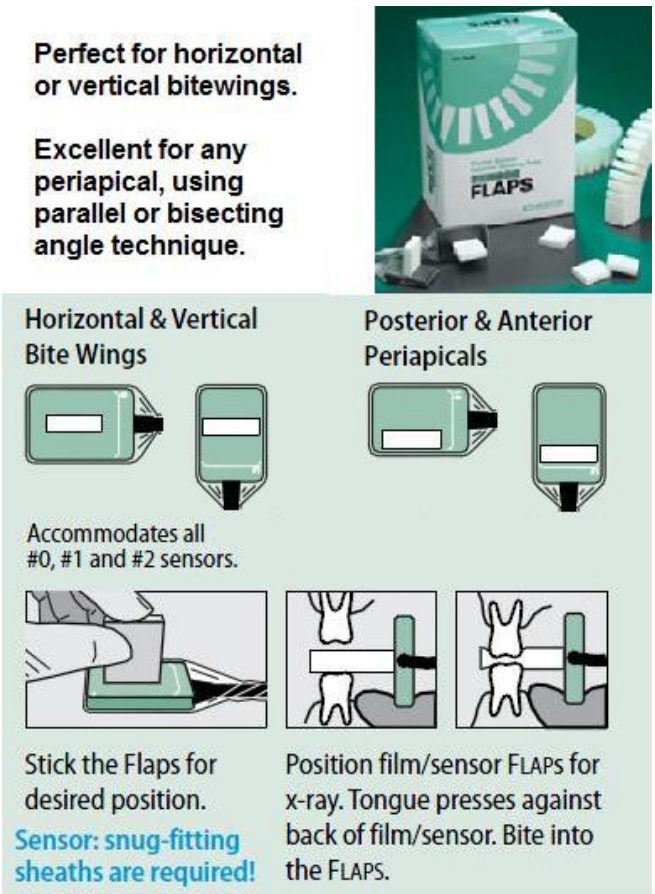
Features :

- Reduces patient's oral discomfort
- Excellent sensor protection
- Compatible with 89% of all sensors (Schick, Suni, Sirona, Vatech, Eva, Toshiba, E2V, Acteon ... etc.)
- Perfect for both anterior and posterior teeth
- All the parts are 100% autoclaveable at 125°C
- Silicone sensor covers are available in 2 sizes (size1 / 2)

Size 1 model#41S10 fits Suni	30-11174	**98.95**
Size 2 model #41S20 fits Suni	30-11173	**98.95**
Size 1 model #49S10 fits Schick, Vatech, Sirona Xios, Toshiba,Visiodent RSV, Owandy Dsx 730 and Progeny Dental MPSe	30-11172	**98.95**
size 1.5 model #49S15 Vatech	30-11171	**98.95**
size 2 model #49S20 fits Vatech, Sirona XIOS, Toshiba and Visiodent RSV	30-11170	**98.95**

Microcopy Digital Sensor Holders

Flaps Sensor Tabs (Microcopy)



SENSOR FLAPS® are designed with extra length for accurate, comfortable sensor positioning, assuring correct alignment for horizontal and vertical bitewing and per apical x-rays. Accommodates all #0, #1, and #2 sensors.

375 tabs/box	59-11207	**34.99**

PlasDent Digital Sensor Holders

Digital Sensor Holder (PlasDent)

Compare to Snap-A-Ray Digital Sensor Holder

Digital Sensor Holder, Blue Color 3/Pkg	59-11162	**13.47**
Digital Sensor Holder, Beige Color 3/Pkg	59-11161	**13.47**

Steri-shield Digital Sensor Holders

Paralleling Aimer Ring and Bars (Steri-Shield)

Wingers Paralleling Aimer Ring and bar set is designed for use with the wingers-A (Anterior) & Wingers-P (Posterior) sensor holds. This paralleling set can produce all the same shots you'd expect with far less pieces than other similar products on the market

Wingers paralleling Aimer Ring and Bar set is designed for use with the Wingers-A (Anterior) and Wingers-P (Posterior) sensor holders. Innovative, this paralleling set can produce all the shots you'd expect with far less pieces than other similar products on the market. So much of the technique needed for excellent image capture is already built into these three items, that your clinical staff will be producing great images right away.
These items can be sterilized (Max 105 °C).

- Use with Anterior and Posterior Holders!
- Easy To Use!
- Can Be Sterilized!

Set of 3, content:Aimer Ring, Posterior Bar and Anterior Bar	59-12263	**41.85**
Aimer Ring - single	59-12260	**18.95**
Posterior Bar - single	59-12261	**18.95**
Anterior Bar - single	59-12262	**18.95**

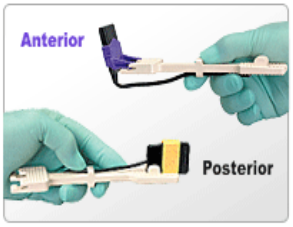
Wingers Organizer Tray (Steri-Shield)

Stores all wingers parts in 13 custom size pockets.
Features a removable hinged top for easy storage in drawers

Organizer Tray	59-11720	**23.85**

X-Ray

Wing-A-Ray Digital X-Ray Holder (Steri-Shield)



A new Digital X-Ray positioning tool is now available for use with the popular Wingers sensors holders. Easy Bisecting Angle Technique. Positions for both Anterior and Posterior Images.

This incredibly versatile new digital x-ray positioning tool, allows the practitioner familiar with the "Bisecting Angle Technique" to produce anterior and posterior images of uppers and lowers with ease. Used together with the **Wingers®** bitewing holders, this system will quickly produce an FMX. No damaging pressure or clamping of the sensor is necessary with **Wing-A-Ray™** , the **Wingers®** anterior and posterior disposable holders slide easily into the tool to hold the digital sensor. Fits all digital sensors on the market, **Wing-A-Ray™** can be cold or heat sterilized (105 °C Max.), **Wingers®** sensor holders are disposable.

- Easy Bisecting Angle Technique!
- Works with Wingers® Digital Sensor Holders!
- Positions for Both Anterior & Posterior Images!

Wing-A-Ray Digital X-Ray Holder (each)	59-11708	**32.95**

Phosphor Ray (Steri-Shield)

Soft foam, bisecting angle tool will capture all your Anterior and Posterior images with ease and without scratching your delicate phosphor plates.
Extremely comfortable for your patient.

Capture perfect indirect digital images every time while extending the life of your delicate phosphor plates.

Phosphor Ray	59-11276	**23.85**

Wingers Digital X-Ray Sensor Holders (Steri-Shield)

*Positioning System for Digital Radiography Sensors makes taking great images easy!
* Each piece is available in small and large corresponding to the #1 and #2 sensors.
* Wingers are made of a specially formulated,
* super soft plastic that fits comfortably into your patient's mouth.
* Designed to fit all popular systems including Trophy, Schick, Dexis, Gendex, Sens-A-Ray, Sigma, Quickray, Dixi and other Wingers that are disposable.

TrollDental Digital Sensor Holders

TrollByte Digital Sensor Holder Kit (TrollDental)

TrollByte is the first sensor holder specifically developed for digital technology.

You only need three holders for a complete intraoral x-ray exam.

Each holder is a thin, sturdy one-piece, which eliminates remounting of aiming pins and rings, saving time and money.
TrollByte holders ensure a correct sensor angle.
Autoclavable.

X-Ray Phosphor Plate Products

Apixia PSP Phosphor Plates Scanner

Compare to ScanX Duo from Air Techniques

Imaging is fast and simple. The smart top-loading design harnesses the power of gravity for simple loading and fuss-free use. In less than ten seconds, the crystal clear radiograph appears on the computer screen, ready for viewing. Simply insert the next exposed plate when ready

Phosphor plates have all the benefits of traditional X-ray film with the immediacy and environmental benefits of digital radiography. There is no more need for hazardous and costly film processing chemicals with the DIGIREX PSP Scanner.

Patient comfort is also assured with thin flexible plates in multiple sizes. After a quick scan of exposed plates, high resolution images are ready to be stored, emailed, and printed at the touch of a button.

Plates can be used over and over saving time and money on costly traditional film. Digital imaging is finally within the reach of any dental office's financial and technical abilities

- Small Tabletop Design
- High Resolution Scans in a Fraction of the Time
- Automatic In-line Eraser
- Powerful, Easy-To-Use Software Included
- Value-Priced for any Dental Practice
- Dimensions 258 mm x 138 mm x 183 mm
- Weight 3.6 kg
- Voltage AC 100-240V, 50/60Hz
- Scan Time 10 seconds
- Resolution 17 lp/mm
- Connection Type USB 2.0
- Plate Sizes Takes from size 0 to siaze 3
- ***2 years warranty of scanner unit***
  Apixia Imaging Software offers optional integration to all leading brands of practice management software: Easy-Dent , EagleSoft Practiceworks, Softdent, Dentrix, EZ2000,

Digirex PSP Scanner + 12 Plates size #2 + Imaging Software + 500 Barriers envelops 30-25805 **6,99500**

Phosphor Imaging Plates (Soredex)

These imaging plates are for use in the OpTime Digital Imaging System for Intraoral X-Rays.

Excellent clinical results

- Comfortable for the patient
- Latest generation of imaging plates
- Small footprint with many installation options
- Cost-effective sharing between operatories over local area network

Size 2, 6/Pkg 30-98831 **179.95**

Phosphor Imaging Plates (Gendex)

Size 0, 2/Pkg	30-89511	**69.95**
Size 2, 4/Pkg	30-89512	**127.95**

Phosphor Imaging Plates (Apixia)

Imaging with PSP plates offers all the flexibility and patient comfort of film, combined with the immediacy and environmental benefits of digital radiography. Position and expose the flexible PSP plate just like a piece of film, remove it from the hygienic envelope and drop it into the Apixia PSP Scanner. Plates come in sizes 0, 1, 2 and 3.
Made in USA

#0, 35mm x 22mm, 4/Pkg	30-25800	**104.95**

X-Pod Wireless Dental Digital X-Ray Sensor (MyRay)

Stand-Alone Wireless Digital X-Ray sensor with

Self-sufficient diagnostics

The sensors have cut corners, a two fold filtering system to give crisp high detailed image boasting 25 lp/mm.

X-POD is smaller than an IPAD and contains its own imaging software, with a touch screen and the ability to plug the sensors directly in to it, so that it allows you to simply walk into the operatory room and instantly collect crystal clear radiographs. Review and zoom the high resolution images on a wide yet pocketsize touch screen display

Don't worry about external power supply, wires, software or a PC. X-Pod incorporates them all.

Leave X-Pod on charge overnight and get a whole days auton-

X-Pod with sensors size #1	30-11469	**Call for price**
X-Pod with sensors size #2	30-11468	**Call for price**
X-Pod Kit with sensors size 1 and 2, touch screen, Bluetooth dongle, charger, X-Ray Mage imaging software, sensor positioning kits, holster	30-11470	**Call for price**
Bluetooth dongle	30-11471	**99.00**

Prestige Dental Products, Inc.

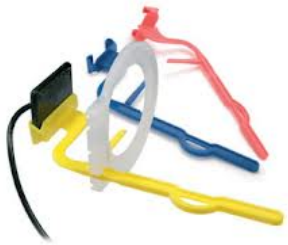
TrollByte Plus Sensor Holders Kit (Trolldental)



Only need three holders for a complete intraoral x-ray exam. Each holder is a thin, sturdy one-piece, which eliminates remounting of aiming pins and rings.
TrollByte holders ensure a correct sensor angle. They're also autoclavable.

For: ImageRAYi #1, EVA#1,EVA+ 1, OEM #1, Suni Ray #1, Easy Ray #1, Dsx Evo 3 #1	59-11602	**94.85**

TrollByte Sensor Holder HBW (Trolldental)

TrollByte is the first sensor holder specifically developed for digital technology. You only need three holders for a complete intraoral x-ray exam. Each holder is a thin, sturdy one-piece, which eliminates re-mounting of aiming pins and rings, saving time and money. TrollByte holders ensure a correct sensor angle. Autoclavable.

For Cygnus Ray #1 Contains: 3 Holders - One of each VBW/AF, HBW & AMR plus one bite block	59-11680	**94.85**
For Cygnus Ray #2 Contains: 3 Holders - One of each VBW/AF, HBW & AMR plus one bite block	59-11679	**94.85**
For Planmeca Dixi2 #2 Contains: 3 Holders - One of each VBW/AF, HBW & AMR plus one bite block	59-11666	**94.85**
For Planmeca Dixi3 #1 Contains: 3 Holders - One of each VBW/AF, HBW & AMR plus one bite block	59-11681	**94.85**

Teal Color	59-87646	**169.95**

WIREguard Digital Sensor Cable Protector (IndiGreen)

Pre-slit to install securely in minutes!

During normal operation, digital sensor cables kink, coil and bend. Heavy objects set or rolled over them can damage their insulation. Over time, this constant wear can cause a short that makes them inoperable, costing a fortune in repair or replacement.
Invented and proven in a busy practice, WireGuard extends the life of sensitive digital radiography sensors by protecting cables from damage due to kinks and compression.
Its ideal resiliency helps maintain and return the cable inside to a more linear position. Prevents uncontrolled coiling, kinking, bending, knotting and tangling—and saves frustration too! With a slit down the entire length, it installs over any cable in minutes and stays in place for the life of the sensor. Medical-grade silicone construction withstands all surface disinfectants. 3/16" inner diameter.
Each kit is complete with parts and instructions for one sensor installation. Note: WireGuard does not replace the sensor manufacturer's warranty or maintenance plan. The user assumes full responsibility and liability for proper application and use of WireGuard.

5 ft. WireGuard	59-87901	**38.95**
8 ft. WireGuard	59-87902	**44.95**

X-Ray

Child Lead Apron (Palmero)
